About Fendequip

Established since 2004, Fendequip is the preferred choice for mooring products and deck equipment by captains and crew of some of the world's largest and most prestigious superyachts.

UK Designed & Manufactured

From our purpose built facility in the South West of England, our experienced team design and manufacture quality mooring and deck equipment products, using only the finest materials and to the highest of standards.

Worldwide Technical Support

We have a worldwide network of Service Centres, Dealers and Distributors who supply the very best in customer service, sales and product support. This ensures that wherever your vessel is located, we have an expert able to assist with any enquiry or requirement you may have.

UK-EU Shipping Process

The UK-EU **Free Trade** and Co-operation Agreement allows UK manufacturers to supply products within the EU, **FREE of customs and duties**.

Fendequip products are **100% UK origin**, which means **Zero Tariffs** and **Zero Customs Duties** to all customers in the EU.

Depending on your order urgency, we are able to offer a range of shipping options for customers throughout the EU.

Order Dispatched

We arrange delivery with our dedicated courier company

- ✓ **All customs administration** and export paperwork is handled by Fendequip prior to dispatch
- ✓ **ZERO charges** for duties, VAT or additional courier costs*

Choose from the following options:

- **Dedicated** door-to-door service available with no additional charges
- **Economy standard** shipping within 3 - 5 days to all of mainland Europe
- **Express next day** service via international courier*

* Express delivery orders will be shipped with conventional couriers e.g. DHL, for which local VAT charges may still be applicable.

Order Placed

Invoice supplied with **ZERO UK VAT**

Delivery Made

Your order is **delivered as required**, ready for you to use

Inflatable Fenders

Suitable for Yachts from 10m to 100m+

maxiStow Inflatable Fenders

Standard specifications include:

- ✓ **Minimum 5 year fabric warranty**
- ✓ **Welded seams for air-tightness**
- ✓ **Minimum 5 year UV rating**
- ✓ **Leaffield D7 inflation valves**

Fendequip maxiStow Inflatable Yacht Fenders are the perfect choice for Sailing Yachts and Motor Yachts of all sizes, providing a practical and durable fender solution for every mooring situation.

Fendequip products are **100% UK origin**, which means **Zero Tariffs** and **Zero Customs Duties** to all customers in the EU.

Inflation Valves

We exclusively use Leaffield D7 Inflation valves on our entire Inflatable Fender range, ensuring airtight reliability for the most demanding applications as well as offering a low profile and stylish finish.

72 Hour Inflation Test

All maxiStow Inflatable Fenders are subjected to stringent pressure testing prior to completion, ensuring that they can exceed the requirements of ISO EN 6185-4-2011.

Attachment Points

All maxiStow Inflatable Fenders come with attachment points as standard at each end. Choose from either soft loop or marine-grade stainless steel D-ring when placing your order.

Welded Seams

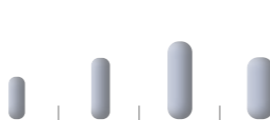

For improved air-tightness and resistance to decompression, all maxiStow Inflatable Fenders (excl. Hypalon) feature welded seams as standard (from 2 to 4 depending on specification chosen).

Inflatable Fender Material Properties

* Limited Warranty. Conditions apply.

Fender Material	Hypalon	Polyurethane (PU)	HDPVC	Leisure
	The ultimate in inflatable fender materials, Hypalon fenders are fully repairable and feature our unique 'Quad' Layered Seams for 100% air tightness.	Extremely durable and a great alternative to Hypalon, especially where abrasion resistance is of utmost importance for which PU performs outstandingly.	Despite being almost 40% cheaper than Hypalon, HDPVC fenders still offer extensive levels of protection for medium to large sized vessels in all conditions.	Best for small to medium sized Boats, where mooring conditions are more sheltered and expensive, heavy duty fenders aren't required.

Available Colours	●●●●	●	●●●●	●

Tender Garage Fenders

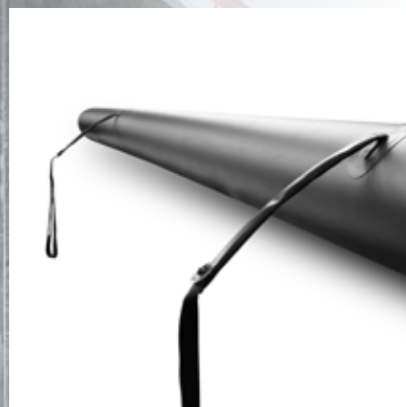

The bigger the yacht the bigger the tender, and that means a bigger tender garage fender. At Fendequip we are able to make custom tender garage fenders to fit any size yacht.

