Chemspec Europe – the complete cleaning solution

Chemspec Europe is a truly European operation.

Part of the vast RPM Group with 9000 employees worldwide, the organisation is based in West Yorkshire in the United Kingdom and supplies a complete range of cleaning solutions via a network of professional distributor partners, adding value throughout the UK and most of Geographic Europe. This stretches from the Danish Territories of Greenland and Iceland in the West across to the Ural mountains in eastern Russia, from Lapland in the North down to Greece and Portugal in the South. These relationships are highly valued, providing a regional supply of Chemspec products from companies who know the territory and how best to trade in the local marketplace.

Still focussing upon the core values of performance, quality, consistency, service and value, Chemspec Europe has become famous for really strong technical support and has a history of introducing innovative products ahead of the rest. Whether it is Ceramic, Glass, Wood, Upholstery, Carpets, Resilient Flooring in fact virtually any surface, Chemspec Europe has the products and the expertise to deal with it. Specialised treatments for Fire and Flood damage are thoroughly covered by Chemspec products and training is available to suit specific requirements whether on regional courses or on a one-to-one basis.

Training Manuals

Carpet Cleaning Manual

A complete 330 page guide to all aspects of carpet cleaning

Want to know all the science and all the practical information about cleaning carpets in a professional way. This complete reference manual is for you. Includes commercial and domestic cleaning techniques.

Code: Single 8503

Upholstery – All Fabric Cleaning and Care Manual

A complete 50 page guide to every aspect of upholstery, partition and fabric cleaning.

Includes Fibre types, Yarns and fabric construction, Dyes and dyeing methods, Cleaning Chemistry, Spotting and use of bleaches and strippers, Fabrics and Upholstery composition etc.

Code: Single 8507

www.chemspec-europe.com

Gradually Chemspec has developed alongside the ever-growing chemical range to supply revolutionary equipment to facilitate even better cleaning.

All of this excellence, inevitably, has a price, but it is cost in use that is really important. Some Chemspec products cost more to buy in a five litre bottle than a competitive product but when the dilution rate is taken into account, the cost in use is often actually lower. Coupled with the tendency for Chemspec products to be more effective and faster acting, many users choose to pay a little more to get a better result.

The wide range of chemicals provided by Chemspec Europe is now expanding still further to meet the demand for natural products which are environmentally friendly and sustainable from naturally grown sources.

Chemspec DFC products (Detergent Free Cleaning) offer effective cleaning without the use of either surfactants or phosphates. One Clean Green offers multi-use and green in one package.

Problem solving has always been the mission for Chemspec Europe and the dedicated team of long standing staff is always ready to provide help and guidance to those who deal with particular cleaning problems.

Training Courses Available

- Carpet and Upholstery Cleaning
- Deodorisation
- Wood Floor Restoration
- Building up Profits within your Business
- Sales and Marketing
- Resilient Floor Cleaning and Maintenance
- Fire and Flood Restoration
- Bio-Hazard

Carpet Detergents, Rinses, Cleaners and Shampoos

All Fiber Textile Rinse

An acid rinse to neutralise high alkaline detergents

Stabilises possible unstable dyes i.e. oriental rugs, metallic dyes etc. Leaves fibres soft and safe where ever colour bleeding might be a problem. Use following high pH detergents if used on wool or dyed fibres or as acid pre-spray before applying carpet protectors.

pH@use:	2.5 – 3.5
Coverage:	Up to 1000 sq. mtrs. per bottle
Dilution:	Variable depending on use
Appearance:	Clear Liquid
Fragrance:	Spice
Code:	Single 3.78L: AFTR1G Case of 4: AFTR4G

Colourfast For Rugs

A low pH, acidic, anionic detergent for use on all natural fibre rugs or carpets

Stabilises dyes and reduces the risk of migrating dyes. Also very effective on colour loss and cellulosic browning.

pH@use:	2.5 – 3.5
Coverage:	Up to 640 sq. mtrs. per 4L
Dilution:	Portables – 240 ml to 4 L of water Truck Mount – 2L to 19L
Appearance:	Clear yellow liquid
Code:	Single 3.78L: CFFR1G Case of 4: CFFR4G

DFC 105 Carpet Cleaner/Rinse

DFC Technology cleans without using synthetic chemistry

The unique formulation of DFC 105 combines with carpet soils and surfactant residues to make them free rinsing, thus leaving the carpet residue free and squeaky clean. DFC 105 may be used as a pre-spray or as a carpet rinse.

Winner of the NEC New Product Innovation Award for 2011.

pH @ use:	7.5 – 8.5
Appearance:	Clear Liquid
Fragrance:	None
Code:	Single 3.78L: DFC1051G Case of 4: DFC1054G

DFC 210 Powdered Carpet Cleaner

DFC Technology cleans without using synthetic chemistry

The unique formulation of DFC 210 Powdered Carpet Cleaner combines with carpet soils and surfactant residues to make them free rinsing, thus leaving the carpet residue free and squeaky clean. DFC 210 may be used as a pre-spray or as a rinse.

pH @ use:	7.5 – 8.5
Coverage:	Variable
Dilution:	Scoop 30g to 4 litres of water (128 to 1)
Appearance:	White powder
Fragrance:	None
Code:	Single 3.6kg: DFC2108L Case of 4: DFC21032

Dry Power

Dry compound for use wherever wet cleaning is not possible on carpets (i.e. sisal, coir etc.)

Simply sprinkle, brush in, allow to dry and vacuum, leaving the carpet fresh and clean. Several applications may be needed for heavily soiled carpets.

pH @ use:	6.5 – 7.0
Coverage:	45g per sq. mtr
Dilution:	Ready to use
Appearance:	Yellowish granules
Fragrance:	Mountain breeze
Code:	Single: UKDP9K

Enzyme Carpet Shampoo

The perfect high foaming shampoo for restaurants and general food areas

The enzymatic action digests the protein soil making lifting out the contamination quick and easy. Contains air fresheners which eliminate stubborn food odours that often linger after cleaning.

pH @ use:	8.5 – 9.5
Coverage:	Up to 200 sq. mtrs. per 500gm
Dilution:	60gm to 8L hand hot/warm water
Appearance:	White powder
Fragrance:	Floral
Code:	Single 2.5kg: UKENZY5L Case of 4: ECSCS

Formula 161

A high foaming shampoo for all rotary and rotary extraction machines such as the Chemstractor

A soil retardant, crystallising high foaming "WoolSafe" shampoo which cuts down on abrasion and wear on carpet fibres. Soil retardants repel soil away and make vacuuming dry soil particles away much easier. Use in any high foam cleaning machine.

pH @ use:	8.5 – 9.5
Coverage:	Up to 800 sq. mtrs. per 5 Litres
Dilution:	300 ml to 5 litres water
Appearance:	Clear Yellow Liquid
Fragrance:	Mild Ammonia
Code:	Single 3.78L: F1611G Case of 4: F1614G

High Heat Powder

New generation unique heat stable powdered detergent

Perfect for even the hottest truck mount. The unique formulation has the ability to hold up the temperature of the water, even in your portable unit. Built in anti-corrosives withstands temperatures exceeding 120°C.

pH @ use:	9.5 – 10.5
Coverage:	Up to 300 sq. mtrs. per 500g
Dilution:	Portable: 45g to 20L water Truckmount: stock solution 24 scoops to 20L water
Appearance:	White powder
Code:	Single 2.1kg: UKHH05 Case of 4: UKHH20

Carpet Detergents, Rinses, Cleaners and Shampoos continued

Liquid Formula 90

Triple strength new generation, multiple dilution carpet detergent

A super high performance lowest cost at use liquid carpet extraction detergent. This detergent is "WoolSafe" approved up to a 500 to 1 dilution and gets stronger in pH value the more you add, up to a massive 960 to 1 dilution.

pH @ use:	960:1 (9.5 – 10.5) 640:1 (10.0 – 11.0) 320:1 (11.0 – 11.5)
Coverage:	160 – 3,170 sq. mtrs. per 4L
Dilution:	Variable (see label)
Appearance:	Light blue liquid
Fragrance:	Citrus
Code:	Single 3.78L: LF901G Case of 4: LF904G

Liquid High Heat

An acid side extraction detergent for all types of extraction machines

Especially effective for rug cleaning with a unique polymer coating which encapsulates the residue to avoid any chance of any of the crystallising residue reactivating. No need to acid rinse, this detergent will neutralise your alkaline pre sprays whilst it cleans on all fibres. Suitable for carpets, rugs and upholstery.

