**PropOne™**  
 Ahead in performance

**No.1 foul release  
 coating for  
 propellers and  
 running gear**

[prop-one.com](http://prop-one.com)

**GRENCORP MARINE**

**PropOne™ is a non-biocidal foul release coating which prevents sealife adhering to it. It has been developed to ensure increased vessel performance due to its slick nature and excellent corrosion protection.**

PropOne™ applied to a twin shaft drive

PropOne™ helps maintain maximum performance

PropOne™ applied to a Volvo IPS™ unit

## See why more users are switching to PropOne™

Since 2012 PropOne has built a loyal, growing following, one boat at a time. PropOne is now applied to thousands of boats globally every year, with a proven track record of over 10+ years.

## Save time and money with PropOne™

## Benefits of PropOne™

**Class-leading technology, consistent results, proven worldwide.**

- ✓ More affordable than the competition.
- ✓ Australian-made, high-quality product.
- ✓ Effective, lasting results – it just works!

### Performance & Protection

Increase performance and save money by leaving marine growth behind. Keeps working for up to 2 years in the water.

### Easy to Apply, Available Worldwide

Trusted by marine professionals internationally for over 10 years. Whatever boatyard you're working from, we're always within reach.

### Genuine, Fast Customer Support

As a family-owned business, we put relationships ahead of just profit. Prompt support ensures all our customers get the care they need.