Water Ballast System

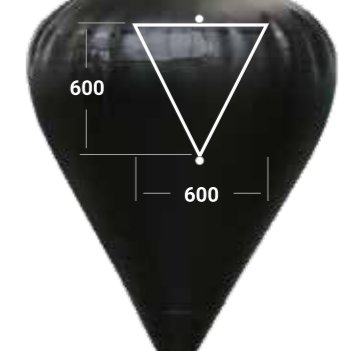

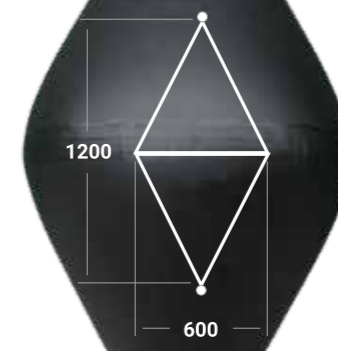

Our Water Ballast System for Tender Garage Fenders consists of two or more water ballast bags on the underside of the fender, which fill up quickly on entry to water – helping to prevent the Fender from rising when the Tender is moored alongside. When removed from the water, the design of the ballast bags allow for quick water dispersion making it easy to pack down and store.

Example Attachment Options

Inflatable Day Shapes

(All dimensions are in mm)

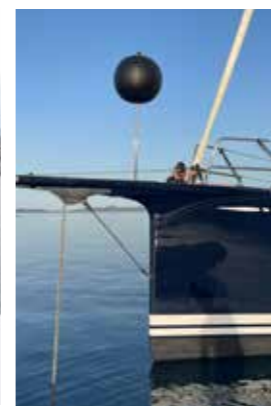

Our inflatable Day Shapes and Anchor balls provide a more convenient, durable and professional solution for all vessels on navigable waters during daylight hours.

✓ Practical & Durable

Our unique inflatable design allows each Day Shape and Anchor Ball to be collapsed for easy and light storage. Constructed from a lightweight frame and black HDPVC material and to compliant sizes, e.g. the size of the Anchor Ball is not less than the required 0.6-metre diameter.

✓ Fully Compliant

All Fendequip Inflatable Day Shapes are fully compliant with The Merchant Shipping (Distress Signals and Prevention of Collisions) Regulations 1996, which incorporates the International Regulations for Preventing Collisions at Sea, 1972.

Fender Covers

For all major Fender brands & models

Fender Cover Specifications

✓ Limit scuffs and gel-coat damage

✓ Help to prevent 'fender squeak'

✓ Available for all fender types

✓ Embroidery or print options available

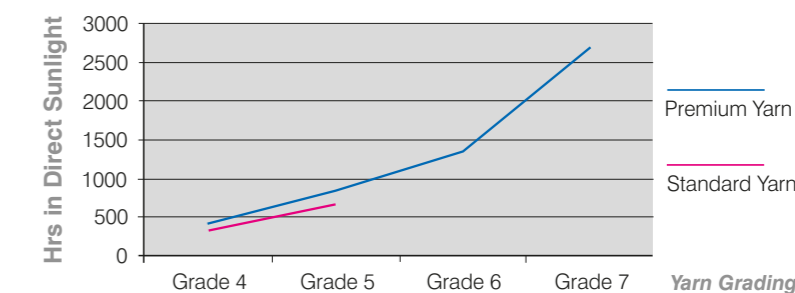

All of our Fendequip Fender Covers are manufactured in-house by our expert team, with the ability to manufacture for all popular brands and sizes of fenders.

Fendequip Acrylic Wool products have been accredited with an ISO 105 B02, greater than Grade 7* certificate by Bureau Veritas and are rated to last up to 8 times longer in direct sunlight before showing signs of fading when compared to similar products made from standard yarns.

Material options:

- **Acrylic Wool Fender Covers** are woven and manufactured by us in-house, using our own premium stain resistant, non-abrasive, loop-knit acrylic yarn, which is specifically treated for UV and lightfastness. Available in a range of 12 popular colours.
- **Neoprene Fender Covers** offer a more contemporary, tighter fit and are best suited to our range of maxiStow Inflatable Fenders. Available in Black, Grey and Navy.

