Scrubbis®

Go green, get speed.

SWEDEN LOVES THE ENVIRONMENT IN BOATING! DO YOU?

Our Swedish products are solutions to protect the environment and make it easy for boaters to take care of their hulls. Fouling and dirt on the hull is soft and fluffy when the boat is in the water. Therefore, it is much easier to remove the fouling and dirt then. The buoyancy in the Scrubbis products is pushing up towards the hull to simplify the cleaning considerably!

It is invented in Sweden and spread to the world.

Svante Bahrton, Inventor.
Patented products.

Our Product Solutions

You can combine the products to clean and maintain your hull, for cosmetic and performance boost.

Scrubbis products works for both motor boats and sailboats, and most hull types.

Underline System

UnderLine System removes the fouling from your boat hull, while the boat is still in the water.

UnderLine System handles soft and rough fouling, to achieve clean hull with less friction and a faster boat.

Waterline System

WaterLine System cleans the dirt on the hull at the waterline, while the boat is still in the water.

WaterLine System combines mechanical cleaning with a mild detergent, to achieve best cosmetic appearance.

EASY

Easy and quick

Exploit the buoyancy force to simplify and quickly cleaning the hull.

Easy to bring

Foldable and easy to stow away in the boat with the detachable parts and modularity. Scrubbis is always available when needed.

-20% Save money

Affordable tools to take care of your hull. A clean hull gives you up to 20% lower operating cost for motorboats.

+30% Faster boat

Scrubbis makes your boat **up to 30% faster!** A clean hull creates a lower friction in the water.

Eco Friendly

Good for the environment

Using Scrubbis instead of using toxic paints or other chemicals is the solution to a major environmental problem.

Hull Scraper SET

Underline System

Art.no 86102

With **Scrubbis Hull Scraper SET** you easily remove soft barnacles and other soft fouling from the hull. Clean the hull while the boat is in the water.

Hull Scraper SET is profitable and environmentally friendly solution to the problem of fouling on boats. It is a special tool to clean the hull in a time and cost effective manner. The cleaning head has a buoyancy of 2 kg / 4.4 LBS and a 3.2 m / 126 in long telescopic handle. Buoyancy distributed on the narrow scraper blades makes scraping force becomes very high and thus effective.

The cleaning head is equipped with flexible scrapers which effectively clean the hull. There is also a hard scraper blade for cleaning the harder fouling if necessary.

<https://youtu.be/IHG7AEm6n-0>

Included in the SET:

- Cleaning head
- Telescopic handle
- Extension pipe
- Bent pipe

Dimensions:

Length: 110-320cm / 43-126 in

Width: 40cm / 16 in

Diameter: 40cm / 3.7 in

Fouling flows out from the hull when the boat is in the water and thus becomes very easy to scrape off. Even barnacles in the early stage (2-4 weeks) comes off easily.

A 30-35 foot sailboat cleaned in about 20 minutes. You put the boat alongside, for example, a floating jetty. Scrub your boat about 3-6 times per season, depending on where the boat is.

Art.no 86152

Groovy Cleaning Head remove rough and hard fouling from the hull. Suitable for water with very heavy fouling.

Groovy Head is a cleaning head and accessory to Hull Scraper Set (86102). Replacing the usual cleaning head with Groovy Head. This is designed for tough and abundant marine growth, but not already hardened fouling such as shells. The cleaning head has a buoyancy of 2 kg / 4.4 LBS, which creates a pressure against the hull and facilitates cleaning.

For best results, we recommend that you first use Groovy Head and then switch back to the regular cleaning head. First you remove the heavy fouling and then the softer sludge and you get a clean hull.

Dimensions: LxD: 40x11 cm
15.7x4.7 in

Art.no 86120

Regular Head

Regular Cleaning Head is a spare parts for the Hull Scraper SET to replace worn cleaning heads.

Spare part for Scrubbis Scraper SET (86102) to replace worn cleaning heads. With a new cleaning head you scrub the hull more efficiently. The worn-cleaning head can be thrown in the recycling.

