## The Next Generation in Air Freshness

## INNOVATION IN THE AIR

continuous  
fresh scent &  
odour control

**oxy-gen<sup>®</sup>**  
POWERED

World's Most Eco-Friendly  
Air Freshness System

# VIVA!e<sup>TM</sup>

## Air Freshness

### The **next generation** air freshener

Viva!E does not use old aerosol or spray technology; it is a new generation of air freshener and the world's first to use new Oxy-Gen Powered technology.

### Create the **'WOW'** factor

The Viva!E Air Freshness system emits intensely-scented pure fragrance continuously, creating a permanently fresh environment that has fresh impact every time you walk into the room

**Two Year Warranty  
on the dispensers**

*"The first thing  
I noticed when  
I walked in  
the room was  
the fantastic  
scent."*

### **Consistent** fragrance levels - guaranteed

Viva!E is designed and engineered to deliver consistent and continuous levels of fragrance and odour control for the full life of each refill.

**oxy-gen<sup>®</sup>**  
**POWERED**

Unique Oxy-Gen Powered refill technology delivers precise doses of intense scent with no variation on delivery or drying out.

**World's First Oxygen Powered Technology for Aircare**

## Most eco-friendly air freshener

Oxy-Gen Powered technology is a clean source of power, producing continuous levels of intense fragrance that contain no propellants, solvents or CFCs – just pure natural scent.

*"It's good to have an air freshening system that isn't harmful to the environment."*

## Carbon footprint approved product

In an independent process the Oxy-Gen Powered system has been assessed and verified for emissions and energy consumption and was found to have a significantly lower carbon footprint compared to aerosol products in the market.

*"I know the washroom is clean, just because it smells so fresh."*

## Top quality fragrances

Each fragrance has been selected for their intensity; each has been extensively tested for performance over the refill life; each has been field tested for popularity and appeal

A sophisticated fragrance that combines fresh apple notes with amber and spices

An exotic floral scent of night flowering jasmine, orange blossom and gardenia

A warm and subtle combination of ripe berries for a juicy, fruity scent

A fantasy melon fragrance modified with cool green notes, a hint of citrus and a slightly floral background

An exotic mix of pineapple, tropical fruits and coconut

A pure, clean fragrance of delicate florals and watery notes

A fruity fragrance of fresh watermelon with plum, peach, raspberry and crisp green apple

# Better for the environment

## Better for **freshness**

With **neutra-lox** malodour eliminator

Most air fresheners work by masking bad odours with heavy perfume. The Viva!E Air Freshness system uses Neutra-Lox, a proprietary odour neutralising agent to eliminate any bad odours, instead of masking them, leaving only fresh scent in the air. Neutra-Lox effectively eliminates bad odours such as tobacco, kitchen odours, sweat, mildew, animal and body odours.

*"Servicing Viva!E is so easy with no complicated programming. It takes just seconds to fit a new refill."*

**\*Three years shelf life for the cartridges**

\* 3 years from the date of manufacture printed on cartridge

Choose your preferred fragrance intensity based on the refill life...

**Every Day intensity**

**Booster intensity**

**! Refills are compliant with**

- Californian Air Resources Board (CARB)
  - REACH
  - European Regulations
- and are also exempt from Swiss VOC taxes

An invigorating scent of green apple and pear softened with peach and pineapple

A tropical sensation that blends light fresh citrus with sweet mango and sun-ripened papaya

A freshly sliced, mouthwatering mandarin fragrance sweetened by lush, juicy orange

A warm, sensual fragrance combining oudh, sandalwood and saffron

A fresh, invigorating scent with fragrant lavender and spicy herbs

An intensely fruity perfume with hints of orange supported by warm spices

A vibrant, bubbly scent of lime, lemon and grapefruit

Juicy black cherries, hints of almond and plum on a background of vanilla and cinnamon spice

The world's most environmentally-friendly  
air freshener that delivers  
fresh scent and odour control  
continuously for 30 or 60 days

Oxy-Gen Powered technology is a new medical-grade innovation that harnesses the power of pure oxygen to deliver **continuous, consistent ambient fragrance.**

- › No harmful emissions, solvents or propellants
- › Low VOCs mean it is ideal for green buildings and LEED certification requirements
- › Viva!E can reduce the amount of VOCs being emitted by up to 90% when compared to aerosol cans
- › The refill is 100% recyclable and safe to dispose of in your regular plastic recycling waste
- › Less waste, safer storage
- › Works against gravity so the fragrance oil won't pool or leak

**VIVA!e**<sup>TM</sup> best for the environment & performance

## VIVA!e™ Dispenser

Key lock

Stylish cover design in a choice of 9 colours

Visual light indicators provide refill and battery replacement reminders

Vented sides for effective fragrance dispersal

- Simple to install and refill – *just twist and go*
- Operates on 2 AA alkaline batteries (*not included*) that last up to 2 years
- Empty refills can be safely disposed of as plastic recycling
- Perfume oil is gradually dispersed delivering a continuous and consistent fragrance intensity
- Unique cellular diffuser will not dry out or become saturated too quickly
- Can be positioned at any height
- Silent operation

Made of recyclable material

Meets WEEE regulations
