

Dear Sirs,

we're pleased to introduce our firm, MANTA ECOLOGICA SRL as Italian manufacturer with a wide and full range of descaling and power flushing pumps.

FLOW - unclogging liquid

Descaling Pumps

For 35 years, we produce chemicals for the maintenance of installations for heat production, air conditioning and water treatment. We' re also producers of housing filters (PP, brass, inox) and cartridges. Our research & development department, studies products - with its brand name or private label one - along with the most important European manufacturers of boilers.

Power flushing pumps

It was the first Italian Company in this field to adopt a quality system according to UNI-EN ISO 9002 standard and subsequently the certification of UNI-EN ISO 9001 Vision 2000 for design, production and sales by British body BSI. It is currently certified ISO 9001:2008.

We want to take this opportunity to offer our complete line of "solutions" for a possible collaboration with your reputable sales organization.

You could find a brief summary on our website:

<http://www.mantaecologica.it/english/Catalogue.htm> which we hope will stimulate your interest for a first business approach with you.

Chemicals products

We'll be happy to answer to all your requests with the best deals and further informations so please, don't hesitate to take contact with us.

Confidents that you will appreciate our proposal,
Your sincerely,

Filters in PP - brass and inox
