Precision parts / Deck fittings

Parts for foil control systems

## ABOUT US

GUELT, the mother company with its roots in the technically demanding agrifood industry, founded GUELT NAUTIC 25 years ago to apply its mature expertise in precision metalwork for applications in another challenging environment: performance sailing.

GUELT NAUTIC designs and manufactures keels, bulbs, foil control systems, mast bases and deck fittings that require precision and expertise due to the complexity of their machining and the technical challenge they imply for our team.

Through attentive communication with the client, we constantly innovate and improve our technical know-how to provide the best service possible.

Our location in the heart of the South Brittany ocean racing centres is ideal to offer a maximum of proximity to the racing teams and their skippers.

## OUR VISION

### INNOVATIVE

In a process of continuous improvement, we work every day to integrate the latest technology to design and manufacture yachting parts.

### CLIENT FOCUSED

Our customers choose the partners who help them to succeed: we strive to exceed their expectations by providing them with the best service possible.

### REACTIVE

Our teams pool their expertise to bring the most efficient technical solutions to you with reactivity and flexibility.

### COMMITTED TO EXCELLENCE

Committed to human values and respect for our commitments, we endeavor to provide a high quality service, using our advanced technological and industrial means.
