

# ALL-Protect Padding

(DS-ALLPROTECT)

## Primary Use:

- All-Protect Padding provides incredible protection of sharp and oddly shaped objects that could possibly puncture shrink wrap during the wrapping process

All-Protect padding is a padded, reusable protective covering with a residue-free adhesive backing.

## Selling Points:

- It can be easily cut to desired sizes and shapes.
- Won't leave adhesive residue and sticks to most surfaces.
- Can be used inside and outside
- Also provides temporary surface protection for windows, floors, stairs, walls, and various objects.

\*\*Trial use on test surfaces is strongly recommended\*\*

## Specifications:

- **Ship Weight:** 11.5 lbs
- Sold individually
- **Dimensions:** 19.5" x 82' roll

\*\*Application Instructions from the Manufacturer: Immediately prior to application, the surface must be cleaned and dried to ensure removal of dust, oils, solvents, and condensation (moisture). Adhesion is dependent upon the amount of adhesion-to-surface contact developed.