pH @ use:	3.0 – 4.0
Dilution:	Portables: 320 to 1 (60 ml to 20 litres) Truckmount: 1L to 20L stock solution – metre 320 to 1
Appearance:	Clear
Fragrance:	Mild polymer
Code:	Single 3.78L: UKLHH1G Case of 4: UKLHH4G

Liquid One Clean

Liquid "WoolSafe" carpet detergent

Suitable for all fibres, safe on stain resist carpets, wool and synthetics. Use One Clean on even commercial carpets, suitable for portable and truck mount use.

pH @ use:	8.0 – 9.0
Coverage:	Up to 1400 sq. mtrs. per 4L
Dilution:	Portable 45 ml to 20L water
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 5L: UKOD15 Case of 4: UKOD45

One Clean Green Carpet & Upholstery Cleaner

A WoolSafe approved product made with bio-renewable, botanically derived ingredients

One Clean Green Carpet and Upholstery Cleaner is highly concentrated and has the power to take on the toughest cleaning challenges while remaining the safer alternative to traditional cleaners.

pH @ use:	4.5 – 5.5
Coverage:	Variable
Dilution:	Variable see label or product sheet
Appearance:	Clear yellow liquid
Fragrance:	Low odour
Code:	Single 3.78L: OCG1G Case of 4: OCG4G

Oriental Rug Shampoo

Safely handles delicate rug fibres and sensitive dyes in all carpet fibres

Suitable for use on site or in plant cleaning. "WoolSafe" approved shampoo for use in high foam generating machines i.e. Chemtractor SC, Rotary Shampoo Machines, Chemspec's Shampoo Foamer.

pH @ use:	7.0 – 8.0
Coverage:	Up to 640 sq. mtrs per 4L mixed solution
Dilution:	240ml to 4L water
Appearance:	Clear yellow liquid
Fragrance:	Spice
Code:	Single 3.78L: ORS1G Case of 4: ORS4G

Powdered Formula 90

The worlds best selling carpet detergent

The best performing high pH carpet cleaning detergent available. Well buffered detergent for all your heavily soiled carpet cleaning jobs.

pH @ use:	10.0 – 11.0
Coverage:	Up to 280 sq. mtrs. per 500g
Dilution:	Portable 28/56g to 20L water Truckmount: 24 scoops to 20L water
Appearance:	Light yellow powder
Fragrance:	Citrus
Code:	Single 10kg: UK9022 Single 2.5kg: UK906L Case of 4 (2.5kg): UK9024

Powdered One Clean

Suitable for all fibres, safe on stain resist carpets, wool and synthetics

Use One Clean on even commercial carpets, suitable for portable and truckmount use. Super concentrated for high performance results on all carpet types. Use in portable or truckmount extraction machines.

pH @ use:	8.0 – 9.0
Coverage:	Up to 200 sq. mtrs. per 500g
Dilution:	Portable: 28/56g to 20L water. Truckmount: 690g to 20L water
Appearance:	White powder
Fragrance:	Light fragrance
Code:	Single 10kg: UKPD22 Single 2.5kg: UKPD6L Case of 4: UKPD24

Traffic Lane Cleaners and Pre-sprays

Enz-all Boosted Enzyme Pre Spray

One of the most powerful enzymes in the industry

One of the most powerful enzymes in the industry, formulated to deal with the toughest protein, oily or heavy duty ground in soil. Can be used as a traffic lane cleaner/ pre spray, or a very effective spotter.

pH @ use:	11.5 – 12.5
Coverage:	Up to 200 sq. mtrs. per 42g
Dilution:	1 scoop to 4L hot water. T/M 10 scoops to 4L water
Appearance:	Off-white powder
Fragrance:	Floral
Code:	Single 2.72kg: UKENZA6 Case of 4: UKENZA24

Express Lane Traffic Lane Cleaner

Offers multiple dilution levels

This product is designed to offer multiple dilution levels depending on the degree of soiling, increase the pH to suit your conditions/fibre types. A pre treatment with a slow drying dual surfactant formula to make pre spraying large commercial areas quick and easy.

pH @ use:	8.5 – 9.5
Coverage:	132 sq. mtrs. per 4L
Dilution:	120 ml to 4L water. T/M 1L to 3L water
Appearance:	Thick milky white liquid
Fragrance:	Mild solvent odour
Code:	Single 3.78L: UKEL15 Case of 4: UKEL45

Formula 321 Traffic Lane Cleaner

Excellent results on all traffic lane areas

The first ever traffic lane cleaner to offer a 32 to 1 dilution ratio. This very economical traffic lane cleaner saves space on your van, giving excellent results on all heavy commercial and domestic traffic lane areas.

pH @ use:	10.0 – 11.0
Coverage:	Up to 1,467 sq. mtrs. per 4L
Dilution:	32 to 1 (360 ml to 4L) T/M 1L – 3L water
Appearance:	Clear green liquid
Fragrance:	Solvent
Code:	Single 5L: UK32115 Case of 4: UK32145

Heavy Duty Soil Lifter

Designed for upholstery, drapery and carpets

A versatile pre spray designed for upholstery, drapery and carpet. An excellent spotter for ink, floor finish, shoe polish, light grease, oil, tar and other oil based stubborn spots. Very effective on smoke damaged areas or draught marks.

pH @ use:	7.5 – 8.5
Dilution:	Various see product label, product sheet or use as additive to boost detergent
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 3.78L: HDL1G Case of 4: HDL4G

Kill Odor Plus

Deodoriser and traffic lane cleaner in one

Traffic lane cleaner with built in deodoriser. Ideal for those who have little space to store their cleaning solutions, this economical product will do both jobs in one. Highly effective against urine odour build up in nursing home environments.

pH @ use:	6.5 – 7.5
Coverage:	Up to 550 sq. mtrs. per 4L
Dilution:	360 ml – 960 ml to 4L water
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 5L: UKKP15 Case of 4: UKKP45

One Clean Traffic Lane Cleaner

A gentle but effective "WoolSafe" traffic lane cleaner

Designed for all those heavy soiled and well used areas. Suitable for all wet cleanable carpet fibres. For best results extract using the WoolSafe detergents such as One clean powder, liquid and Liquid Formula 90.

pH @ use:	9.0 – 10.0
Coverage:	Up to 300 sq. mtrs. per 4L
Dilution:	300 ml per 4L warm water
Appearance:	Clear light yellow liquid
Fragrance:	Citrus
Code:	Single 3.78L: OCTLC1G Case of 4: OCTLC4G

Prekleen Enzyme Soil Lifter

Pre-spray for grease, blood or protein based soils

Highly effective enzymatic carpet pre spray for grease, blood or any protein based soil. Use as an initial pre soak for old urine or coffee wick back stains. Use before Rotary extraction (Chemtractor V) or Steam extraction, such as the Sphere or Edge machines.

pH @ use:	8.0 – 9.0
Coverage:	Up to 240 sq. mtrs. per 450g
Dilution:	1 – 2 scoops per 4L warm water
Appearance:	Off-white powder
Fragrance:	Citrus
Code:	Single 2.7kg: UKPE6L Case of 4: UKPE24

Traffic Lane Cleaner Original

Heavy duty heavy soil loosening capability

The first traffic lane cleaner ever developed in the carpet cleaning industry and still a market leader worldwide. Designed for heavily soiled carpet areas such as entrance ways and traffic areas.

pH @ use:	11.0 – 12.0
Coverage:	Up to 625 sq. mtrs. per 4L
Dilution:	360 ml to 4L
Appearance:	Clear green liquid
Fragrance:	Solvent
Code:	Single 3.78L: TLC1G Case of 4: TLC4G

Deodorisation

Absorb A Stain

Use on spills, accidents and pet problems

Absorbs up to 75% its own weight in spilled liquids, whilst deodorising odours. Use on spills as a poultice, accidents and pet problems. Dries to a vacuumable powder. Excellent for 'bleeders' or wick back problems. With added odour control.

