

# SPREADER BOOT

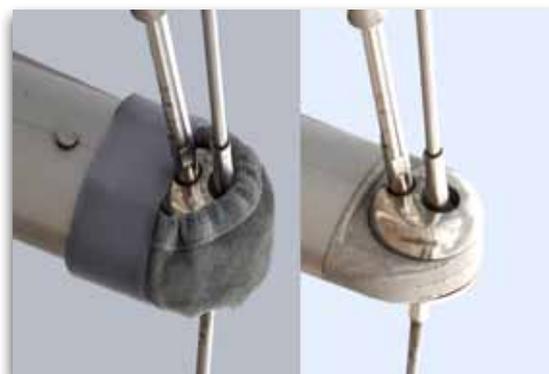

Protect your sails from abrasion from the spreaders. Put on a leather protection that is gentle to your sails. The spreader boot is made from leather with a rubber cord edge in which the protection is good regardless of the design of your spreaders. The inside is lined with neoprene for extra good fit. The protection comes with a long Velcro strap to fit even wide spreaders. Sold in pairs, three sizes. See table.

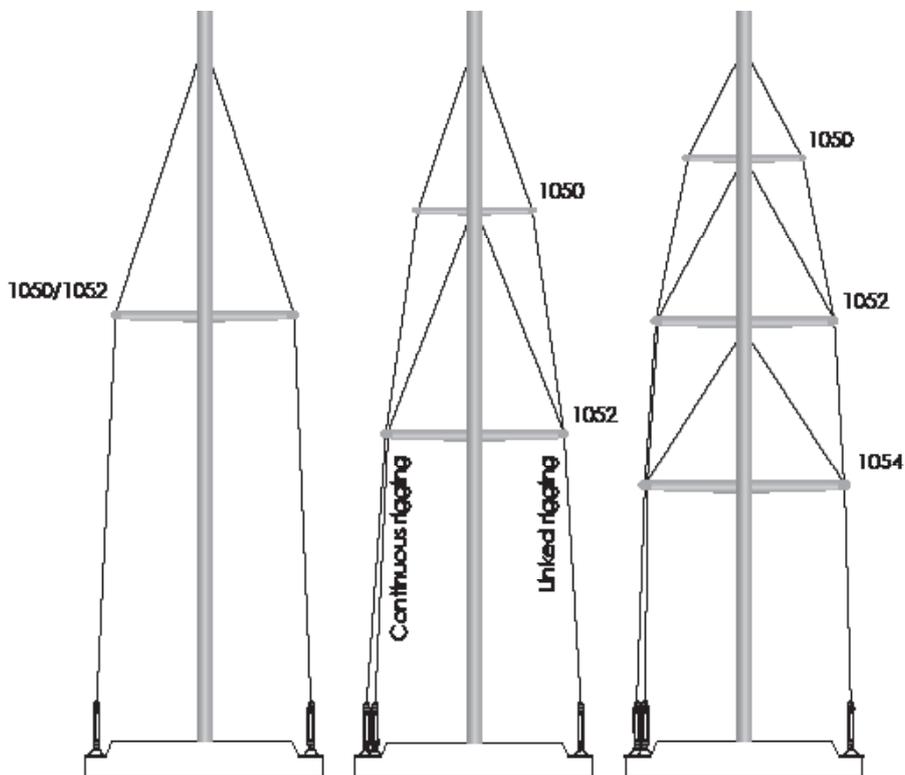

- Easy to put on and take off with Velcro
- UV-protected
- No more duct tape
- Protect your sails
- Good fit
- Suitable for all types of spreaders
