

Marine Solutions

Lightweight and Non-Combustible Furniture

A LEADER IN PASSIVE FIRE PROTECTION

Promat is a leading manufacturer of passive fire protection panels and systems for marine applications, offering an extensive range of products designed to meet the most stringent requirements of 21st century fire protection legislation.

The production of non-combustible calcium silicate boards and lightweight high performance insulation materials is one of Promat's best strengths.

Promat manufacture interior furniture for accommodation areas for cruise ships, ferry boats, mega yachts, living quarters and for all types of work boats.

Yacht / Mega Yacht

Cruise

Naval

OSV

Promat's products for marine applications stand for: **high performance, significant space & weight savings**, fast installation and tailor-made system solutions meeting the requirements of both shipyards & clients.

ENGINEERING RELIABLE SOLUTIONS

PROMARINE®-640, PROMARINE®-450 and PROMASIL®-MARINE are non-combustible in accordance with MED certification.

Promat can provide custom made furniture, cabinets, casework, and other related woodwork. In case of fire, the use of Promat systems **reduces risk from 'Moderate Risk (Category 7)' to 'Minor Fire Risk (Category 6)'** between accommodation areas and their surroundings.

Other design considerations can be taken into account such as weight, thickness, aesthetic requirements and the durability of the solution.

Thanks to a wide range of tested and proven systems, **Promat provides customised solutions suitable for the most stringent specifications** where multiple requirements can be met.

PRODUCT INFORMATION

PROMARINE®-640

Non-Combustible decorative panel
Nominal density: 640kg/m³

PROMARINE®-640 is a non-combustible autoclaved calcium silicate board, reinforced with selected minerals and fibres. It is formulated without inorganic fibres and does not contain formaldehyde. The board is off-white in colour and has a smooth sanded surface. The board can easily be finished with high pressure laminates. It is resistant to the effects of moisture and will not physically deteriorate when used in damp or humid conditions.

PROMARINE®-450

Lightweight Non-combustible decorative panel - Nominal density: 450kg/m³

PROMARINE®-450 is a non-combustible autoclaved calcium silicate board reinforced with selected minerals and fibres. It is formulated without inorganic fibres and does not contain formaldehyde. The board is off-white in colour and has a smooth sanded surface on both faces. The board can easily be finished with high pressure laminates. It is resistant to the effects of moisture and will not physically deteriorate when used in damp or humid conditions.

PROMASIL®-MARINE

Very lightweight Non-combustible board
Nominal density: 285kg/m³

PROMASIL® MARINE is one of the best insulating solutions. PROMASIL® MARINE boards are compact, self-bearing and lightweight; it is resistant to continuous temperatures of 1000°C. It also represents an alternative to mineral fibres due to its excellent dimensional stability, mechanical properties, durability and absence of organic binders. PROMASIL® MARINE is certified non-combustible in accordance with MED and U.S. Coast Guard Directives.

ADVANTAGES

NON-COMBUSTIBILITY

Each product is **certified non-combustible in accordance with MED**. Products are also tested under other standards such as U.S. Coast Guard Directive.

AESTHETIC

Promat boards **can be painted, wood veneers laminated or HPL laminated**. Different shades, colours and textures are available upon request.

LIGHTWEIGHT

Promat's boards are lightweight. Thanks to this characteristic, Promat boards can be integrated in many specifications where the weight is a key issue. **PROMARINE®-450 is 30% lighter than traditional solutions.**
