AB Inflatables, a division of AB Marine Group, is world renowned as the premier designer and manufacturer of inflatable boats for both the leisure and professional markets. AB Inflatables has a long established reputation for innovative design, superior construction, and outstanding customer satisfaction.

Our boats have earned their status as the world's finest inflatables. AB is one of only a few RIB manufacturers to have CE, NMMA as well as ISO 9001 certification. At AB, we insist on an unwavering attention to detail. We travel the world to procure the finest materials available. We painstakingly hand-craft each boat, to ensure that even the smallest details are considered. The result is a full line of inflatable boats, designed and built to provide our customers with the exceptional quality they deserve, and have come to expect from AB.

We are committed to meeting the ever changing needs of our customers. It is this commitment that drives our desire for constant innovation. AB Inflatables has never shied away from the hard work of refining our existing models, designing new inflatables, or retooling our workshop to ensure that AB boats are truly the most celebrated watercraft on the market. This un-equalled pursuit of perfection has long distinguished AB from the competition. With almost five decades of proven expertise, AB Inflatables has earned its reputation for excellence.

Our unparalleled craftsmanship, relentless innovation, and commitment to customer service have made the entire AB line the most prestigious and sought after inflatables on the market. Contact one of our dealers today to discover for yourself why AB Inflatables are the choice of discriminating boaters worldwide.

years of innovation and
craftsmanship

Why ab?

QUALITY

At AB, we are obsessed with quality. We can't imagine doing business any other way. That is why we refuse to settle for average or substandard materials, or to sacrifice hand-craftsmanship for the speed of mechanized assembly lines. We believe that exceptional quality can only be achieved by combining the finest materials with an unflagging attention to detail. When you buy an AB Inflatable, you can rest assured that you are buying a watercraft that is unrivaled in the industry.

MORE THAN A TENDER ...

CONSTRUCTION OF ORCA (CSM) COATED FABRIC

- A. EXTERNAL (CSM) LAYER:**
WEATHER RESISTANCE (FADING AND AGEING)
CHEMICAL RESISTANCE
ABRASION RESISTANCE
- B. LAYER OF NEOPRENE IN BETWEEN THE (CSM) AND THE TEXTILE**
- C. HIGH TENSILE TEXTILE:**
BASIC MECHANICAL PROPERTIES
(TENSILE STRENGTH AND TEAR RESISTANCE)
DIMENSIONAL STABILITY (NO DISTORTION)
- D. INTERIOR NEOPRENE SHEETS GIVE:**
AIR-TIGHTNESS (NO AIR PASSES THROUGH TO THE TEXTILE)
EXCELLENT ADHESION TO THE TEXTILE AND TO OTHER RUBBERS

1

THE LIGHTWEIGHT PROPERTIES OF AN AB INFLATABLE MAKE IT EASIER TO MANEUVER WHILE DOCKING AND UNDERWAY.

2

AB INFLATABLES ARE EXTREMELY FUEL EFFICIENT AND OFFER TREMENDOUS SAVINGS AT THE FUEL DOCK OVER TRADITIONAL FIBERGLASS BOATS.

3

MOST MODELS CAN BE TOWED BY NEARLY ANY FOUR CYLINDER VEHICLE SAVING YOU THE FUEL COSTS AND EXPENSE ASSOCIATED WITH THE LARGER TOW VEHICLES REQUIRED FOR TRADITIONAL BOATS.

4

AB'S LARGE ORCA (CSM) TUBES AND INNOVATIVE FORWARD HULL DESIGN PROVIDE FOR A MUCH DRIER AND SMOOTHER RIDE THAN TRADITIONAL BOATS.

5

AB INFLATABLES OFFER MORE STABILITY, LOAD CAPACITY AND COMFORT THAN MUCH LARGER AND HEAVIER TRADITIONAL BOATS.

There are countless reasons for choosing an AB Inflatables as your tender, but there are just as many reasons for choosing an AB Inflatable as your primary boat.