Dilution:	Ready to use
Appearance:	White powder
Fragrance:	Floral
Code:	Single 5.4kg: AAS12 Case of 4: AAS48

**Air Neutralizer Citrus/Spice**

A water based space and carpet deodoriser and additive

A space deodoriser for effective removal of many odours including fire, smoke, stale and fuel oil odours. Use to fog air ducts, added as a booster to alkaline detergents such as Formula 90 Powder. Add to wall cleaning products or water based paints following snot damage for extra deodorisation.

pH @ use:	6.0 – 7.0
Coverage:	Up to 30 cubic mtrs. per 4 L (fogging). For other uses see label
Dilution:	Various see label
Appearance:	Clear amber liquid
Fragrance:	Citrus or Spice odour
Code:	Citrus Single 3.78L: UKAC15 Citrus Case of 4: UKAC45 Spice Single 3.78L: U0141191G Spice Case of 4: U0141194G

**Formula 429**

A safe and strong antimicrobial deodoriser

Deodorises carpets and fabrics when odour is caused by bacteria build up. Kills many bacteria, viruses and yeasts up to a log kill of 6- see Infection Control section for more details. EN approved for use as a disinfectant. EN1276, EN13704, EN1650, EN13696. Can be used as a foam.

Winner of the NEC New Product Innovation Award for 2011.

pH @ use:	Neutral
Coverage:	Variable depending on surface
Dilution:	Ready to use
Appearance:	Clear liquid
Fragrance:	Odourless
Code:	Single 5L: F42915 Case of 4: F42945

**Formula 429 PLUS**

A super concentrated fragranced safe antimicrobial

Can be used for Spraying, effective general sanitisation, infection control, mould deodorisation etc. Can be foamed (Foamer 6055) onto surfaces for extra dwell time treatments.

pH @ use:	Neutral
Coverage:	Variable depending on porosity of surface
Dilution:	Concentrate (1 to 4, 1 to 9 or 49 to 1 depending on use)
Appearance:	Clear liquid
Fragrance:	Forest fresh
Code:	Single 5L: F429P15 Case of 4: F429P45

**Kill Odor Citrus**

A broad spectrum non-anionic deodoriser

Excellent all purpose deodoriser designed for pre-spraying as a contact deodoriser to kill odours or adding to your rinse tank. Use on mould, mildew, spore and fungi as well as vomit, smoke, perspiration, rancid foods, oils and many more problem odours.

pH @ use:	6.0 – 7.0
Coverage:	Up to 400 sq. mtrs. per 4L
Dilution:	960ml to 4L water
Appearance:	Clear liquid
Fragrance:	Citrus
Code:	Single 5L: UKKC15 Case of 4: UKKC45

**Kill Odor Plus**

Deodoriser and traffic lane cleaner in one

Traffic lane cleaner with built in deodoriser. Ideal for those who have little space to store their cleaning solutions, this economical product will do both jobs in one. Highly effective against urine odour build up in nursing home environments.

pH @ use:	6.5 – 7.5
Coverage:	Up to 550 sq. mtrs. per 4L
Dilution:	360ml – 960ml to 4L water
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 5L: UKKP15 Case of 4: UKKP45

**Urine Contamination Treatment**

A specifically designed chemistry to eliminate severe urine odours on carpet or hard surfaces

An anionic aldehyde solvent system. Deodoriser, developed specifically for the neutralisation and deodorising of urine contaminated carpet, upholstery and hard surfaces (tiles and grouted area etc). Can be applied by sprayer, injection or mopping methods.

pH @ use:	6.5 – 7.5
Coverage:	Spot coverage
Dilution:	Ready to use or dilute 2 to 1 with water for tiled or hard surfaces for maintenance purposes
Appearance:	Clear light yellow liquid
Fragrance:	Floral
Code:	Single 1L: UKURCT1L Case of 12: UKURCT12

For deodorising after fires and floods see Fire and Flood Product Sheet

Deodorising Hints and Tips

- Effective deodorisation is achieved by removing the source of the odour.
- Fire odours need specific treatments see Fire sheet.
- Deodoriser will need to come into contact with all of the odour source.
- Four main sources of odour are urine, bacteria, food and general odours.
- Treat each source with the specific treatment i.e.
Urine – Urine Contamination Treatment
Bacteria – Formula 429 Antimicrobial
Food/bio sources – Enzymes such as Enzall or Prekleen Enzyme Soil Lifter
General – Kill Odour or Kill Odour Plus.

Speciality Carpet Maintenance

Anti Static Spray with Soil Retardant

Special combination of colloidal metallic particles and conductive ingredients combine to disperse electrical charge build-up

Eliminates static electricity caused by electrical charge build-up in carpet. Dries quickly. Will dissipate static electricity with one application which can last through the cool weather when static electricity is most likely to occur.

pH@use:	4.2 – 4.7
Coverage:	600 sq. mtrs. per 4L
Dilution:	Mix 1 gallon with 2 gallons of water
Appearance:	Opaque white liquid
Fragrance:	Slight Alcohol
Code:	Single 3.78L: CO200S Case of 4: CO200C

Browning Treatment/ Coffee Stain Remover

Effective removal of coffee, tannin and dye stains

An effective remover of coffee, tannin and dye stains. Works on new and old stubborn stains. Can be accelerated by the heat transfer method.

pH@use:	4.0 - 5.0
Coverage:	Up to 100 sq. mtrs. per 4L
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Sulphite
Code:	Single 3.78L: BT1G Case of 4: BT4G

Energizer Booster

Enhances colours and boosts cleaning power of your detergent

Add to any alkaline detergent to boost cleaning power. Chemically alters soil and oil by adding oxygen. Can be used on carpets and fabrics.

pH @ use:	10.0 – 11.0
Coverage:	Varies
Dilution:	1 tbsp. to 20L water
Appearance:	White powder
Fragrance:	Odourless
Code:	Single 3.6kg: UKEN8L Case of 4: UKEN32

Fire Retardant PSB

Makes suitable materials flame retardant

Flame Retardant spray resists dry-cleaning. Lessens oxidation and creates a thin layer of char which stops flame spread, further combustion and actually extinguishes the fire. The product is tested to BS Accreditation standards. Ask for details.

pH @ use:	5.5 – 6.5
Coverage:	Approximately 10m sq. per 1L
Dilution:	Ready to use
Code:	Single 5L: FRPSBS * Case of 4: FRPSB * (*Available Special Order only)

Liquid Defoamer Concentrate

This extra concentrated defoamer clings to metals for maximum defoaming capability

For portable or truckmount waste tanks, can be sprayed into wand and pick-up hose to prevent foaming. Laboratory tested to be superior to other defoamers on the market.

pH @ use:	7.0 – 8.0
Coverage:	Up to 1000L of recovery
Dilution:	Ready to use
Appearance:	Thick, opaque white liquid
Fragrance:	Mild
Code:	Single 5L: UKLD15 Case of 4: UKLD45

RX for Fringe

Specialist product for the oriental rug cleaning professional

Formulated especially for the delicate lightening of rug fringes. For best results rinse out thoroughly with Haitian Cotton Cleaner, to avoid over whitening or damage to fibres.

pH@use:	3.5 – 4.5
Coverage:	Up to 20 sq. mtrs. per 4L
Dilution:	Ready to Use
Appearance:	White powder
Fragrance:	Low
Code:	Single 1.13kg: RXFREA Case of 4: RXFRCS

Super Concentrated Liquid Defoamer

Eliminates foam build up in the recovery tanks of portable or truckmount extraction machines as well as rotary extraction

This extra concentrated defoamer clings to metals for maximum defoaming capability. 30 ml defoams up to 20L of ready to use shampoo. Each case comes equipped with a trigger sprayer for easier use.

pH @ use:	7.0 – 8.0
Coverage:	Up to 6000L of recovery
Dilution:	Ready to use
Appearance:	Thick, opaque white liquid
Fragrance:	Mild odour
Code:	Single 473ml: UKDEFOPT Case of 12: UKDEFocs

Speciality Hints and Tips

- Pre-test all products in an inconspicuous area before use and check for any changes carefully.
- Use the correct chemistry to suit the fibres you are treating.
- Always rinse out one product before using another one unless advised to leave in on the label or by the manufacturer.
- Identify the fibre, construction and type of soil before choosing the product you need.
- If needed don't hesitate to ask for advice from our specialist team, they are always happy to help.