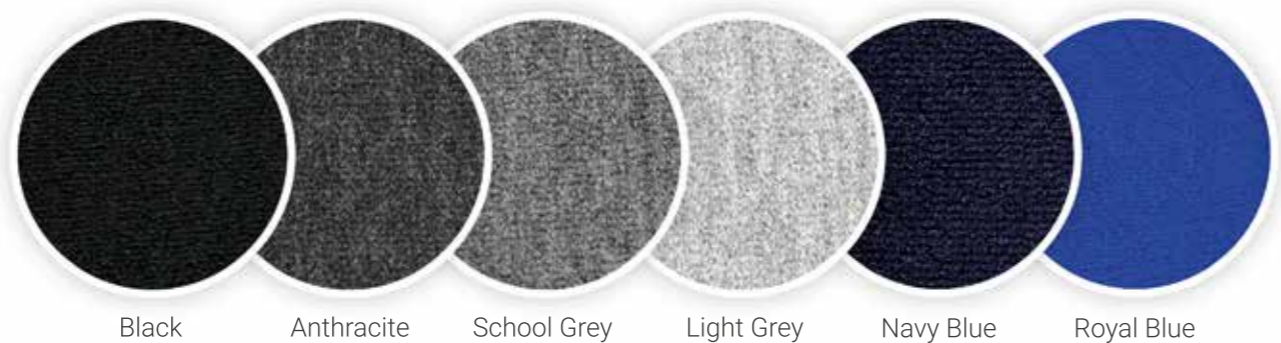

Acrylic Wool Fender Covers

Fendequip Acrylic Wool fender covers are woven and manufactured in-house, using our own premium stain resistant, non-abrasive, loop-knit acrylic yarn, which is specifically treated for UV and lightfastness.

Available in double thickness for extra durability and topside protection. Choose from a wide range of colours, to either complement or contrast your vessel.

