

MOSQUITO NET FOR REGULAR HATCHES

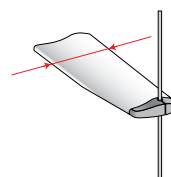

- Easy to install with Velcro
- Fits all brands of rigs
- Leather = natural material
- Neoprene on the inside
- Protects both fore/main sail
- UV protected with leather

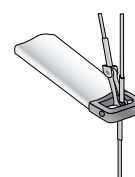

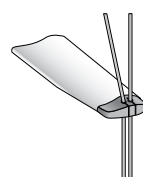

The spreader boot is made from leather with a rubber cord edge providing a good protection whatever the design of the spreader. The inner side is lined with neoprene for a perfect fit. The protection is complete with a long Velcro strap to fit even wide spreaders. (Cut the Velcro strap to a suitable length and mount the boot with the Velcro point backwards). Sold in pairs. Four sizes.

Fitting

1. Measure spreader arm (in the middle, not the tip).
2. What kind of rig: Continuous or linked rig.
3. Choose from table

1. Measure width

2. Continuous or Linked rig