Bonnet Cleaners

Roto Brite 11

A bonnet detergent maintainer encapsulator and booster

New carpet maintenance technology incorporating state of the art encapsulation properties along with an oxygenating booster. Roto Brite 11 is non-surfactant based an ideal product for use in Low Moisture cleaning applications such as spray bonnet and cylindrical brush applications where routine carpet maintenance is performed and residues are critical.

pH @ use:	6.5
Coverage:	Variable depending on severity of soil
Dilution:	360ml to 3.78L (10 to 1)
Appearance:	Clear colourless liquid
Fragrance:	Low odour
Code:	Single 3.78L: NNRB21G Case of 4: NNRB24G

Soil Retardant Roto-Brite

All fibre safe bonnet cleaning detergent with Stainshield

Gentle but effective bonnet cleaning detergent with added fibre protection from "Stainshield". Safe on all fibres, improves commercial maintenance by building up protection on fibres with regular use.

pH @ use:	8.5 - 9.5
Coverage:	Up to 1,200 sq. mtrs. per 4L
Dilution:	100ml to 4L water
Appearance:	Light yellow liquid
Fragrance:	Floral
Code:	Single 5L: UKSR15 Case of 4: UKSR45

Carpet & Upholstery Protectors

All Fabric Stainshield

A solvent based fluorochemical fabric protector

A fluorochemical co-polymer providing advanced protection from soil, water and oil based soiling to virtually all fabric types. Apply to carpets or upholstery that are not sensitive to solvents. Always use a mask when spraying.

Coverage:	Variable see label
Dilution:	Ready to Use
Appearance:	Clear Liquid
Fragrance:	Mild
Code:	Single 3.78L: AFSS1G Case of 4: AFSS4G

Concentrated Stainshield

Concentrated Stainshield carpet & upholstery Protector

A water based fluorochemical stain and soil protector, safe for all wet cleanable fabrics and textiles. Protects against oil, water and dry dirt contamination.

pH @ use:	4.5 - 5.5
Coverage:	Variable to use and application
Dilution:	Carpet - 4 to 1 with water Upholstery - 2 to 1 with water
Appearance:	Opaque off white liquid
Fragrance:	Sweet
Code:	Single 5L: UKSC15 Case of 4: UKSC45

Stainshield Professional with C6

A water based fluorochemical carpet and upholstery protector

New Stainshield Professional with C6 is a unique and highly advanced form of protective finish. C6 employs a safer unique short chain technology. Stainshield Professional with C6 maintains our usual PFOS free standards with an advanced Stainshield performance that professionals have come to know and trust. Carpets and upholstery now look newer and stay cleaner for longer. Training in all aspects of protector application and sales is available by request.

pH @ use:	6.5 - 7.5
Coverage:	Up to 100 sq. mtrs. per 4 L of ready to use solution
Dilution:	Carpets - 4 to 1 Upholstery - 2 to 1
Appearance:	Opaque light liquid
Fragrance:	Characteristic of a polymer
Code:	Single 5L: UKSSPR15 Case of 4: UKSSPR45

Hints and Tips

- Carpet Protector works best on damp carpet, use All Fibre Textile Rinse at 20 to 1 dilution to acidify carpet and dampen fibres to improve curing and safeguard the protector.
- Use jet 8004 for applying Protector to carpets and 8001 is ideal for upholstery.
- Use a dedicated sprayer to avoid contamination. Coverage of 5L of ready to use solution over 25 square metres is based on an average Axminster weight (40oz), for low profile carpets double this and heavy weights half this coverage. Full manual and training available.

Dye Removal

Browning Treatment/Coffee Stain Remover

Effective removal of coffee, tannin and dye stains

Works on new and old stubborn stains. Can be accelerated by the heat transfer method. For very stubborn stains, treatment by Professional Spot Lifter /Enzall/ Prekleen Enzyme Soil Lifter first will help remove the stain more effectively.

pH @ use:	4.0 – 5.0
Coverage:	Up to 100 sq. mtrs. per 4L
Dilution:	Ready to Use
Appearance:	Clear Liquid
Fragrance:	Sulphite
Code:	Single 3.78L: BT1G Case of 4: BT4G

Dye Gone Sprayer

A very effective oxidizing dye removal spotter.

Identical chemistry to the original Helpmate Coffee Stain Remover, but in a handy applicator bottle. This unique 2 part kit designed to remove stains from the toughest coffee spills to organic spills including; orange squash, cola and dye stains including hair dyes or coloured dyes from other cleaning substances such as toilet cleaners etc. Simply rinse after use with clean cold water to neutralise and rinse away.

pH @ use:	9.5 – 10.5
Dilution:	Dilutes in the bottle as you spray
Appearance:	Clear Liquid
Code:	Single Sprayer Kit: DGPDS Case of 6 Sprayer Kits: DGPDS Case of 6 x 660ml refills: DGCS Single 660ml refill: DGEA

Spray'N Go

An economical powder dye remover, ideal for all fibre types

Reducing agent for removing coffee, tea or dye stains. Can be accelerated using the heat transfer method. Just spray, allow to dry and blot away, with cold water. An application of Professional Spot Lifter or similar detergent before can help on stubborn stains by introducing a wetting agent.

pH @ use:	1% solution 4.5 – 5.5
Dilution:	1 scoop to 1 litre of warm water (variable)
Appearance:	White powder with yellow flakes
Fragrance:	Sulphite
Code:	Single 900gm: UKSPNGEA Case of 6: UKSPNGCS

Tannin Spotter

Neutralises alkaline spots and brown tannin stains

For use as an alkaline neutraliser. Use to help reverse some browning problems. May be used as an accelerator with some Chemspec products, see individual labels. Ideal for dealing with indicator dye problems.

pH @ use:	2.5 – 3.0
Coverage:	Variable
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Vinegar
Code:	Single 473ml: TS16S Case of 6: TS16CS

Dye Repair

Colour Repair Dye Kit

Professional carpet re-dyeing kit with manual

Comes in handy carrying case containing all you need to spot dye carpets includes more than 40 level acid dyes, manual, colour wheel, kettle, dye baths, pipets, sponge, dye prep, Nylonax, Woolnax and much more. Colour of kit varies depending on availability.

Code:	CFDKT* *Optional full training course is charged at cost if required
-------	---

General Stain Removal

Absorb A Stain

Use on spills, accidents and pet problems

Absorbs up to 75% of its own weight in water, whilst deodorising and soaking up odours. Use on spills, accidents and pet problems. Non-soluble, dries to a easily vacuumed powder. Excellent for 'bleeders' or wick back problems. Used as an absorbent poultice for advance spot removal.

Coverage:	Variable depending on spill type
Dilution:	Ready to use
Appearance:	White powder
Fragrance:	Floral
Code:	Single 5.4kg: AAS12 Case of 4: AAS48

Professional Spot Lifter

A multifibre and multi use water based spotter

A water based spot remover effective on oil and water based stains such as blood, soft drinks, light grease, oil, tar, coffee, tea, floor finishes, copier toner, spills, dirt, grime and more. Formulated after 26 years of research and development.

pH @ use:	8.5 – 9.5
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Citrus
Code:	Single 1L: UKPRSLT Case of 12: UKPRSL12 Single 473ml: PSLS Case of 6: PSLCS

Professional Spotting Kit

(See also sheet S14 for more information and large product shot)

Complete Professional kit in easy to carry and safe cooler bag

Contains Liqua Gel, Dye Gone, Professional Spot Lifter, POG, Tannin Spotter, Protein Spotter, Pet Odour and Stain Remover, Rust Remover, Dry Fabric Cleaner, Liquid Enzyme Spotter, spotting guide, pH papers, gloves, spotting brush, spotting spatula and cotton bud. Carry your Chemspec professional spotters in the handy professional spotting bag* Professional Spotting bag comes FREE with every order of the 8 mixed x 473ml spotting products, 1 x Liqua gel and 1 x Dye Gone. *Or buy the whole kit complete with full spotting accessories.

Code:	Single Kit: PSKEA5 Bag: SPOTBAG
-------	------------------------------------

Gum Removal

Aerosol Gum Remover

Freeze spray for chewing gum

Developed by Chemspec, the first company to manufacture a freeze spray for chewing gum in the carpet and upholstery industry worldwide. This freeze spray removes chewing gum, blue tack etc. quickly and easily. Just freeze the gum and chip safely away from the fibres. Residues can be rinsed with Dry Fabric Cleaner.