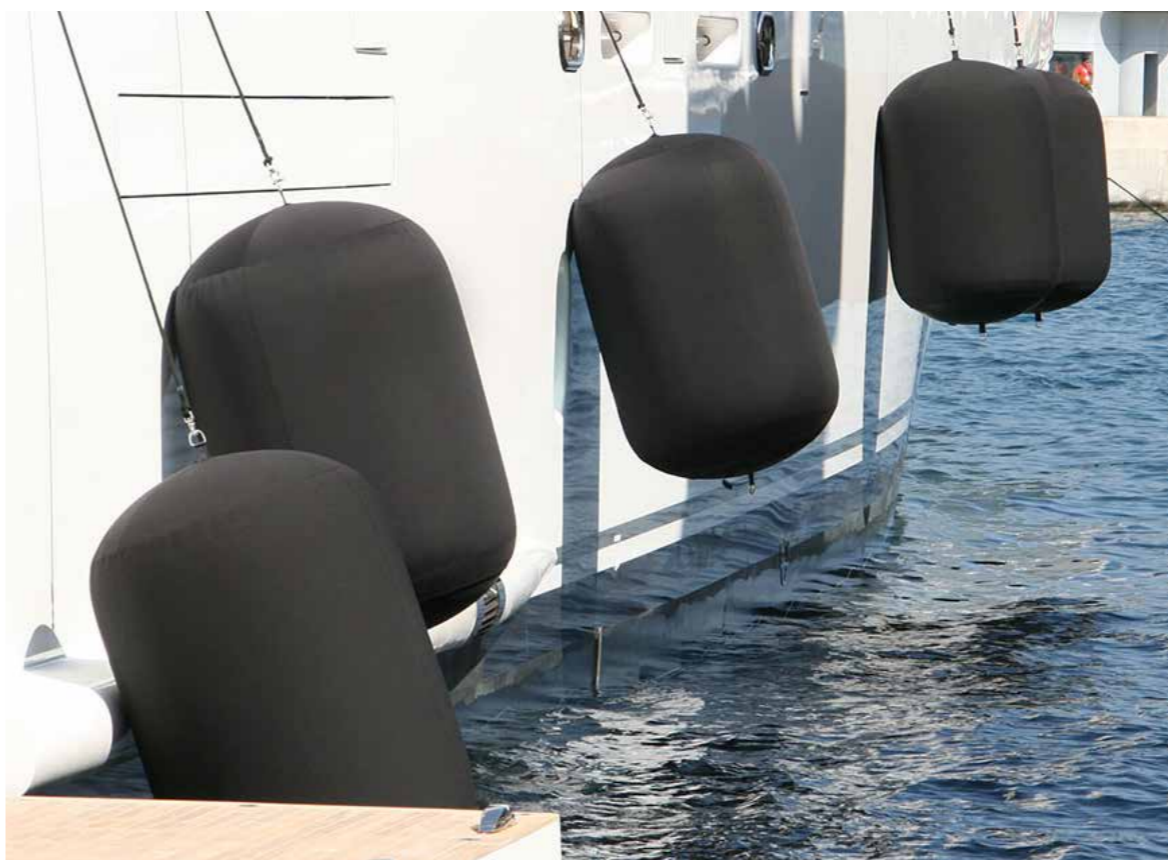

Standard Colours

Neoprene Fender Covers

In addition to our extensive range of Acrylic Wool Fender Covers, we also manufacture our own range of Neoprene fender covers that offer an alternative to our popular Acrylic wool covers.

Specifically designed for application to inflatable fenders such as our maxiStow Inflatable Fenders.

Available Colours

Personalisation & Embroidery

Custom Logos & Text

For complete personalisation, why not add your yacht's name or logo to our range of mooring products, including Fender Covers, Chafe Gear, Fender Hooks and more.

Embroidery & Print

We have our own in-house embroidery and print department, which ensures quality and consistency on your entire order. Multiple garment embroidery allows for quicker turnaround for express orders.

Laser Engraving

Our laser engraving service can be applied to all marine-grade steel products, allowing for the addition of branding or positioning information to be clearly displayed whilst being durable enough for regular use.

Yacht Crew Wear

We can also supply branded crew wear with access to a wide selection of styles and sizes from some of the most popular clothing brands including Gill, Musto, Helly Hansen and more.

Fender Hooks

For Motor and Sailing Yachts

Handcrafted in the UK

Individually designed and manufactured using only the highest quality components and materials – all chosen to ensure ultimate performance, durability and aesthetics.