TUBES

AB inflatable tubes are unequalled in the industry. They are constructed from a 5-ply Orca Chlorosulfonated Polyethylene (CSM) coated fabric that is specifically manufactured to resist scratches and UV damage, while retaining its remarkable durability. This fabric is so superior we guarantee it with a ten year limited warranty, the longest available in the industry. Our seams are overlapped a full inch and reinforced by taping on the inside. Our rounded tube ends require meticulous craftsmanship, and are costly to produce, but they allow for extension of the rub rail around the tube to protect the stern, and their graceful lines are unmatched by our competitors. AB inflatable tubes boast a larger diameter that improves safety and seaworthiness, increases payload capabilities, and helps to ensure a dry and comfortable ride. Every AB tube, except the 7.5, 8 & 9UL, features a minimum of three air chambers. They are divided by a special baffle system that equalizes the pressure in all chambers. This results in an additional measure of safety.

In addition, each AB model has tubes that are individually proportioned to compliment the hull dimensions. This precision design and craftsmanship means AB customers will always enjoy the greatest possible function and comfort available.

HULLS

All AB hulls are constructed from either double-molded, hand-laid fiberglass, or high quality, marine-grade aluminum. Our unique forward hull design extends the hull further forward and increases the length of the keel, as well as the interior space. The elegant lines produced by this design are characteristic of all AB boats, but the true genius is in the engineering. Our forward hull design creates a raised bow and deep "V" hull which enhance the performance of every AB model by allowing them to plane more easily with less horsepower, and cut through wakes and chop, virtually eliminating spray, for a smoother, more stable, and drier ride. Inside the boat, this design extends our floors forward and creates a wider and longer bow. The result is a roomier, more comfortable craft with plenty of storage for gear and provisions. AB hulls cost more to build, but we think you'll agree that the increased performance and comfort they provide are well worth it.

WARRANTY

EVERY AB INFLATABLE BOAT IS BACKED BY A TEN-YEAR LIMITED WARRANTY. SEE YOUR DEALER FOR DETAILS.

6

AB'S STURDY TUBES ARE LESS PRONE TO DAMAGE THAN TRADITIONAL FIBERGLASS BOATS WHEN MAKING CONTACT WITH DOCKS OR OTHER BOATS.

7

THE DESIGN AND LIGHTWEIGHT OF AN AB INFLATABLE MAKES IT EASIER TO LOAD AND UNLOAD FROM YOUR TRAILER.

8

AB BOATS ARE MORE LIKELY TO FIT IN A STANDARD GARAGE SAVING DOCK FEES AND MAINTENANCE.

9

AB INFLATABLES ACHIEVE SUPERIOR PERFORMANCE AND SPEEDS WITH FAR LESS HORSEPOWER THAN TRADITIONAL BOATS.

10

AB BOATS ARE DESIGNED TO GET ON PLANE FASTER AND ARE ABLE TO STAY ON PLANE AT LOWER SPEEDS MAKING THEM IDEAL FOR TOWING SKIERS AND TUBES.

OCEANUS | VST FIBERGLASS CONSOLE TENDERS

Our Oceanus line of console tenders was designed for professionals and cruisers who depend on serious performance and comfort. These boats feature AB's unique forward-hull design, making them the most spacious console tenders on the market. The extra-deep V-hull and innovative tube design allows the Oceanus to cut through the water with unsurpassed grace, virtually eliminating unwanted spray, for a truly exhilarating cruising experience.

Oceanus boats feature comfortable, upholstered seating, smartly designed consoles, and ample storage lockers that keep gear dry and safe. Boaters looking for an extremely seaworthy, high-performance, rigid inflatable will be pleased to know that several Oceanus models were originally designed for the Italian Coast Guard. With its spacious interior, impressive maneuverability, and sporty design, it's easy to understand why Oceanus boats are the first choice of so many sport's enthusiasts, yacht clubs and professional organizations around the globe.

NEW OCEANUS 17 | VST
SPORT AND LUXURY CONSOLE TENDERS

The new Oceanus 17 VST has a distinctive luxury-sport design. It is the ideal console RIB when sharing the boating experience with family and friends.

The newly designed console is one of the most striking features of this new model, making it one of the most spacious console RIBs in its category on the market today. Like all other Oceanus models, the new 17 VST has AB's unique forward hull design with an extra deep "V". This allows for a true cruising experience, cutting through water with surpassing grace while still avoiding unwanted spray. Its large front panel for navigation equipment, a wide front access lid for maintenance and equipment installation, a front seat with embedded storage, and beautiful stainless steel rails combine perfectly with the console's design.

For those in need of even more space, a console with a lateral seat is also available for extra seating & storage. If that's still not enough, a bow rider with a sunbed option is also available.

