

The complete dust-free surface finishing solution

When it comes to creating magnificent yachts and boats, Mirka professional sanding and polishing solutions play an essential part in achieving the best quality and finish.

With decades of experience, the Finnish family-owned company, Mirka is a world leader in surface finishing technology. We specialize in complete dust-free solutions, where our ground-breaking abrasives are supplemented by our innovatively designed tools and sustainable, water-based polishing compounds. With an export rate of approximately 98 percent, our products are sold in more than 100 countries.

At Mirka, we collaborate closely with our customers, seeking to form a partnership where we can match the customer's needs with our expertise. We start by looking at the complete picture, removing dust from the sanding process and making sure the final finish has the deep, lasting shine you are looking for.

Our high technology products and award-winning tools are perfectly suited for various marine surfaces, from sanding the contours of composite boats to smoothening out the gelcoat finish, all the way from small scale to high volume production. With Mirka, you get the complete dust-free surface finishing solution that seeks to boost your business.

Meet us at the METS – Marine Equipment Trade Show in Amsterdam Wednesday 15 to Friday 17 November 2023, stand number 01.781.