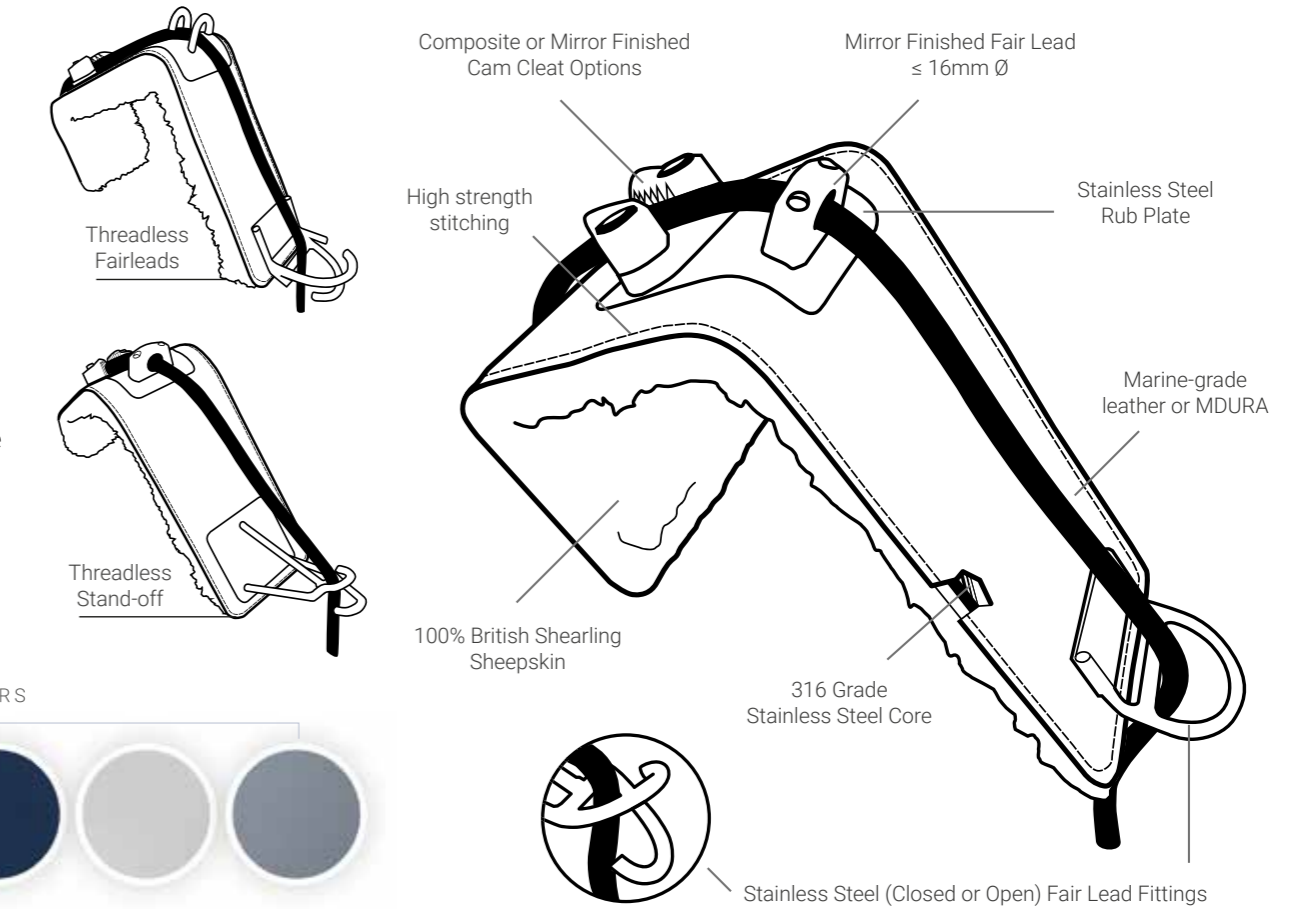

Standard specification includes:

- **Polished 316 Stainless Steel components** provide superior strength and allow for smooth and secure fender line/rope placement.
- Choose from a range of colours and finishes - either **traditional marine-grade leather** or *Fendequip Exclusive*, **MDURA Marine Durable Fabric** which includes a carbon fibre effect texture for an even more contemporary look.
- **British Sheep's wool** of the highest quality is used for the underside of every fender hook. Available in either white or black and pre-conditioned for marine use.

AVAILABLE LEATHER COLOURS

Fender Hook Technical specifications:

Specialised Fender Hooks

Padeye Fender Hooks

Where traditional bulwark shaped Fender Hooks are simply not possible, Padeye Fender Hooks make a great alternative.

Designed to make full use of existing padeye fixtures, providing secure mounting option for fender hooks, whip hooks and more.

Tender Boarding Light Hooks

A practical way to provide additional illumination when mooring tenders alongside at night or in low-light conditions.