Dilution:	Ready to use
Appearance:	Liquified Gas (Ozone Friendly)
Fragrance:	Mild Ether
Code:	Single 226ml: CGRMEA Case of 12: CGRMCS

Liqua Gel

Natural solvent gel spotter

Spotter sits on the surface of stain to avoid causing damage to backings when properly used. Removes tar, grease, ink, gum, glues, oils, adhesives and other oil based spots from fabrics and hard surfaces. Remove solids before applying gel with a Chemspec Spotting Spatula.

Dilution:	Ready to use
Appearance:	Milky white gel
Fragrance:	Citrus
Code:	Single 473 ml: UKLIGEEA Case of 12: UKLIGEC5

P.O.G. (Paint, Oil and Grease Remover)

Removes paint, oil, grease and tar

Safely removes residues of gum after using Aerosol Gum Remover also use for paint, oil, grease, tar, shoe polish, ballpoint pen, marking ink, nail polish, oxidised oil and more. Emulsifiable solvent system – can be used diluted 4 to 1 with water. Rinse out after use with a quality alkaline detergent (e.g. Formula 90) or a volatile solvent (e.g. Dry Fabric Cleaner).

Dilution:	Ready to use
Appearance:	Clear yellow liquid
Fragrance:	Banana
Code:	Single 1L: UKPOGR1Q Case of 12: UKPOGR12 Single 473ml: POG16S Case of 6: POG16CS

Spotting Hints and Tips

- Always work towards the centre of a spot.
- Blot don't rub – use tamping methods whenever you can with a spotting brush over absorbent cloth.
- Don't mix products together unless advised to do so by the manufacturer.
- Make sure you have good lighting.
- Rinse out every product carefully; water based products with water and non volatile solvents such as POG rinse with an evaporating solvent such as Dry Fabric Cleaner or a good hot extraction detergent such as Formula 90.
- Check stains and residues with pH papers to help identification and leave carpets neutral following removal.

Oily Spot and Stain Removers

Dry Fabric Cleaner

Removes oily soils and stains from fine upholstery fabrics and carpets

A specially formulated dry cleaner for traditional hand upholstery cleaning and spotting techniques. Always use solvents with care, using good ventilation and the appropriate PPE.

Coverage:	Variable
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Low Solvent
Code:	Single 473ml: DFC16S Case of 6: DFC16CS

Also available in 3.78L size – See upholstery sheet

Heavy Duty Soil Lifter

A multi use product for severe oily soils including soot residues

Pre spray/traffic lane cleaner concentrate/detergent additive designed for upholstery, draperies and carpet to remove greasy stubborn soil. Use as a spotter for inks, floor finish, shoe polish, light grease, oil, tar and other stubborn spots. Can be used undiluted as a pre-spray or spotter on water sensitive fabrics. Makes up to 42 litres of ready to use detergent. Very effective on draught marks in carpets.

pH@use:	7.5 – 8.5
Dilution:	Various see label or ask for product sheet
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 3.78L: HD5L1G Case of 4: HD5L4G

Liqua Gel

Natural solvent gel spotter

Spotter sits on the surface of stain to avoid causing damage to backings when properly used. Removes tar, grease, ink, gum, glues, oils, adhesives and other oil based spots from fabrics and hard surfaces. Remove solids before applying gel with a Chemspec Spotting Spatula.

Dilution:	Ready to use
Appearance:	Milky white gel
Fragrance:	Citrus
Code:	Single 743 ml: UKLIGEEA Case of 12: UKLIGEC5

P.O.G. (Paint, Oil and Grease Remover)

Removes paint, oil, grease, tar

Safely removes paint, oil, grease, tar, shoe polish, ballpoint pen, marking ink, nail polish, oxidised oil and more. Emulsifiable solvent system – can be used diluted 4 to 1 with water. Rinse out after use with a quality alkaline detergent (e.g. Formula 90) or a volatile solvent (e.g. Dry Fabric Cleaner).

Dilution:	Ready to use
Appearance:	Clear yellow liquid
Fragrance:	Banana
Code:	Single 1L: UKPOGR1Q Case of 12: UKPOGR12 Single 473ml: POG16S Case of 6: POG16CS

Protein Spot Removers

Enz-all Boosted Enzyme Pre Spray

One of the most powerful enzymes in the industry

One of the most powerful enzymes in the industry, formulated to deal with the toughest protein, oily or heavy duty ground in soil. Can be used as a traffic lane cleaner/pre spray, or a very effective spotter on severe food soils, blood, faeces etc.

pH @ use:	11.5 – 12.5
Coverage:	Up to 200 sq. mtrs. per 42g
Dilution:	1 scoop to 4L hot water. T/M 10 scoops to 4L water
Appearance:	Off-white powder
Fragrance:	Floral
Code:	Single 2.72kg: UKENZA6 Case of 4: UKENZA24

Liquid Enzyme Spotter

A handy ready to use protein spotter

Liquid Enzyme Spotter is ideal for spills such as milk, egg and blood stains etc. Available as a stand alone spotter or as part of the Chemspec Professional Spotting Kit. For more details of uses see the free laminated Chemspec Spotting Guide.

pH @ use:	5.0 – 6.0
Coverage:	Variable
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Fresh
Code:	Single 473ml: LENZY16S Case of 6: LENZY16CS

Pet Odour and Stain Remover

Deal with all your pet stains and odour problems

A very safe and effective deodoriser and pet stain remover, designed for carpets, upholstery and drapery areas, deals with urine and stale odours and greasy marks from fur, paws etc.

pH @ use:	6.2 – 7.2
Coverage:	Variable
Dilution:	Ready to Use
Appearance:	Clear Liquid
Fragrance:	Clean/Fresh
Code:	Single 473ml: PET16S Case of 6: PET16CS

Protein Spotter

A high alkaline spotter for severe acid and protein spots

A strong ready to use alkaline spotter to deal with severe water based protein stains. Food, faeces, blood, milk etc. Use to reverse acid related problems. Can help on 'pink' spots on carpets. Used for neutralising / rinsing Rust Remover following rust removal.

pH @ use:	12.0 – 13.0
Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Pungent
Code:	Single 473ml: PS16S Case of 6: PS16CS

Rust Removal

Rust Remover

Effectively removes rust stains from textile and acoustic tile surfaces

Use to remove rust marks and brown stains following blood removal which is often iron related.

pH @ use:	4.5 – 5.5
Coverage:	Variable
Dilution:	Ready to Use
Appearance:	Clear Liquid
Fragrance:	Low
Code:	Single 1L: UKRURE1Q Case of 12: UKROA12 Single 473ml: RURE16S Case of 6: RURE16CS

Protein Spot Guide

- The removal of food/protein based spots such as coffee, gravy, blood, faeces etc. needs a variety of techniques to solve easily.
- Powdered Enzymes such as Enzall and Prekleen which are excellent for these spots need premixing with hand hot water approx. 60°. For most stains apply this straight onto the stain except for blood.
- Blood stains need the enzyme to be mixed hot, cooled and then applied. The remaining brown mark will be probably iron and can be removed with Rust Remover.
- General food stains such as coffee, tea, juice etc. after treating with the enzyme may need a second treatment with dye remover such as Spray n Go or Dye Gone. These are rinsed with a clean cold water rinse.

Professional Spotting Kit

Professional Spotting Kit

Complete Professional kit in easy to carry and safe cooler bag

Simple fibre identification guide – Burn Test

Wool/Silk – Burning hair

Nylon – Celery

Polypropylene/Olefin – Tar or Asphalt

Polyester – Sweet and fruity

Cotton/ Rayon/Jute/Sisal – Burning paper

Acrylic – Burned meat. Full detailed chart available by request.

Simple Stain Guide – Detailed A – Z guide available by request. Wear gloves and other recommended safety coverings if required on the safety data sheets when using spot and stain removers.

Water Based Spots (food, drinks, spills etc.) – Check pH and use the opposite to remove i.e. alkaline spots need an acid spotter and acid spots need an alkaline. If a protein then enzymes work best using the most neutral on wool/natural fibres such as Prekleen Enzyme Soil Lifter or Liquid Enzyme Spotter.

Oil Based Spots (tar, make-up, grease, etc.) – Use a solvent spotter. Apply to a cloth rather than pour or spray on. This avoids air borne solvents that can be inhaled and avoids damage to the carpet adhesives. Always use in a well ventilated area and avoid using whilst other living things are in the room such as pets or people. If using Non Volatile Solvents that are blended to be more effective such as P.O.G. always rinse out either with a hot alkaline detergent or an evaporating solvent such as Dry Fabric Cleaner.