Included in the spare part package:

- Cleaning head with soft scrapers
- Hard scraper

Dimensions: LxD: 40x9,5 cm
15.7x3.7 in

Art.no 86106

With **Indicator Plate** you can see when it's time to scrub of the fouling from your boat hull.
It's easy, fast and illustrative.

Tie the **Scrubbis Indicator Plate** with your boat or the jetty beside the boat. When the fouling grows on your boat hull it will also grow on the Scrubbis Indicator plate.

Once in a while during the season, lift up the plate from the water and look if there is any fouling. If so, then it's time to scrub your boat hull with Scrubbis Scraper SET or other Scrubbis products. Also scrape of the fouling from the plate so you know you restart the indicator fresh.

Dimensions: WxH: 12x12 cm
4.7x4.7 in

Accessories

Telescopic Handle

Art.no 86151

Accessory for Scrubbis WaterLine Brush (86103) that functions as a handle.

Telescopic handle enables access to scrub the hull at the waterline. You can stand on the deck or on an adjacent jetty to access and scrub the hull at the waterline.

This is also a spare part for **Scrubbis Hull Scraper SET (86102)**.

Dimensions: L: 110-210 cm
43-86 in

Waterline System

Scrubbis Waterline System consists of several products to easily and effectively manage, cleanse and care for the hull at the waterline.

The concept of Scrubbis Waterline System is to handle boat hull by the waterline, while the boat is in the water during the season. The waterline can be cleaned continuously and is always clean and nice during the season. Also, the dirt and the coating is moist and easy to remove while the boat is in the water.

The system is environmentally friendly when combining mechanical cleaning with mild detergent. No harsh chemicals or acids need to be used.

The products included in the WaterLine System are:

- **WaterLine Brush:**
A brush to scrub and scrape off the dirt.
- **Telescopic handle:**
Accessories for WaterLine Brush.
- **WaterLine Cleaner Spray:**
Detergent applied on the WaterLine Brush.

Art.no 86103

With Waterline Brush you will easily remove dirt and stains from the hull at the waterline. Suitable for smaller and larger boats.

Waterline Brush is an effective cleaning head for scrubbing the hull at the waterline. It cleans of dirt and stains such as grease, soot, oil and marine biofouling. Waterline Brush shall be mounted on telescopic shaft available in Hull Scraper Set (86102). You can also buy Telescopic Handle (86151) separately.

Waterline Brush is preferably combined with Waterline Cleaner Spray (86200) to get an effective overall solution towards the dirt. Waterline Brush is used while the boat is in the water during the season, while the dirt on the hull is moist and easy to remove.

Dimensions, WxLxH: 8x20x12 cm
3x7.9x4.7 in

WaterLine Brush**Brush Part:**

One side with soft bristle fleece to scrub and brush.

Scraper strips:

One side for scraping and rinsing.

Buoyancy:

1 kg / 2.2 lbs buoyancy that helps and pushes against the hull.

**Telescopic Handle****Art.nr 86151**

Accessory for Scrubbis WaterLine Brush (86103) that functions as a handle. Telescopic handle enables access to scrub the hull at the waterline. You can stand on the deck or on an adjacent jetty to access and scrub the hull at the waterline.

This is also a spare part for Scrubbis Hull Scraper SET (86102).

Dimensions: L: 110-210 cm
43-86 in

Waterline Cleaner Spray**Art.nr 86200**

Waterline Cleaner Spray provides extra cleaning power to the Waterline brush. It dissolves the dirt and clean the hull at the waterline.

Waterline Cleaner Spray is specially formulated to clean the hull at the waterline from dirt and coatings. Spray it on the WaterLine Brush (86103) to create more efficient systems for cleaning.

Waterline Cleaner Spray and Brush is used while the boat is in the water during the season, while the dirt on the hull is moist and easy to remove. Cleaner Spray contains no chemicals that harm gelcoat, textile, steel or glass. Size: 16.9oz/50ml.

- 100% water soluble and mild
- Contains no acids or harsh chemicals
- Very effective in combination with WaterLine Brush
- Used during the season while the boat is in the water