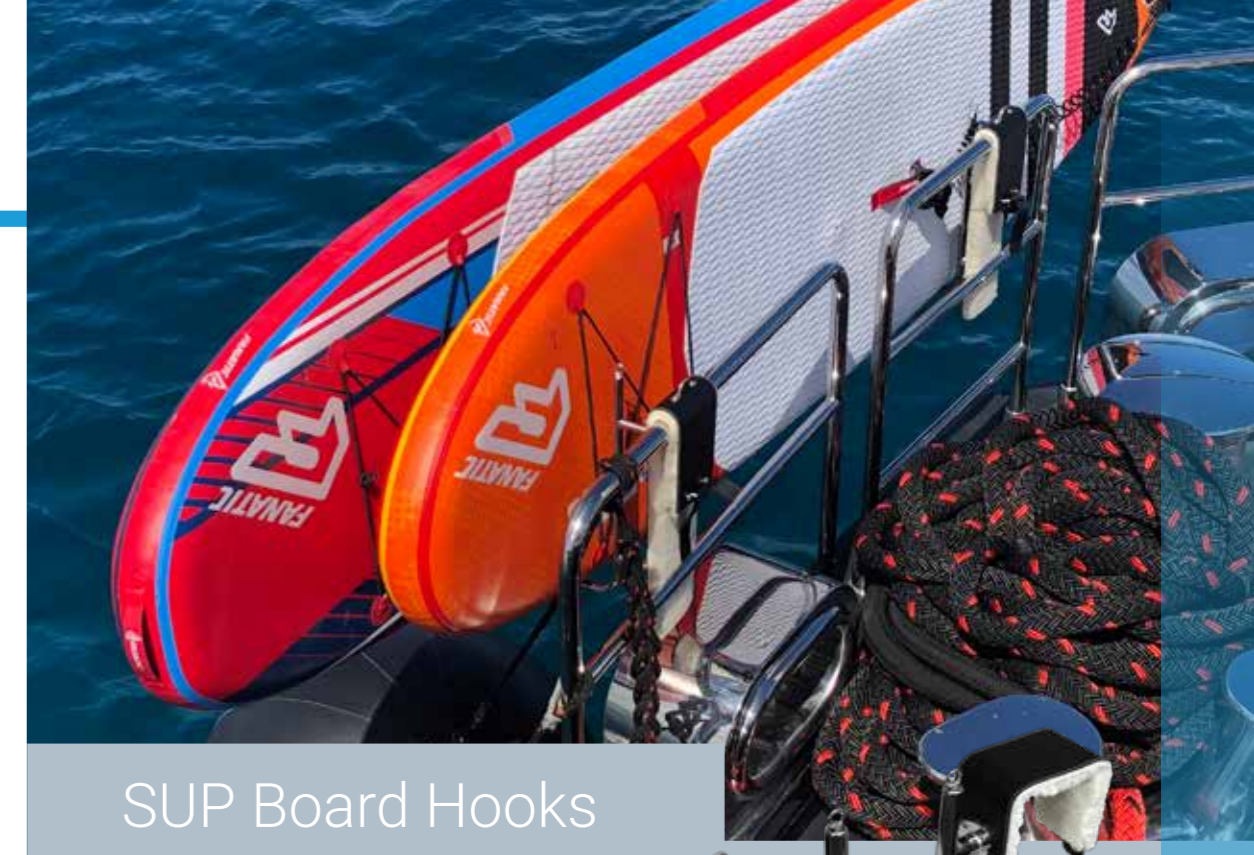

Manufactured using the latest LED floodlight technology, for excellent illumination and ease of use.

Boarding Gate Restraint Hooks

A stylish and convenient way to safely restrain yacht boarding gates when open.

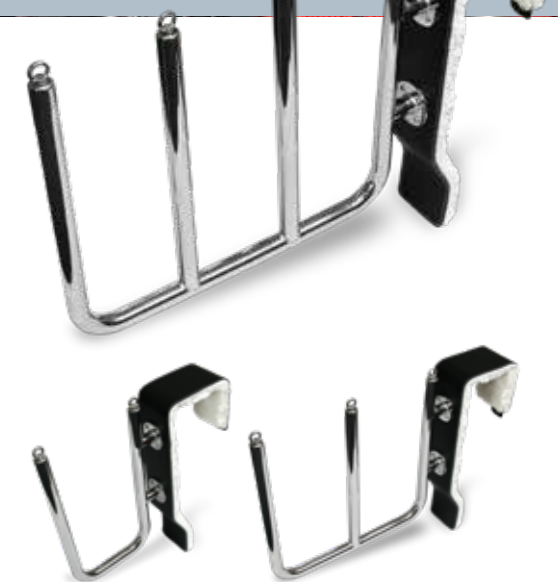

Custom designed and manufactured to exactly fit the bulwark for a snug and precise fit. Easily removed when not in use.

SUP Board Hooks

Stand Up Paddle (SUP) Boards are an increasingly popular toy to have on-board yachts.

At Fendequip we have designed SUP board storage that allows easy access, efficient, safe, secure, stowage that also protects the SUP board from accidental damage and stowage damage when not in use. Available in single, double or triple board formats.

Marine Durable Fabric

Fendequip MDURA material offers superior durability, UV and all-weather resistance, backed up by a 5 year guarantee.

Choose from a range of colours including Navy Blue, Black and Dark Grey or opt for the Carbon Fibre effect finish which is popular choice for more contemporary vessels.

Available Finishes

-  WEATHER RESISTANCE
-  UV/TEMPERATURE TESTED

Fendequip Exclusive

Stern/Transom Fenders

Custom Measuring Service

For maximum accuracy, all quotations include an on-board measuring service, carried out by our experienced fabricators.

Bespoke Transom Protection

Specifically designed for larger yachts and superyachts, our Solid Foam Transom/Stern Fenders help to protect vulnerable swim platforms and sea terraces from tenders, jet skis and other watercraft, allowing for safer embarking/disembarking from the tender.

Manufactured in closed cell polyethylene foam, incorporating a strong top composite panel and covered with a bonded layer of durable, hard wearing UV resistant fabric with non-slip tread for excellent grip.

