

KOHLER® Marine

J-SERIES GENERATOR

PRE-INSTALLED PARALLELING CONTROLLER IS STANDARD

KOHLER® Decision-Maker 3500 paralleling controller is built-in and pre-tested at the factory

SMALLER, MORE ADVANCED ALTERNATOR*

- KOHLER® Fast-Response® X alternator for excellent voltage response
- Brushless, rotating-field alternator uses rare-earth neodymium magnets (PMG standard)
- One- or three-phase broad range reconnectable alternator
- Voltage regulation: +/-0.5%**

INSTANT PARALLELING

- Operates in P-gen, V-bias/S-bias and droop paralleling

REMOTE MONITORING

- Monitor and control the generator from anywhere on the vessel

QUIET OPERATION

- Class H insulation

*Compared to previous KOHLER Marine Generator Models.

**Except 40EOZDJ/33EFOZDJ and 40EOZCJ/33EFOZCJ models.
