

MANUFACTURER OF MOORING PRODUCTS

fenderCovers ▪ Inflatable Fenders ▪ fenderHooks ▪ antiChafe ▪ railCovers

About Us

Fendequip was formed in 2004 and now is an established company with an outstanding reputation for high quality mooring products amongst Yachts, Captains, Boat-builders, Re-fit yards and OEM's.

We have a worldwide network of Service Centres, Dealers and Distributors who supply the very best in customer service, sales and product support, furthermore fendequip products are often specifically asked for and sourced throughout the industry, which is a true testament to our Quality, Service, Excellence and Core Business Values.

Fendequip designs and manufactures its products in-house at its factory located in the southwest of England. Each department ensures that each product is 'fit for purpose' and manufactured using the finest materials to the highest quality.

Paul

Jointly founded the Company in August 2004 with his wife Lisa. He is involved in all aspects of the company from marketing, system development and planning as well as production development and production efficiency.

email: paul@fendequip.com

Lisa

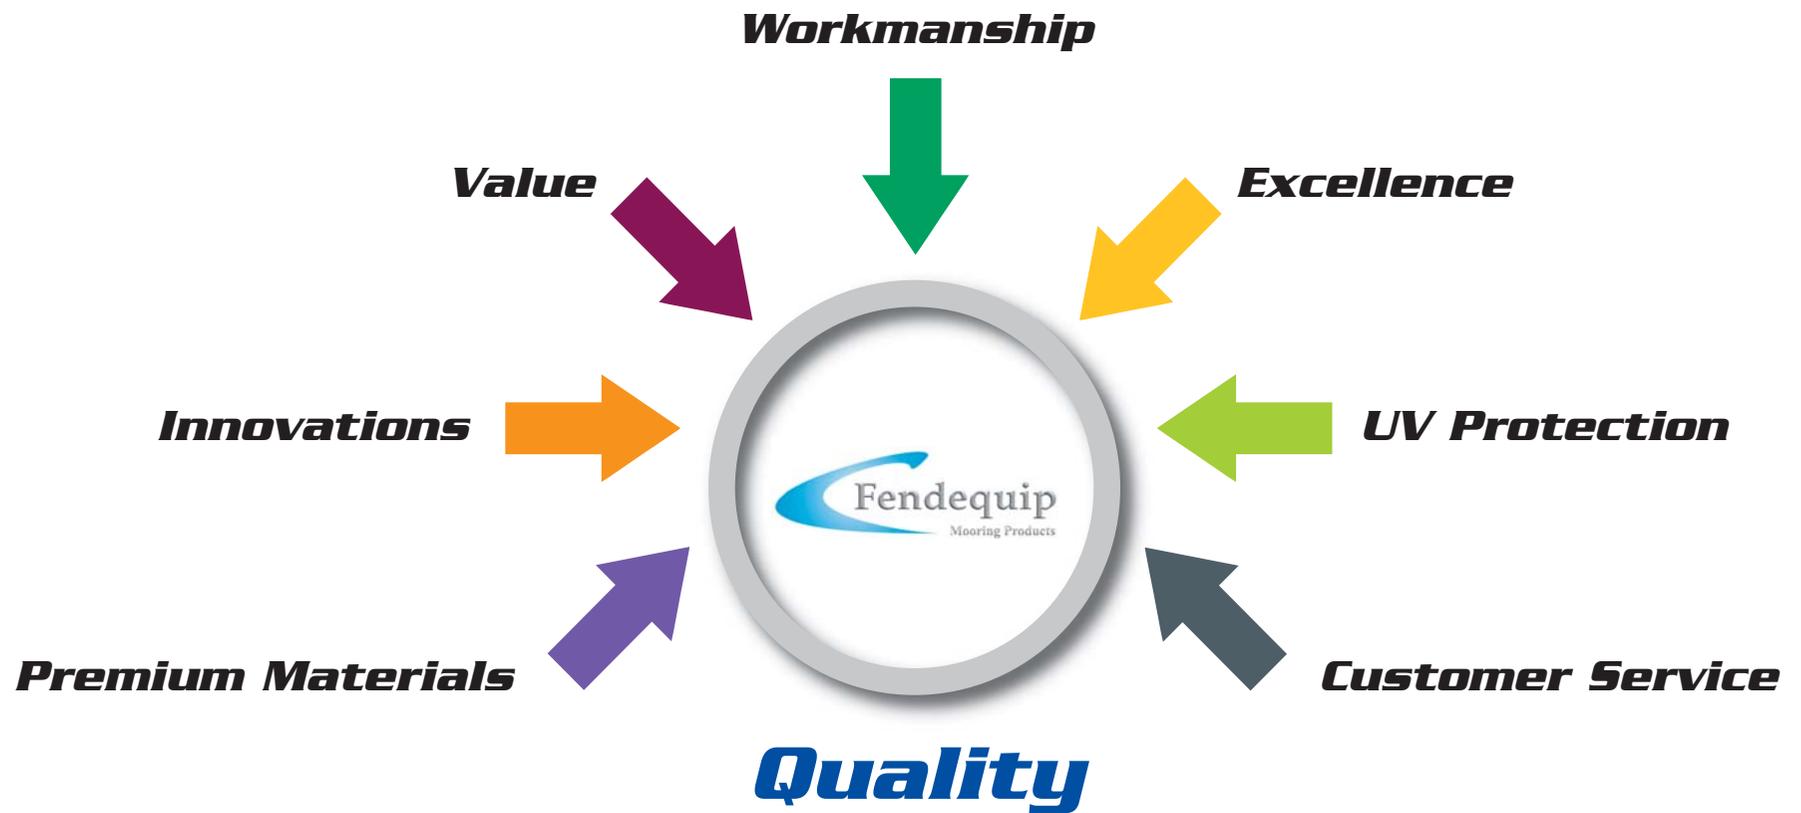

Is involved in most of the operational fields, finances and sales. Lisa brings her experience from working within the Accounts and Finance industry.