Reinforced attachment points are ready for either stanchions or plugs. Configured in separate sections for safe crew handling and practical stowage.

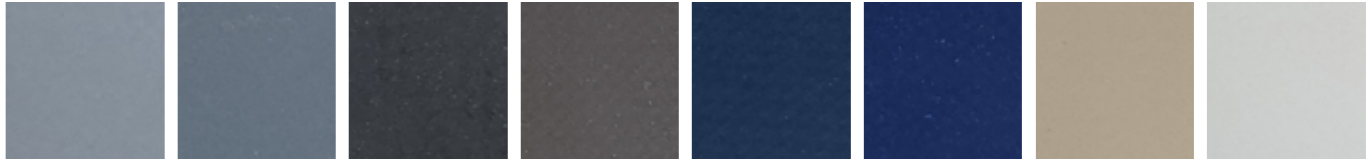

- ✓ Reinforced attachment points
- ✓ Durable, non-slip material
- ✓ Configured for easy crew-handling

Tender Mooring

Tender Whips, Hooks & Mounts

Tender Whips

Solid Fibreglass Whips

Our solid Fibreglass Tender Whips are available in either 4.2m or 4.8m lengths (made of 2 pieces) for Tenders weighing up to 10,000kg (22,000lbs) depending on chosen specification.

Part no.	Base ø	Pole Length	Tender Size
SWS140	33mm*	4.2m	< 7,500kg (16,500lbs)
SWS160	33mm*	4.8m	< 10,000kg (22,000lbs)

Fibre Thruline Whips

Our Fibreglass Thruline Tender Whips are available in either 4.2m or 4.8m lengths (made of 2 pieces) and ensure greater line protection whilst catering for Tenders weighing up to 10,000kg (22,000lbs) depending on chosen specification.

Part no.	Base ø	Pole Length	Tender Size
SWST140	33mm*	4.2m	< 7,500kg (16,500lbs)
SWST160	33mm*	4.8m	< 10,000kg (22,000lbs)

Carbon Fibre Thruline Whips

For a more contemporary look, our 6m Carbon Fibre Thruline Tender Whips offer the ultimate compromise between style and superior strength, rated for Tenders weighing up to 20,000kg (44,000lbs) – the perfect choice for larger sailing and megayachts.

Part no.	Base ø	Pole Length	Tender Size
CWS190	33mm*	6m	< 20,000kg (44,000lbs)

Tender Whip Hooks & Mounts

Whip Hooks/Saddles

Manufactured the same way as our fender hooks for increased strength and durability.

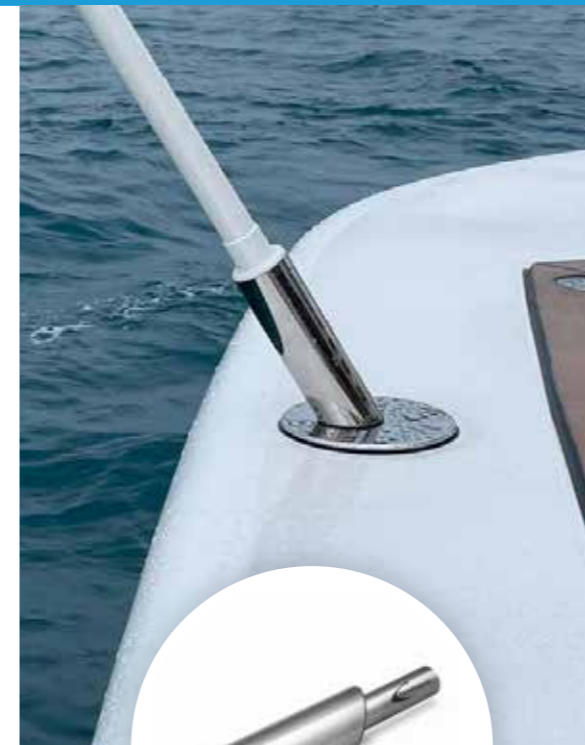

Flush Whip Sockets

A permanent solution so whips can be deployed quickly and easily.

Stanchion Wrap Mounts

Adjustable mount that securely attaches to stanchions for yachts of all sizes.

