# Deluxe Trumpet Horns Waterproof and Rust Resistant

## THE WATERPROOF DELUXE TRUMPET HORN

- Increased water resistance with drain hole
- Features rubber gaskets unlike competitor's paper board gaskets
- Watertight housing provides superior performance in wet conditions
- Mount at an up or down tilted angle
- Rinse it off - no worries!
- Single or Dual Trumpet available
- 12 or 24 Volt available
- One of the loudest horns on the market

**STAINLESS  
STEEL INSIDE  
AND OUT!**

# SCHMITT™

ongaro

## SCHMITT & ONGARO MARINE PRODUCTS

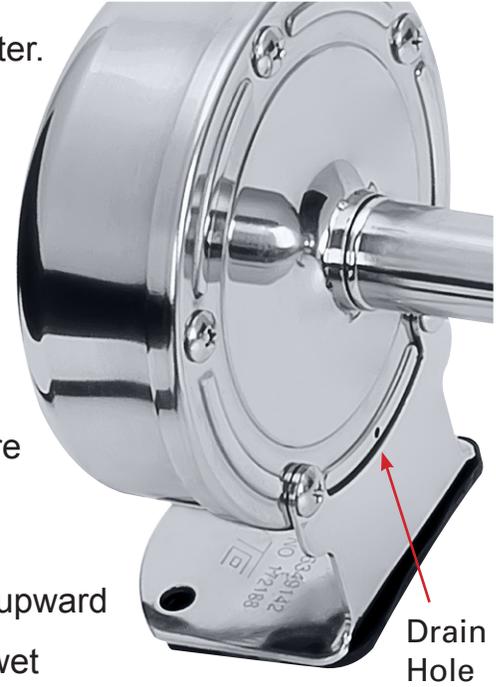

One of the **loudest electric horns on the market** just got better. We've taken your **favorite trumpet horn** and with a **critical design change** created a horn that will love being on the water as much as you do!

A small, unobtrusive **draining feature** allows any water that has infiltrated the horn to drain out. Once drained, you still get the same **loud blast** that lets other boaters know exactly where you are.

The **improvement** even enables you to mount the horn at an upward or downward tilt. And you don't have to worry about getting it wet when cleaning your boat, because the **water just drains away**.

We've maintained the **sleek, shiny stainless steel** and **no rust construction** you've come to expect and love. Now, in addition to **looking and sounding great**, you have a horn that doesn't mind getting wet.