Dye Stains (wine, tea, coffee, hair dyes, coloured candle marks etc.) – Use the water based spotter first and if the dye remains apply either Spray n Go, Dye Gone or Tannin Spotter to the remaining mark. These can be boosted with heat if required with a hair dryer or iron over an absorbent white towel. Use a final cold water rinse once the stain has gone.

Contains Liqua Gel, Dye Gone, Professional Spot Lifter, P.O.G., Tannin Spotter, Protein Spotter, Pet Odour and Stain Remover, Rust Remover, Dry Fabric Cleaner, Liquid Enzyme Spotter, Spotting Guide, pH Papers, Gloves, Spotting Brush, Spotting Spatula and Cotton Bud. Carry your Chemspec professional spotters in the handy professional spotting bag* Professional Spotting bag comes FREE with every order of the 8 mixed x 473ml spotting products, 1 x Liqua gel and 1 x Dye Gone.
*Or buy the whole kit complete with full spotting accessories

Code: Single Kit: PSKEA5
Bag: SPOTBAG

Detergents and Shampoos

Colorfast Extraction Upholstery Cleaner

Specifically designed for synthetics and naturals that bleed or have colourfast problems

A fast drying upholstery detergent that is more effective than dry cleaning and safer than alkaline cleaners. Contains fast drying solvents to speed up the drying times.

pH @ use:	3.0 – 4.0
Coverage:	Variable depending on soil levels
Dilution:	960ml to 6L water
Appearance:	Clear Golden Yellow Liquid
Fragrance:	Mild
Code:	Single 3.78L: CEUC1G Case of 4: CEUC4G

DFC 105 Carpet Cleaner/Rinse

DFC Technology cleans without using synthetic chemistry

The unique formulation of DFC 105 combines with carpet soils and surfactant residues to make them free rinsing, thus leaving the carpet residue free and squeaky clean. DFC 105 may be used as a pre-spray or as a carpet rinse.

Winner of the NEC New Product Innovation Award for 2011.

pH @ use:	7.5 – 8.5 (Neutral when Dry)
Coverage:	20 sq. mtrs. per ready to use 4 Litres
Dilution:	Pre spray: 180ml to 4L warm water (20 to 1)
Extraction:	30ml to 4L warm water (128 to 1)
Appearance:	Clear Liquid
Fragrance:	None
Code:	Single 3.78L: DFC1051G Case of 4: DFC1054G

Dry Cleaning Concentrate

Add as a detergent cleaning booster for Dry Fabric Cleaner or any O.M.S. solvents

Safe to use on all dry cleanable fabrics when properly tested. Will not cause wrinkles, shrinkage or water stains. No chlorinated solvents. Use with hand cleaning methods or solvent approved extractors.

Dilution:	120 ml to 4L Dry Cleaning Solvent
Appearance:	Clear Liquid
Fragrance:	Orange solvent
Code:	Single 5L: UKDC15 Case of 4: UKDC45

Dry Fabric Cleaner

Comes ready to use for hand cleaning with a solvent approved upholstery extractor

Does not contain environmentally hazardous chlorinated solvents. Very versatile product which can be used as a dry cleaner for upholstery and as a spotter for oily greasy stains. Can be boosted with Dry Cleaning Concentrate and can be used to rinse out blended solvents such as P.O.G. Does not have a typical dry cleaning fluid odour.

Dilution:	Ready to use
Appearance:	Clear Liquid
Fragrance:	Mild solvent
Code:	Single 3.78L: DFC1G Case of 4: DFC4G Single 473ml: DFC16S Case of 6: DFC16CS

For Dry Solvent equipment only

Fast Drying Upholstery Shampoo

Upholstery Shampoo for deep cleaning without an extraction machine

High foaming anionic upholstery shampoo for use by the hand method or use in a foam generating machine. Formulated with special quick drying agents to decrease drying time. Leaves a wonderful clean fresh odour after use.

pH @ use:	7.0 – 8.0
Dilution:	360 ml to 4L (Hand method) 480 ml to 4L (Dry Foam equipment)
Appearance:	Clear Yellow Liquid
Fragrance:	Alcohol
Code:	Single 3.78L: FDUS1G Case of 4: FDUS4G

Leather Cleaner & Conditioner

Helps replace natural oils leather loses with age and prolongs the leather's natural beauty

Keeps leather clean, soft and supple without any oily residue. Safe on most finished leather and vinyl surfaces.

pH @ use:	8.0 – 9.0
Coverage:	1L cleans a sofa and 2 chairs
Dilution:	Ready to use
Appearance:	White cream
Fragrance:	Floral
Code:	Single 1L: UKLECL1Q Case of 12: UKLECL12

One Clean Green Carpet and Upholstery Cleaner

A WoolSafe approved product made with bio-renewable, botanically derived ingredients

One Clean Green Carpet and Upholstery Cleaner is highly concentrated and has the power to take on the toughest cleaning challenges while remaining the safer alternative to traditional cleaners.

pH @ use:	4.5 – 5.5
Coverage:	Variable
Dilution:	Variable
Appearance:	Clear Yellow Liquid
Fragrance:	Mild Liquid
Code:	Single 3.78L: OCG1G Case of 4: OCG4G

Powdered Haitian Cotton Upholstery Cleaner

An Anti Browning Upholstery Extraction Cleaning Detergent

Non-ionic low foaming detergent for cleaning natural fibre fabrics with your extraction machine (see Fast Drying Upholstery Shampoo for hand method). Designed to prevent cellulosic browning. Jar makes up to 100 L of ready to use detergent.

pH @ use:	5.5 – 6.5
Dilution:	113gms to 4L (3 level scoops)
Appearance:	White powder
Fragrance:	Floral and sulphuric
Code:	Single 2.5kg: UKPH6L Case of 4: UKPH24

Deodorisers

Air Neutralizer Citrus/Spice

Use as a pre-spray or additive for deodorising

A water based deodoriser for effective removal of many odours, especially effective against fuel oil odours. Can be used to fog air ducts, added as a booster to alkaline detergents such as DFC 105, if dealing with severe odour areas on upholstery.

pH @ use:	6.0 – 7.0
Coverage:	Up to 30 cubic mtrs. per 4L (fogging). Other uses see label
Dilution:	Various see label
Appearance:	Clear amber liquid
Fragrance:	Citrus or Spice odour
Code:	Spice – Single 3.78L: U0141191G Case of 4: U0141194G Citrus – Single 3.78L: UKAC15 Citrus Case of 4: UKAC45

**Kill Odor Citrus**

A broad spectrum non-ionic deodoriser

Excellent all purpose deodoriser designed for pre-spraying as a contact deodoriser to kill odours. Use on mould, mildew, spore and fungi as well as vomit, smoke, perspiration, rancid foods, oils and many more problem odours. Safe to use on all wet cleanable fibre types, can be safely added to your rinsing tank without causing sticky residues or affecting the performance of your carpet detergent.

pH @ use:	6.0 – 7.0
Coverage:	Up to 400 sq. mtrs. per 4L
Dilution:	960ml to 4L water
Appearance:	Clear liquid
Fragrance:	Citrus
Code:	Single 5L: UKKC15 Case of 4: UKKC45

**Smoke-Solv**

Dry Clean Deodorising Pre Spray

Pleasant spice odour deodoriser for wet cleanable fabrics. For use in thermal foggers or with solvents i.e. Dry Fabric Cleaner. Contains no water creating a finer mist than water based products. Excellent for use where diesel or paraffin have been spilled. Apply using a thermal fogger, trigger spray or manually.

Coverage:	Up to 30 cubic mtrs. per 4 litres
Dilution:	Ready to use
Appearance:	Clear light yellow liquid
Fragrance:	Spicy floral
Code:	Single 3.78L: SS1G Case of 4: SS4G

Upholstery Hints and Tips

- Keep temperature down as the heat can act as a booster and increases penetration into the fibres.
- Use the right pre-spray to avoid over wetting problems i.e. solvent types for oily and/or greasy soil (Heavy Duty Soil Lifter, Enzymes for food spills or Organic soiling (Prekleen E.S.L.)).
- Detergents, recommended for upholstery are developed to avoid too much absorption into the padding.
- Take care if fibres are old or faded they often respond differently to newer fabrics in good condition.

