

# ECHOMAX

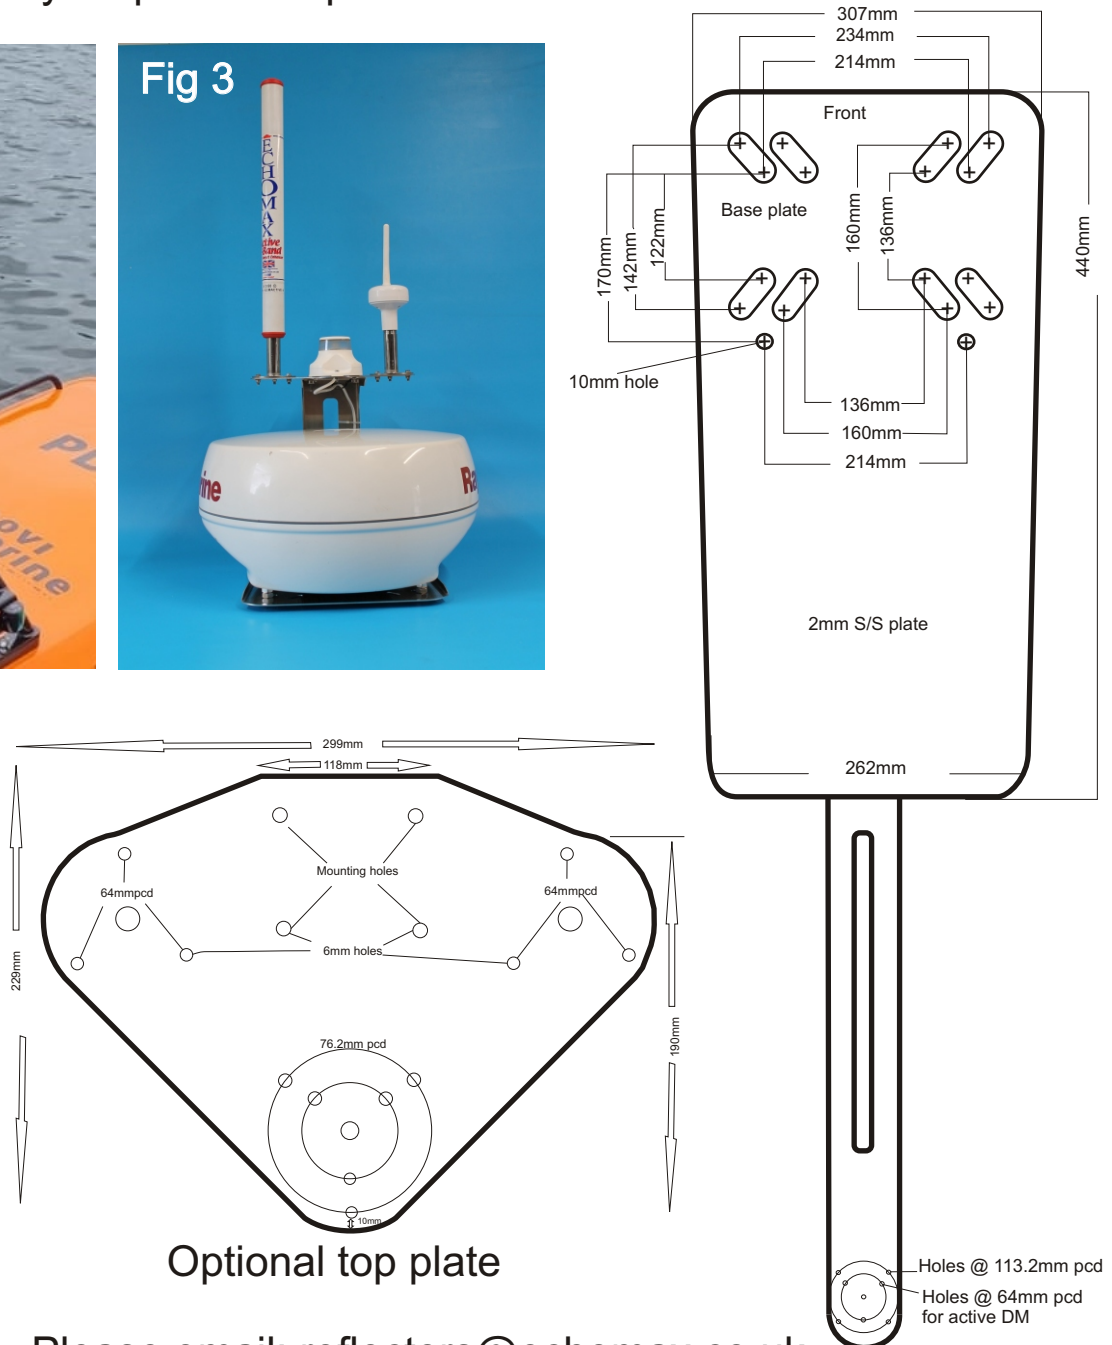

*The only one to be seen with.....*

Solve all your mounting issues with our MK2 Combi bracket made from 2mm stainless steel which accommodates the smaller radars such as Raymarine, Garmin, Simrad and Furuno etc. The basic upright enables our popular EM230 Basemount, Compact or Compact Plus radar reflectors with or without a navigation light, or Active X or XS target enhancers to be safely positioned over the radar (Figs 1&2)

Optional extras-

:Top plate is available with fixings for an Active RTE, AIS and Hella 360/Orionis LED light. (Fig 3)

:Stainless steel ADM100- 100mm 1 1/4tpi thread for the RTE,AIS and VHF.  
Alternative fixings may be possible upon consultation.