NAVIGO | VS
OPEN FIBERGLASS TENDERS

The Navigo series is our premier line of open tenders. Hand crafted with careful consideration to every detail, these boats are designed for maximum performance, comfort, and durability.

The Navigo series features AB's unique forward-hull design, making them the most spacious tenders on the market. In addition, all Navigo models are equipped with all the amenities sought by serious boaters, including: a large bow locker with seating, diamond pattern non-skid fiberglass deck, a double solid rub rail, four davit lifting rings, heavy-duty (CSM) Fabric carry handles, and much more. The raised bow and large-diameter tubes provide for the driest and most comfortable ride of any open tender on the market. The Navigo line will impress even the most discriminating boater.

VENTUS | VL
LIGHTWEIGHT FIBERGLASS TENDERS

Ventus -Latin for "air"- is our line of lightweight tenders. With their low weight to length ratio and balanced design, Ventus boats require very little horsepower to achieve astonishing performance and speeds. They sport a full V-shape hull that runs the entire length of the boat, providing exceptional tracking and stability. Ventus models are the only lightweight boats on the market with an additional air chamber built into the hull. This air chamber makes the Ventus line extremely safe and reliable, while providing a level non-skid floor to keep your cargo and passengers dry. Ventus boats make ideal tenders with plenty of room for carrying crew and provisions.

PICTURE A
VENTUS BOATS FEATURE AN ALUMINUM TRANSOM PROTECTOR, THREE DAVIT LIFTING POINTS, AND AN ADDITIONAL BUILT-IN AIR CHAMBER IN THE FLOOR FOR ADDED SAFETY

PICTURE B
OUR LIGHTWEIGHT DEEP "V" HULLS EXTEND THE FULL LENGTH OF THE BOAT, DISTINGUISHING US FROM THE COMPETITION BY PROVIDING BETTER TRACKING AND STABILITY

16 ALX

ALUMINA | ALX ALUMINUM CONSOLE TENDERS

Combining the sporty and stylish design of our Oceanus series with the durability and light weight of our Lammina series, the Alumina line is ideal for those who require a rugged, yet light-weight tender. Our Alumina series offers a full-featured console tender that is light enough to meet the requirements of limited capacity davits.

12 ALX

Each Alumina model is equipped with a heavy duty aluminum hull that will resist abrasions from rocky shores, coral and sandy beaches. The lightweight of this hull also means that Alumina boats claim excellent fuel economy and can reach cruising speeds with less horsepower. In addition, the Alumina series features comfortable upholstered seating, smartly designed fiberglass consoles, full hull length rubber keel protector, ample storage space and an integrated bow locker.

LAMMINA | AL
ALUMINUM TENDERS

Lammina was the first line of marine-grade, aluminum-hull inflatables to reach the U.S. market. The Superlight models, available in lengths 9,5 feet and under, feature a 2,28mm (0.090") aluminum hull. From 10 to the 14 feet lengths, these have a 3,17mm (0.125") aluminum hull, while the 15* & 16* feet boats sports a 4.76mm (0.187"). The transom thickness on models 8 to 10 feet is 3,17mm (0.125") and from models 11 to 16 feet is 4,7mm (0.190"). These tough, lightweight and durable aluminum hulls will resist abrasions from rocky shores, coral and sandy beaches.

The innovative design of the Lammina series cuts through wakes and chop with far less pounding. The result is an exceptionally dry, stable and superior ride.

LAMMINA | UL
ULTRA LIGHT ALUMINUM TENDERS

AB's commitment to innovation remains at the forefront in the development and design of "Ultra" Light Aluminum Hull RIBs. Using the same high quality and Orca (CSM) five layer coated fabric tubes, we offer a less expensive version of our already popular AL series. The 3.17mm/0.125" thick marine grade aluminum hull and non-skid floor of the unpainted 7.5, 8, 9 and 10' models combine durability with exceptionally reasonable pricing.

The ULs are the lightest and more spacious light series boats in the market. While the unpainted hull provides for minimum maintenance, the rubber non-skid floor adds comfort and safety. The UL series are the preferred choice among sail boaters around the world.

OVERALL BEAM	5' 9" / 1,76m
INSIDE LENGTH	7' 9" / 2,37m
INSIDE BEAM	2' 10" / 0,86m
TUBE DIAMETER	17" / 0,43m
PERSON CAPACITY	4
WEIGHT	273lbs / 124kg
RECOMMENDED HP	25
MAXIMUM HP	30
SHAFT LENGTH	20" / 50,8cm

AB RIDER JOCKEY STYLE RIDER

The AB Rider delivers the ultimate water experience. Its unsurpassed design and outstanding performance will give you many hours of safe and exhilarating fun.