Topical Treatments and Pre-sprays

All Fabric Stainshield

A solvent based fluorochemical fabric protector

A highly effective solvent based fabric protector with fluorochemical co-polymer providing advanced protection from soil, water and oil based soiling to virtually all fabric types. Always use a correct vapour mask when spraying solvents of any kind. Can be applied to dry or wet fabrics, the solvent will in fact speed up the drying times of wet fabrics.

Coverage:	Variable see label
Dilution:	Ready to use Use neat – do not dilute
Appearance:	Clear Liquid
Fragrance:	Mild
Code:	Single 3.78L: AFSS1G Case of 4: AFSS4G

Always use solvents safely

Fire Retardant PSB

A fire retardant designed for synthetic and natural absorbent fibres

Apply to commercial curtains and drapery following the usual cleaning process. The fibres must be dry on application. The product is tested to BS5852, BS5867, BS7176 and BS476. A crucial safety standard for all your commercial upholstery cleaning. Full details available upon request or via our web site.

pH @ use:	5.5 – 6.5
Coverage:	1 litre covers 10 sq. mtrs.
Dilution:	Ready to use Use neat – do not dilute
Code:	Single 5L: FRPSBS * Case of 4: FRPSB * (*Available Special Order only)

**Heavy Duty Soil Lifter**

A multi use product for severe oily soils including soot residues

Pre spray/traffic lane cleaner concentrate/detergent additive designed for upholstery, draperies and carpet to remove greasy stubborn soil. Use as a spotter for inks, floor finish, shoe polish, light grease, oil, tar and other stubborn spots. Can be used undiluted as a pre-spray or spotter on water sensitive fabrics. Makes up to 42 litres of ready to use detergent. Very effective on draught marks in carpets.

pH@use:	7.5 – 8.5
Dilution:	Various see label or ask for product sheet
Appearance:	Clear yellow liquid
Fragrance:	Citrus
Code:	Single 3.78L: HDL1G Case of 4: HDL4G

**Prekleen Enzyme Soil Lifter**

Pre-spray for grease, blood or protein based soils

Highly effective enzymatic carpet pre spray for grease, blood or any protein based soil. Use as an initial pre soak for old urine or coffee wick back stains.

pH @ use:	8.0 – 9.0
Coverage:	Up to 240 sq. mtrs. per 450g
Dilution:	1 – 2 scoops per 4L warm water
Appearance:	Off-white powder
Fragrance:	Citrus
Code:	Single 2.7kg: UKPE6L Case of 4: UKPE24

For Upholstery sprayers and brushes see Accessory sheet

For Upholstery Tool attachments see Cleaning Equipment sheet

For Upholstery Cleaning Manual see corporate sheet 2

Products and Equipment

Absorb A Stain

Use on spills, accidents and pet problems

Absorbs up to 75% of its own weight in water, whilst deodorising and soaking up odours. Use on spills, accidents and pet problems. Non-soluble, dries to an easy to vacuum away powder. Excellent for 'bleeders' or wick back problems. Used as an absorbent poultice for advance spot removal.

Dilution:	Ready to use
Appearance:	White powder
Fragrance:	Floral
Code:	Single 5.4kg: AAS12 Case of 4: AAS48

Air Neutralizer Citrus/Spice

Water based deodoriser

Water based deodoriser for effective removal of many odours, especially effective against protein odours. Can be used to fog air ducts, added as a booster to alkaline detergents such as Liquid Wall Cleaner, Formula 90 Powder if dealing with severe odour areas, sprayed on neat onto fire affected timbers etc. Perfect as pre-deodoriser for smoke affected drapery, before cleaning.

pH@use:	6.0 – 7.0
Coverage:	Up to 30 cubic mtrs. per 4 L (fogging). Other uses see label.
Dilution:	Various – see label
Appearance:	Clear amber liquid
Fragrance:	Citrus odour also available in NEW Spice odour
Code:	Single: Spice 3.78L: U0141191G Case of 4: Spice U0141194G Single Citrus 3.78L: UKAC15 Case of 4: UKAC45

Bad Odor Blocks

Neutralising Odour Blocks

Blocks act as odour magnets, grabbing odours from the air and neutralising them. They come in hermetically sealed packages and start to work when they are opened. Pierce the package for light deodorisation or bring out the whole block for larger deodorisation problems.

Dilution:	Ready to use, do not dilute
Appearance:	Brown coloured fibre blocks
Fragrance:	Cherry, Lemon/Lime, KBG, Leather, (other fragrances available in mixed cases only)
Code:	Cherry – Single: 431257901 Case: (25) 431254901 Lemon/Lime – Single: 431257924 Case: (25) 431254924 KBG – Single: 431257096 Case: (25) 431254906 Leather – Single: 431257917 Case: (25) 431254917 Mixed Case Case: (25) 431000000

Chemical Sponge

Rewashable Professional Restoration Sponge

Restoration rewashable sponge for the removal of dry soot/smoke from walls, ceilings and other surfaces following a fire or smoke damage, for use before Liquid Wall Cleaner or Degreaser PLUS. A highly absorbent blend of natural and synthetic rubber.

Size:	Large – 21cm x 9cm x 5cm Regular – 16cm x 7.5cm x 5cm
Code:	Large – Single: 3049L Case: 3048L Regular – Single: 3049 Case: 3048

Degreaser PLUS

A super concentrated degreaser, cleaner, booster and spotter/neutraliser

Use wherever soiling is severe on painted surfaces, metal, concrete, tiles, sealed or unsealed wood, hard floors and wet cleanable fabrics. Especially formulated for the severest of greasy soils. Suitable for greasy fire residues, severe greasy stains and neutralising strong acidic soils.

pH@use:	12
Coverage:	Depends on the environment
Dilution:	Degreasing – 20ml-60ml to 1L water Cleaner Degreaser – 50ml to 1L, Booster 25ml to 1L Solution.
Appearance:	Green/blue liquid
Fragrance:	Characteristic odour
Code:	Single 5L: DGP15 Case of 4: DGP45

Duraspray (available in two sizes)

An inexpensive professional sprayer for all your topical treatment uses

Use to apply your pre sprays, carpet protectors, deodorisers and other topical treatments to carpets and upholstery. Comes complete with polypropylene carpet lance. Changeable jet sizes also available. Colour may vary.

Code:	Single – 10P (4L) 20P (8L)
-------	-------------------------------

Dry Power

Dry compound for use wherever wet cleaning is not possible on carpets (i.e. Sisal, coir etc.).

Or for soot damaged taxidermy, fine fabrics etc. Simply sprinkle, brush in, allow to dry and vacuum, leaving the carpet, fabric, fur etc. fresh and clean. Several applications may be needed for heavily soiled areas.

pH@use:	6.5 – 7.0
Coverage:	45g per sq. mtrs.
Dilution:	Ready to use
Appearance:	Yellowish granules
Fragrance:	Mountain breeze
Code:	Single: UKDP9K

Evidence Strips

Quat strips show the activity of your antimicrobial

Shows how many parts per million of active antimicrobial you are applying whilst fogging, wiping etc. Shows when rooms are safe for reoccupation after antimicrobial treatments have been used. Very effective when using the Formula 429 antimicrobial family of products. Look for 600 parts per million to ensure good infection standards are met.

Code:	429ES Single
-------	--------------

Fix Soot with Odor Control

Water based sealer, solvent free

A water based polymer, solvent free clear sealer. Guaranteed to form a permanent bond, bonding particulate matter to duct surface. Deodorises properties whilst knocking down airborne particulates. Effectively and permanently seals in smoke odour, stains etc. in roof timber areas or hard to clean surfaces, leaving them safe to paint, can apply using a large brush.

pH@use:	8.0 – 9.0
Coverage:	2 1/2 cubic mtrs. / 80 sq. mtrs. (flat surface) per 5 litre
Dilution:	Ready to use
Appearance:	Clear to hazy amber liquid
Fragrance:	Mild acrylic
Code:	Single 3.78L: FS1G Case of 4: FS4G

Foggers

Thermal Barrel Fogger – A fogger suitable for thermal fogging products

The Thermal Barrel Fogger produces "Dry Fog" similar to smoke itself rather than the wet particles produced by conventional misters and foggers. Remove the barrel and the unit can also be used as an electric sprayer to apply solvent or water based chemicals for deodorising, disinfecting, flame proofing, pest control, fabric protecting etc.

