

MEASURE CARD

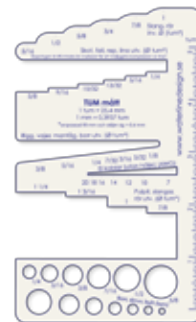

What size does my cable have? What dimension has the hose? We have probably all been in boat shop and come back to the boat with the wrong size of the tube, pipe, wire, cable, rigging bolt and more etc.

The measure card is especially designed to measure parts on boats: pipes, hoses, rigging screws, cables, ropes etc. Both the internal and external dimensions. The measure card is based on mm on one side and inches on the other side.

PRODUCT INFORMATION

Material:	PVC
Colour:	White
Size:	90 x 150 mm
Weight:	20 g
Shipment Weight:	25 g
Art nr:	1060