This lightweight, fuel efficient and exciting 10' inflatable has ample seating for two adults and plenty of storage to keep your cargo protected and dry at all times. It is still a tender to your mother ship and can easily be lifted by its four davit lifting points for storage.

The AB Rider was made with the same safety features found on our inflatable boats such as three air chambers and tough Orca(CSM) material. The AB Rider was designed for those looking for a new type of thrilling and versatile water craft.

EVERY AB INFLATABLE BOAT IS BACKED BY A TEN-YEAR LIMITED WARRANTY. SEE YOUR DEALER FOR DETAILS.

PERSONS & LOAD CAPACITIES WILL VARY WHEN BOAT IS RIGGED WITH NON STANDARD ACCESSORIES. THE MAXIMUM PAYLOAD & PERSON CAPACITY HAS BEEN CALCULATED ACCORDING TO ISO & ABYC STANDARDS. OPERATING AT OR NEAR MAXIMUM CAPACITIES IS ONLY ADVISED IN CALM WATER AND AT REDUCED SPEEDS. ALL DIMENSIONS IN ACCORDANCE WITH ISO 6185 AND ISO 8666. APPROXIMATE WEIGHT HAS A TOLERANCE OF +/- 5% AND INCLUDES ALL STANDARD ACCESSORIES EXCEPT ON MODELS VS,VL & AL WHICH IS FOR BARE BOAT ONLY. ADD APPROXIMATELY 45LBS TO CONSOLE BOATS FOR ACCESSORIES LIKE: BATTERY, FUEL/WATER FILTER, BILGE PUMP, STEERING SYSTEM & FIRE EXTINGUISHER. ALL DIMENSIONS ARE + OR -3%. SOME MODELS SHOWN MAY FEATURE NON-STANDARD EQUIPMENT. SEE STANDARD AND OPTIONAL EQUIPMENT LISTINGS FOR FULL DETAILS.

THE PHOTOGRAPHS IN THIS BROCHURE WERE TAKEN UNDER CONTROLLED CONDITIONS, USING PROFESSIONAL OPERATORS. YOU SHOULD NEVER ATTEMPT ANY SPEEDS OR MANEUVERS WHICH ARE BEYOND YOUR CAPABILITIES, NOR WHICH ARE POTENTIALLY HAZARDOUS. WE STRONGLY SUGGEST USING RECOMMENDED HP'S ON THE BOAT. YOU SHOULD CONSULT YOUR LOCAL DEALER REGARDING SAFETY AND WEIGHT ISSUES BEFORE PUTTING MAXIMUM HP'S ON YOUR BOAT. SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE, ALTHOUGH ALL DETAILS SHOWN ARE ACCURATE AT THE TIME OF GOING TO PRESS. FOLLOWING A PROGRAM OF CONTINUOUS IMPROVEMENT, AB RESERVES THE RIGHT TO DELETE OR MODIFY ANY OF THE PRODUCTS IN THIS BROCHURE WITHOUT NOTICE.

BOAT SMART FROM THE START!

TAKE A BOATING EDUCATION COURSE, AND GET A VESSEL SAFETY CHECK FOR YOUR BOAT.
 FOR MORE INFORMATION CONTACT: U.S. COAST GUARD AUXILIARY: (877) 875 6296, (800) 368 5647 OR WWW.CGAUX.ORG / U.S. POWER SQUADRONS: (888) 367 8777 OR WWW.USPS.ORG

REMEMBER: BE SURE THERE IS A PERSONAL FLOTATION DEVICE (PFD) FOR YOU AND EACH OF YOUR PASSENGERS. WE RECOMMEND THE USE OF PFDs DURING ALL BOAT OPERATIONS. PFDs SHOULD BE WORN BY EVERY ONE ON BOARD AT ALL TIMES.
REMEMBER: ALWAYS ATTACH THE STOP-SWITCH SAFETY LANYARD TO YOUR WRIST BEFORE STARTING THE MOTOR AND DURING BOAT OPERATION. BEFORE SETTING OUT, CHECK THAT THE STOP-SWITCH LANYARD IS WORKING PROPERLY AND SHUTS OFF THE ENGINE WHEN PULLED.