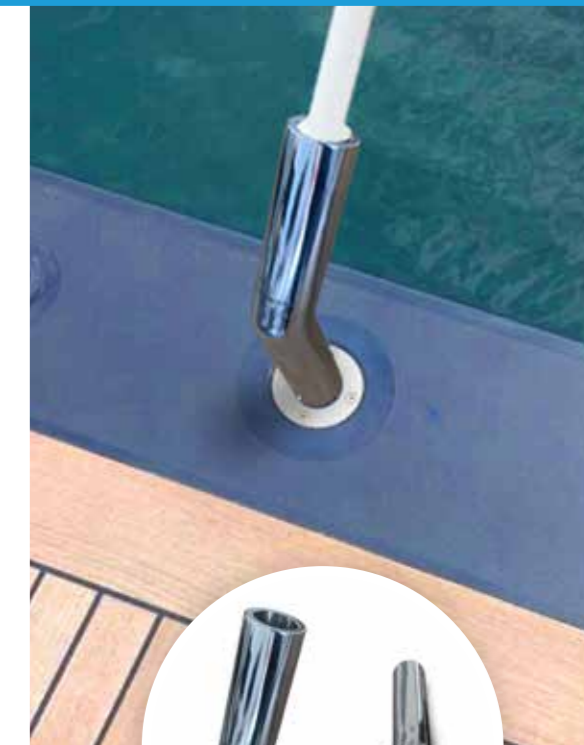

Whip Socket Adapter

Designed to allow for mounting of 33mm diameter whips into existing (smaller) deck mount holes.

Dual Whip and Fender Hooks

Dual purpose hook to allow for easy deployment of a fender alongside a moored tender.

Deck Whip Mount

Alternative whip mount solution for use with existing deck fittings.

Bespoke Options Available

Chafe Gear & Accessories

For Yachts of all sizes

Chafe Gear & Accessories

Shoreline Wrap

A flexible cover designed to hang the shore cables, hoses and other leads so that they are completely secure, clean, neat and tidy.

Each Shoreline Wrap perfectly fits any size of vessel in any port due to its modular design, which enables them to interconnect with each other, ensuring you can reach the desired distances from your yacht to the dock.

Heaving Weights

Our Premium leather Heaving Weights allow the dock lines to be thrown safely, much further with more precision.

As well as the overall look, our heaving weights are much less cumbersome and far safer. Imagine being on the receiving end of a dangerous makeshift weight or metal balls, they aren't uncommon even today.

In addition, when stowing lines on board, Fendequip weights are softly designed to not damage the yacht.

Chafe Mat

Our unique chafe-mat system protects the yachts topside from fender line abrasion.

Each mat is manufactured so it easily slips over your mooring cleat, available in various sizes, colours and customisable with your Yacht's name or logo.

Overshoes

A re-usable non-slip overshoe that will protect your yacht's decking from dirt and scuff marks.

Neoprene upper with non-absorbent and non-slip sole - perfect for visitors or contractors. Available in Black, Grey or Navy and with/without printed Yacht name or logo.

Chafe Gear

1 Acrylic Weave

A UV resistant soft protection that protects gel coats as well as topsides from damage. Ergonomically designed to install without ties for a fast secure application.

2 Shearling Fluffy

The ultimate in soft protection for gel coats as well as topsides against fender and mooring line scuff. To add to this the 100% natural sheepskin wrap is ergonomically designed to install without ties for the fast secure application.

3 Canvas Wrap

Providing a 100% colour-fast solution to protect mooring-lines and dock-lines from chafe. Its dual layer design is perfect for heavier applications and without ties for a fast secure application.

4 Ballistic Guard

Extremely durable and hard-wearing. The perfect solution to protect mooring, dock and fender Lines. The dual layer ballistic design is perfect for heaviest applications and installs without ties for a fast secure application.

Safety & Protective Essentials

As well as our other products we offer a variety of accessories to go alongside your yacht and inflatable fenders.

Fender Inflater

To complement your set of maxiStow Inflatable Fenders, we can also supply an efficient electric pump with the correct D7 valve adapter, capable of inflating most standard size inflatable fenders in under one minute.

Load Spreading Kit

Load spreading rope kits are best suited for larger yachts fitted with our inflatable fenders (150cm diameter and up), helping to ease the load and strain and prolonging the life of the fender.

Fender Repair Kits

In the unfortunate event of damage to your inflatable fender, we can supply fender repair kits suitable for on-site repairs of small tears/punctures, each kit is specifically tailored to our range of inflatable fender materials (Hypalon, Polyurethane, HDPVC and Leisure).