Quality

Our 'in-house' experience and expertise is unmatched by any other fenderCover manufacturer with a combined workforce experience totalling over 55 years and is undoubtedly the main reason why we are constantly expanding and improving our manufacturing capacity to meet the demand.

When tested for light fastness Fendequip Fendecovers will last 8 times longer in direct sunlight before showing signs of fading compared to similar products made from standard yarns.

We believe that we are the only manufacturer to use these premium quality yarns.

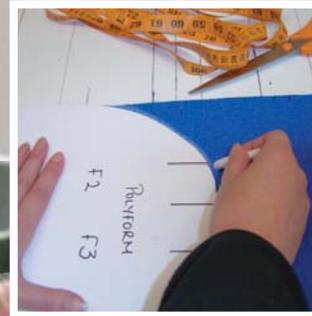

Fendequip products are tested by Bureau Veritas and have been accredited with an ISO 105 B02, greater than Grade 7*certificate.

Manufacturing

Fendequip designs and manufactures all of its products in-house at its UK factory, in the South West of England.

Each department is spread over 500sq metres of office and manufacturing areas.

Our highly skilled staff ensure that each product is fit for purpose and manufactured to the highest quality.

Bespoke Sizes

OEM Official Supplier

fenderCovers for Plastic fenders/buoys

We manufacture fenderCovers to fit all makes, shapes and sizes of fenders and buoys currently in the market place, complimenting your existing product lines.

Our fenderCovers are specifically designed to prevent permanent gel coat damage.

All fenderCovers are retail packaged which enables stockists to hang the products for prominent display; the bag also incorporates a resealable clip-close carrying handle

Fendequip 'Standard' fenderCovers are available for all makes of fenders including:

fenderCovers for inflatable fenders

We specialise in manufacturing fenderCovers for the Super Yacht market.

All inflatable fenderCovers are manufactured from our own loop knit fabric, in double thickness for extra durability and topside protection.

***“Whether the fender is 1 metre or 7 metres
we have the facility and capability to produce
a fenderCover for any size fender”***

maxiStow fenders

Fendequip maxiStow leisure fenders are the perfect choice for small to medium size yachts and powerboats.

Light and easy to handle when inflated and easy to stow in a small locker. Made from hard wearing high grade polyester fabric with an abrasion resistant surface, they are hard wearing which will ensure a long and trouble-free life.

maxiHooks

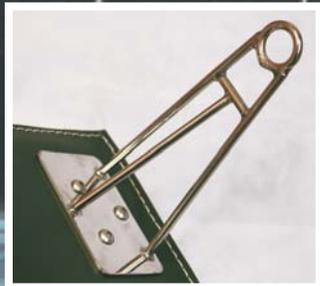

maxiHooks are the first UK designed and manufactured fenderHooks for worldwide distribution.

Manufactured from top quality stainless steel, leather and sheepskin

Our fenderHooks are designed to allow fender lines to be easily attached to rails without the need for unsightly knots and removing the danger of polished rails being chafed or damaged by the ropes.

- **Leather covering sheepskin lining**
- **Simple quick fender height adjustment**
- **5mm aluminium bracket**
- **Composite cam cleat and fairlead to lock in rope**
- **Standard sizes to fit stainless steel handrails**
- **Standard sizes to fit teak hand rails and bulwarks**
- **Bespoke fenderHooks made to your specification**

100% UK manufactured

ropeCovers

Fendequip's 'anti chafe' ropeCovers are designed to protect the boats hull and top deck.

Made from 3 layered soft loop fabric they are very quick and easy to fit.

Non-absorbent, quick drying and stain resistant.

railCovers

Our innovative and hardwearing guardrail and safety railCovers are made from the same soft loop fabric as our fenderCovers.

Both incorporate a core of closed cell foam. Non-absorbent, quick drying and stain resistant.

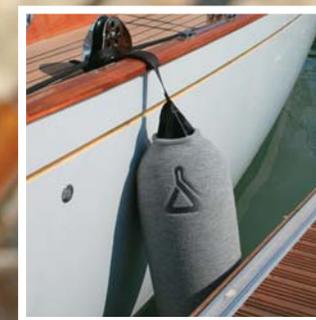

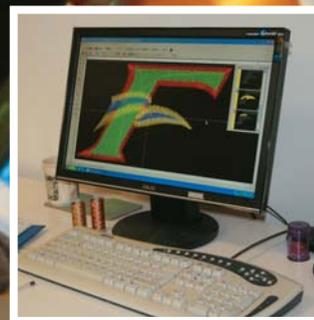

Embroidery

As suppliers of embroidered fenderCovers to some of the leading boat builders, it goes without saying that fendequip can supply the best products in terms of quality and value for money.

However, what sets us apart is our ability to provide each and every customer with a simply outstanding service.

Fendequip are the only fenderCover manufacturer to supply many of the World's leading Boat and Super Yacht Builders with customised fenderCovers. Most are fitted as standard (OEM) or available through their dealers.

Alternatively, you may have a customer who wants to have their own boat name or logo or club insignia.

Distribution and Dealers

Fendequip products are distributed throughout the world by many of its loyal dealers and distributors.

We are always looking to expand our international network and would be pleased to discuss selling opportunities within your trading regions.

- **Excellent profit margins**
- **Outstanding popular sought after brand**
- **Pleasurable customer service and support**
- **Fantastic quality products**
