

Mooring Reel

A functional idea for mooring and anchoring, that is already the norm in Scandinavia.

A heavy duty stainless steel mooring reel with an adjustable friction brake and a patented fastening system, either fitted to rail tubing or bolted to a bulkhead. Easy assembly, all necessary parts for either mounting option included. Two sizes with 32 and 50 meters of line.

The breaking strength of the line is 2000 kg.

Package includes 3 connectors for 25 mm rail tubing.

Connectors also available for 22, 30 and 32 mm rail tubings.

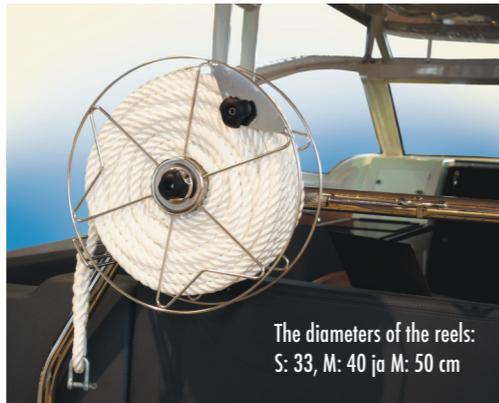

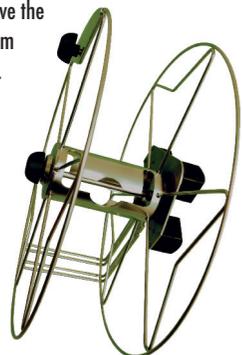

Product codes:
19050 (50m)
19032 (32m)

Rope reel for anchoring and mooring

Where and how to use the Rope reel

For anchoring and for mooring to a buoy or pier. For towing. Quick to use, the rope is always in order and ready to use.

This reel requires little space. Easy to install or remove the rope from the reel.

The diameters of the reels:
S: 33, M: 40 ja M: 50 cm

Includes 3 connectors for 25 mm rail tubing. Made of high-grade electro-polished stainless steel. Connectors also available in 22, 30 and 32 mm. The reel can be attached with screws on a flat surface (under hatches, on a panel etc.).

Prod. code	Rope Ø, mm / Max rope length approximatly, m

Safe & Easy Boating

Get the right equipment

Nawa equipments are designed to make boating more enjoyable.

The more time you have spent boating, the better you know how challenging mooring and landing situations can be. This is even more true if you have an inexperienced crew, or the weather is bad.

These situations can be avoided by using equipment that is designed and manufactured by prioritizing functionality and ease of use.

The size of your boat does not matter, it is important that all equipment can be easily located and are ready for immediately use.

For safer and easier boating.

For safer and easier boating.

Nawa is a Finnish manufacturer of marine equipments. All products are designed to perform in the demanding marine environment and above all to make boating safer and easier.

All Nawa products are made of high grade stainless steel and they are fitted with the patented Nawa Connector. The Connector is made of sun and sea water resistant marine nylon.

Nawa Marine Equipment for easier landings and faster moorings.

Nawa equipment is designed to help you enjoy boating even more. No more tangled mooring lines in deep lockers. All your equipments is neatly stored and still easy to reach when needed. Nawa will help you enjoy boating more and makes it easier and safer.

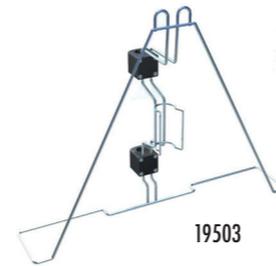

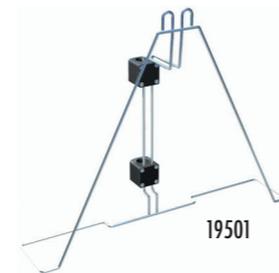

The patented Nawa Connectors are made of sun- and seawater resistant nylon. With the help of the Connectors the assembly is easy. The Connectors makes it possible to fasten the Nawa products on any rail tubing and on many different configurations.

Life Buoy Holder

There are three different models of this very popular product: The small and convenient Compact (connectors included) (19504), the sturdy Life (19501), and LifeLight (19503) which includes a light holder.

Product code: 19501, 19503, 19504

Antenna Bracket

Antenna bracket for VHF, GPS, radio or any other equipment. Connector included, 25 mm.

Product code: 19021

Flag Pole Socket

Flagpole socket for rail tubing. Connector included, 25 mm.

Product code: 19603

Rope Holder

Connector included, 25 mm.

Product code: 19801

Light Holder

A very useful light holder when space is at a premium.

Connector included, 25 mm.

Product code: 19505

Safety Line Holder

Two different models: round and square. Connector included, 25 mm.

Product code: 19601, 19606

Spinnaker Pole Holder

A spinnaker pole holder to be fastened to the lifeline stanchions. Keeps the pole up from deck.

Connectors included, 25 mm.

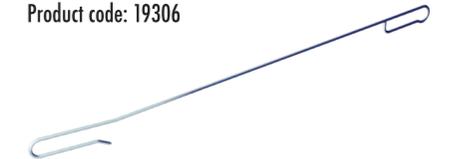

Product code: 19604

Mooring Hook

Very easy to use and reliable design.

Product code: 19306

Anchor Holder

Anchor holder for Bruce-anchors.

Connector included, 25 mm.

For 5-10 kg anchors.

Product code: 19607
