

PROFESSIONAL SINGLE DOSE  
CONCENTRATED DETERGENTS

---

## THE PROFESSIONAL CONCENTRATED SINGLE DOSE

The **MONO Line** is a selection of detergents for professional use, manufactured by **È COSÌ**.

The Line consists of 7 single dose products, differentiated by the use (**multi-purpose, floor, degreaser, sanitizer, bathroom**) and fragrance.

The *practical boxes* contain 30 vials of 40 g each, to be diluted in a standard quantity of water (500 and/or 1000 ml bottles).

## Easy opening

By removing the front panel, the box becomes a practical case at the workplace.

### BOX

Size: 16x18 cm  
Contains: 30 vials

### SINGLE DOSE

Size: 14x3 cm  
Contains: 40 g

### BOTTLE

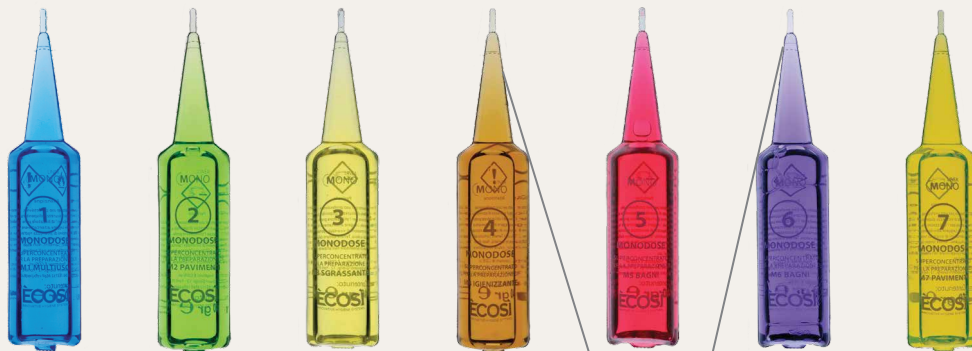

Dose: 1/bottle  
Dilution: 500/1000 ml

## From single dose to ready to use product

A clear and safer path from vial to bottle, thanks to the technical data sheets and instructions of dilution.

## EASY AND CLEAR

The MONO line products are distinguished by **unique numbers** and **color codes**, valid both for single doses and for diluted products.

### • Safety lock

It opens without scissors  
The dosage is controlled  
No product residue on the bottom

### • Smart design

It enters the neck of the bottle  
It follows the shape of the hand  
The product is clearly visible

## IN CONFORMITY WITH GPP

MONO Line complies with the **European Environment Criteria**. Therefore it is suitable for GPP, the so-called **Green Purchases in Public tenders**.

### **Dosage certainty, without risks**

The amount of 40 g is the **optimal standard** for the preparation of all detergents. The application is **easy and precise** and allows a **safe dilution**, without risk of spills or mistakes.

### **Quality and sustainability of cleaning**

MONO Line has been studied and formulated to achieve **high performance** using eco-friendly and **low environmental impact** raw materials.

### **Resources and space saving**

MONO Line facilitates the **storage** of products even in **small spaces**. It also can **monitor** water and detergent **consumption**. It is therefore functional to a better organization and management of everyone's work.

## EPD CERTIFICATION

Environmental Product Declaration.

Detergents with this trade mark express a certified environmental impact, analyzing the entire life cycle of the product.

# THE ESSENTIALS FOR A PROFESSIONAL CLEANING

## Discover the complete line

The MONO line combines operational optimization with logistics.  
In this picture, it is condensed the equivalent of 150 bottles of detergents.

1
