The innovative and practical
solution for stressless anchoring!

thanks to the
roll-up mechanism
AnchorRoll **self-adjusts**
to the water depth and
thus always floats
directly above the
anchor position

ANCHORRoll

good to know where YOUR Anchor is

ANCHORRoll

good to know where YOUR Anchor is

Anchoring, even in the nicest bay, is a very sensitive situation. The anchor and anchor chain is the only connection of the yacht to the mainland and therefore safety is the top priority!

AnchorRoll marks the exact anchor position visible for the captain and other yachts. This allows to react just-in-time in dangerous situations

stressless anchoring!

+ Easy Storage

thanks to a build-in gab and two velcro fastener, AnchorRoll can be attached to every stainless steel rail on the ship bow.

+ Anchor Raising Support

when the anchor is hooked on the ground - the AnchorRoll line can be used as a tripping line.

+ Self-Adjusting

thanks to the „roll-up“ mechanism AnchorRoll self-adjusts to the water depth and thus always floats directly above the anchor.

+ Anti-Docking Manoeuvre

the special design as a roll (not as a normal buoy) and prohibition signs on each side avoid dangerous docking manoeuvres by other vessels.

+ Signal-Colours

AnchorRoll is available in two eye-catching signal colours. orange and lemon-green

+ Customized

the textile cover of each AnchorRoll can be customized with the yacht name and/or logo. (not included)

+ Solar LED

thanks to a thread at the top, each AnchorRoll can be extended with a solar LED Lamp for better visibility by night. (not included)

+ Made in Germany

AnchorRoll is produced by fender-design in Albstadt, Germany
