

AQUAGIV SILVER-SERIES

Watermakers for perfect freshwater comfort

Compact, economical and quiet - very easy to operate and the best price-performance ratio. But above all, high water- and outstanding components-quality. Enjoy a new independence and improved safety on board. The AQUAGIV SILVER SERIES.

Quick facts

Small - lightweight - compact

The new SILVER SERIES finds himself place even in **tiny spaces**. Since everything has already been **pre-assembled, installation is easy and quick**.

Processor control

The constant monitoring of salinity, the constant monitoring of operating conditions and the fully automatic flush - even in your absence: the control of the new SILVER SERIES is child's play, and relieves the user of almost all the work.

Remote control

The optional remote control allows you an easy control and monitoring from a different place. Keep the track.

High pressure pump unit

The heart of a desalination plant is the high-pressure unit. It must be able to produce up to 60 bar pressure and **cope durable** with the aggressive medium saltwater. Therefore the new AQUAGIV Watermaker comes with the **Danfoss** pump consisting of duplex and super duplex stainless steel, whose **lifetime is at least 8000 hours without maintenance**. Annoying oil changes are eliminated completely.

New salinità sensor ACS01

In the search for technical solutions that are **very reliable**, AQUAGIV goes new ways: with the new - in-house developed and produced salt sensor that monitors water quality throughout the production. **Only wholesome water reaches your tank.**

Models and output:

Model	Output/hr.	Output/day	Membranes	Drive
74-24/230V	74 Ltrs.	1.776 Ltrs.	1 x 40"	1.500 Watts
140-230V	140 ltrs.	3.360 ltr.	2 x 40"	1.500 Watts
180-230V	180 ltrs.	4.320 ltr.	3 x 40"	1.500 Watts
210-230V	210 ltrs.	5.040 ltr.	4 x 40"	1.500 Watts
260-230V	260 ltrs.	6.240 ltr.	4 x 40"	2.200 Watts

Reverse Osmosis performance varies with the feed water temperature and salinity. The rated performance is tested at 26°C / 80°F water temperature and a salinity of 35000 ppm TDS.

*** NEW*** AQUAGIV SILVER-SERIES – THE smart Watermaker *** NEW *** NEW***

Standard system equipment

- 1 x prefilter
- Removable membrane housing(s) incl. mounting brackets
- 6 m PVC low pressure hose
- Processor controlled valve for tank water
- Fully automated salinity sensor
- Low feedwater pressure switch off
- Automated high pressure switch off

Facts

- Made in Germany
- Low maintenance axial piston pump
- Fully automated flush optionally
- No proprietary equipment- spares and consumables may be obtained anywhere

Options

- 2nd prefilter for best filter results
- Manually or automatically flush set
- Boost pump
- Prefilter gauge
- Remote control

Dimensions

Weight: 37-42 kgs

From 75 ltrs./hr: L x W x D + 5cms each
