HAYN ROD RIGGING

MANUFACTURER OF QUALITY HARDWARE

WWW.HAYN.COM

About Us:

Hayn has been engineering and manufacturing marine, architectural, and industrial rigging hardware since the late 1950's. Hayn's commitment to advanced automation, latest design technology, and manufacturing techniques give us a distinct advantage over our competitors. Hayn offers short lead-times for both our standard products as well as custom components. Hayn's corporate culture includes a highly specialized team that endlessly seeks opportunities for improvement to quality and product features, as well as customer service.

Product Traceability / Quality Control:

All Hayn products have full traceability including raw material certificates and certificates of conformity. Requirements for this documentation should be indicated at time of order. Hayn employs a comprehensive quality system that includes thorough review of any non-conformance of products, internal processes, etc.

Specifications:

Product specifications are subject to change without notice. Catalog images are representative of the product type/family and may not reflect the item purchased. Product drawings are available upon request which include the most recent and accurate information available.

Custom Rigging Products:

Hayn carries a comprehensive standard product offering. In the event that the products required for your rigging application differ from those that are standard catalog items, Hayn will produce custom components to your specifications. Please contact us for pricing and lead-times.

Customer Service:

Normal business hours are between 8:00 am and 5:30 pm EST Monday-Thursday and until 5:00pm EST on Friday. Hayn's dedicated and knowledgeable sales team is available during those hours to answer your product questions and receive product orders. Specific application questions for your vessel should be directed to your preferred Rigger as they are your best source for this type of information. Please contact us for the authorized Hayn product dealer or rigger near you.

Wholesale Sales (Exclusively):

Hayn manufactures and distributes quality marine products exclusively for the rigging trade. All orders are strongly encouraged to exceed \$100 as a minimum. Possession of this catalog does not constitute an agreement to sell. Please contact us directly for an applicable Hayn Dealer or Rigger nearest you.

Ordering Methods Include:

E-mail – sales@hayn.com
Phone – 800-346-4296
Fax – 800-441-4296

Payment:

Payment terms are Net 30 Days for established accounts. All major Credit Cards are accepted. Prepayment or C.O.D. shipment is required for first time orders or until account terms are established. Past due accounts will transfer to C.O.D. status and are subject to a 1-1/2% finance charge added per month until the balance is paid in full. Payment discounts will not be allowed on invoices with account balances that are past due.

Freight:

All freight costs are the responsibility of the customer. Freight and insurance charges will be added to the invoice at time of shipment. All C.O.D. shipments are subject to an applicable transaction fee. All small package ground and air shipments can be shipped via UPS or FedEx. Larger shipments may be sent through a common carrier. Shipments with other carriers may incur additional charges.

Returns:

Special order or custom items may not be returnable. Only current version product inventory will be accepted for credit. Credit values are based on original invoice value. Product returned after 60 days from time of shipment is subject to a restocking charge of 10%. Product returned must have a Hayn issued RMA (Returned Merchandise Authorization) number.

Return address:

Hayn Enterprises

51 Inwood Road
Rocky Hill, CT 06067 USA

Attn: Returns Department – RMA# _____

Warranty:

Hayn Marine hardware manufactured by Hayn Enterprises, LLC is guaranteed at time of shipment to be free of defects in material and craftsmanship and only when used for the purpose intended. Hayn does not accept responsibility for product used in applications where safe working loads are exceeded, product has been improperly installed, and/or product has been modified.

Hayn makes no representations for suitability to a particular application.

Warranty is limited to repair or replacement, at Hayn's discretion, of the warranted part only.

Hayn Enterprises, LLC does not, under any circumstance, assume responsibility for any incidental damages incurred in connection with the use of its products. All hardware manufactured by Hayn Enterprises, LLC carries a limited lifetime warranty.

Assembly includes 2 caps, 2 cup washers, 2 micro stemballs, and 1 tie bar.

K150 TANG / C651 TURNBUCKLE COMBINATION

Based on the K150 design system, works with cup washer for use with tip turnbuckles. Commonly used on jumper assemblies.

Suffix 01 - Assembly includes 1 cap, 1 cup washer, and 1 backing plate.

Suffix 02 - Assembly includes 1 cap, 1 cup washer, 1 clamp bushing, and 1 alloy backing plate.

Note: Suffix 02 Backing plates supplied un-hardcoated and without mounting holes.

K550 TANG / C651 TURNBUCKLE COMBINATION

The K550 and C651 can be integrated together to provide micro-adjustment, greater articulation, and resistance to wear.

L200 ALUMINUM ROD SPREADER BEND

NAVTEC spreader bends cover and protect the rod rigging that passes over the spreader tip. They are ideally suited to masts where shroud-spreader angle change is between 1 and 15 degrees.

L400 SPREADER TIP CUP

NAVTEC spreader tipcups are engineered for weight reduction and enduring strength. The range of product sizes and designs provides a solution for sailboats of any length.

The L400 is ideal for smaller vessels 30-foot length over all range. Two piece modular design will accept most rod combinations up to -15 rod.

One L400-001 tipcup assembly includes tipcup plug, body, and locking screw (no washers). Tapered stemballs, micro stemballs, and L401-03-XXX washers are sold separately.

L500 SPREADER TIP CUPS

NAVTEC spreader tipcups are engineered for weight reduction and enduring strength. The range of product sizes and designs provides a solution for sailboats of any length.

The L500 incorporates NAVTEC micro stemballs for superior fatigue resistance. Fits completely inside the spreader to reduce sail chafe. Three-piece design ensures ease of installation and maintenance.

Hayn Part #	Lower Rod Size	Upper Rod Size	Diagonal Rod Size	Lower Shroud Angle	Upper Shroud Angle	Diagonal Shroud Angle
