Event Trailer – Lift & Rotate

Event Trailer – Lift

Event Trailer – Lift & Rotate

- full colour LED VMS board with freely programmable full matrix – **in portrait and landscape format** (up to 16.7 million colours displayable)
- **the event trailer is especially suited for merchandising your event and displaying of pictures and animated pictures due to its high resolution, but also for private celebrations, for traffic guidance and information e.g. in parking management**
- chassis: hot galvanized steel, painted in any RAL-colour
- lifting takes place via two electronic actuators

Controlling

- Multimedia PC, 24/7 with OS Windows 10
- controllable via WLAN, UMTS 3G, direct via HDMI
