

# Gimballed Cooker Housings for Built-In Electric Appliances

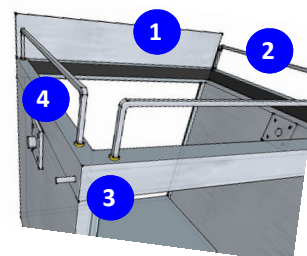

Kind permission of Solaris Yachts

## One Cooker Box for Electric or Mixed Fuel options.

Anticipating the trend towards electric cooking and customisation on larger cruising yachts we have made a range of gimballed cooker housings especially designed to accommodate a selected range of Miele ovens and hobs.

The fully gimballed cooker housing is made to the same high standards as our gas cookers - using 304 grade stainless steel throughout. The brushing matches the appliances - to give a consistent look to your galleys.

Depending on the gimbal space available there are 3 size options to choose from. All are ready to accept a wide range of appliances from Miele, including induction hobs and steam-combi ovens.

1. Splashback
2. Removable Sea-rails with pan clamps
3. Integrated harbour lock
4. Heavy duty gimbal mount

Miele Marine appliances offer unparalleled quality, impeccable craftsmanship and are regarded as a global benchmark. Their broad product offer includes a full range of domestic appliances, as well as specialist commercial laundry and dishwashing equipment for large superyachts.

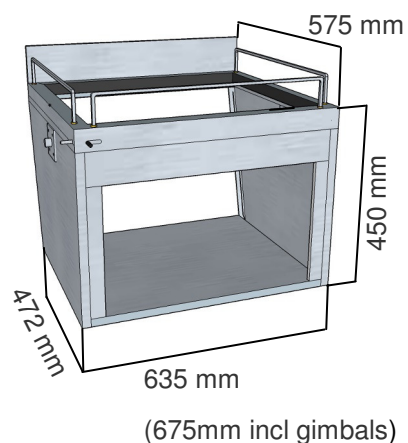

The latest Miele Generation 7000 range sets even higher standards. Contemporary designs combine with many new and innovative features. The range also sets new industry benchmarks with the extensive application of intuitive technology.

### International Marine Warranty

For added peace of mind, all Miele appliances supplied by GN Espace come with a 2 Year International Marine Warranty. Unlike other appliance manufacturers, Miele offers a full marine warranty that is supported by a dedicated worldwide marine service network.

With 47 service branches and additional representation in 150 countries, Miele is present in over 3000 ports worldwide.