Code: Single: 102257000

Fogger ULV – This stable, versatile, wet fogger, adjustable flow control, valve controls, volume and droplet size

Corrosion proof 6 L tank with wide tank opening for easy filling. High speed motor, 1.2m flexible hose, fingertip output at the nozzle. Proven dependability and quality construction that is easy to use.

Code: Single: 220V 101257000.
Also available in 110V by special order.

Formula 429

A Safe and Strong Antimicrobial

Suitable for white to grey water contaminations. Effective against micro-control of Paeruginosa, E-coli, S.Aureas, Enterococcus hirea, Bacillus subtilis, Aspergillus niger, Salmonella, Legionella pneumophila, swine flu and many more. EN approved for use as a disinfectant. EN1276, EN13704, EN1650, EN13696. Tested and approved for use in the N.H.S. Can also be foamed.

Winner of the NEC New Product Innovation Award for 2011.

pH@use:	Neutral
Coverage:	Variable depending on surface
Dilution:	Ready to use
Appearance:	Clear liquid
Fragrance:	Odourless
Code:	Single 5L: F42915 Case of 4: F42945

Formula 429 PLUS

A Super Concentrated Fragranced Safe Antimicrobial

Effective against a wide variety of sever viruses, bacteria, moulds and yeasts. See label and ask for further specific details. Carries a wide range of EN standards, details available. Can be used for Spraying, effective General Sanitisation. Infection control, mould etc. Can be foamed (Foamer 6055) onto surfaces for extra dwell time treatments.

Winner of the NEC New Product Innovation Award for 2011.

Appearance:	White Liquid
Fragrance:	Alcohol type
Code:	Single 5L: 47719009011 Case of 2: ZN7020001A1

Green Cleaning

Since 2003, with the introduction of our first certified cleaner, Chemspec has been a pioneer in developing and marketing green cleaning chemistries that are based on three important principles. First, they must reduce the impact of the cleaning process on the environment. Second they must reduce the impact to the cleaning professional that uses them on a daily basis. Third, they must provide a work place environment free from harmful residues or chemicals that can affect human health.

Today our second generation bio-based OneClean Green family of products and our paradigm shifting line of surfactant free DFC products continue that tradition in providing performance rated green chemistries that exceeds today's demanding applications.

Our product lineup features significant third party green and performance related certifications. These include Green Seal, US EPA Dfe Program, ECOlogo and the newest GREENGUARD Children and schools certifications for IAQ (Indoor Air Quality) that exceed the requirements for today's Green Building Council LEED requirements.

Whether you are cleaning carpets or hard surfaces, you will find that Chemspec has the green cleaning product that meets your needs.

Certified Green

For over 40 years Chemspec has been focusing on delivering quality products to our customers. As part of that commitment, we continually submit our products to independent 3rd party labs. for testing and accreditations. Our Green products are no exception. GREEN GUARD, Green Seal, WoolSafe and the EPA Dfe program are just some of these organisations we have received recognition and certification from. When you see any of these certifications on a Chemspec product you can be assured that they meet not only our stringent standards but also those of other independent organizations.

Key to Validations

DFC 0.02% S H Cleaner

The DFC cleaning way of sanitising food preparation areas and other surfaces which are usually cleaned with detergent and water

Cleans and oxidizes organic soils. Use for food service areas, restroom hygiene programmes and institutional sanitation situations. Sodium Hypochlorite is currently classed as the NHS Gold Standard.

pH@use: 10.5 – 11.5
Coverage: Variable depending on usage and soiling conditions
Dilution: Use neat
Appearance: Clear Liquid
Fragrance: None
Code: Single 1L: DFC2SH1L
Case of 12: DFC2SH12

DFC 1.4% S H Cleaner Concentrate

A unique and cost effective and versatile way of sanitising food areas, carpets and infection control areas for isolation cleaning

A unique formulation of concentrated stabilised Sodium Hypochlorite. Effectively kills a wide spectrum of viruses and bacteria often found in healthcare environments. The red dosing tap makes this unique stabilised solution at 50 parts per million strength which is safe to sanitise carpet fibres. The green dosing tap makes a uniquely stabilised 200 parts per million solution for kitchen sanitising. A 14 to 1 dose will effectively treat infection/isolation control areas. Sodium Hypochlorite is currently classed as the NHS Gold Standard.

pH @ use: 10.5 in concentrate
Coverage: Variable to use, dose and application
Dilution: Variable see label
Appearance: Clear Colourless Liquid
Fragrance: None
Code: Single 3.78L: DFC1.4CSH1G
Case of 2: DFC1.4CSH2G

DFC Calcium Lime and Rust Remover

A detergent free cleaning way of removing severe soil, glove free, using the unique DFC technology

Use for removing severe calcium, lime and rust deposits on toilets, urinals and fixtures. Apply undiluted for severe soil conditions and allow to dwell on the surface before removal.

pH@use: 3.5 (Neutral when dry)
Coverage: Varies on application

Resilient Floor Products

Floor Finish 25

A 25% solids, durable finish that reduces labour and material costs

Can use low, high and ultra speed buffers. Easy to use long lasting finish. Suitable for sealed and non sealed floors. Apply using usual hard floor applicators.

pH@use:	8.0 – 9.0
Coverage:	250 sq. mtrs. – 300 sq. mtrs. per 4L
Dilution:	Ready to use
Appearance:	Milky white liquid
Fragrance:	Characteristic odour
Code:	Single 5L: UKFF2515 Case of 4: UKFF2545

Floor Sealer

A high quality floor sealer

Apply to seal the surface of hard flooring before applying the Floor Finish of your choice. Self levelling to provide a mirror surface to improve the final polish coating. Seal provides a hygienic coating which protects the floor from penetrating staining and makes cleaning much more effective.

pH@use:	8.0 – 9.0
Dilution:	Ready to use
Appearance:	Milky white liquid
Fragrance:	Characteristic odour
Code:	Single 5L: UKFLS15 Case of 4: UKFLS45

High Power Floor Stripper

High pH ultra effective floor stripper

Removes worn floor finishes quickly and effectively. Use Neutral Cleaner to prepare the floor before applying seal and finish.

pH@use:	12.5 – 13.5
Coverage:	Variable
Dilution:	Ready to use
Appearance:	Clear yellow liquid
Fragrance:	Spice
Code:	Single 3.78L: MHPFS15 Case of 4: UKHPFS45

Neutral Floor Cleaner

Cleans difficult to remove soil from high gloss floors without hazing or damaging Floor Finish

Ideal for use with 175 r.p.m. carpet bonnet/ floor machines, automatic scrubbers or as a mop-on floor cleaner.

pH@use:	6.5 – 7.5
Coverage:	Ready to use (see label)
Dilution:	30 ml to 120 ml to 4L
Appearance:	Clear green liquid
Fragrance:	Characteristic odour
Code:	Single 5L: MNFC15 Case of 4: UKNFC45

Tight Shine

A very low odour very hard wearing co-polymer floor finish

A very low odour durable metal cross – linked co-polymer floor finish. Urethane fortified to ensure a tough non-powdering, non-slip finish. Formulated for fewer coats and quicker dry times than conventional finishes. Dries in 7-10 minutes. Suitable for sealed and non sealed floors applied using usual hard floor applicators. Can be diluted 10 to 1 with water and used as a spray buff maintainer to enhance the finish and prolong it's life.

pH@use:	8.0 – 9.0
Coverage:	Variable
Dilution:	Ready to use
Appearance:	Milky white liquid
Fragrance:	Characteristic odour
Code:	Single 5L: MTSH15 Case of 4: UKTSH45

Hard Floor Hints and Tips

- Always ensure the floor is completely free of any dust or debris before using a rotary machine or floor pad.
- Take care that High Power Floor Stripper is neutralised completely before applying seal or finish, check with a pH paper if not certain.
- When servicing commercial hard floors always leave wet areas lit to avoid accidents.
- Cordon off work areas to avoid accidents and preserve the finish during drying.
- Regular maintenance with Neutral Floor Cleaner or Tight Shine and water mixed 10:1 as a spray buff maintainer, will extend the life of the floor and avoid the disruption and time needed to strip back as often.

Wood Floor Products

Wood Creme Restorer

For use on the finest woods to effectively clean and restore their natural beauty

Replaces natural properties lost over time. Removes dirt, grime and oily build ups. Eliminates deep odours associated with smoke and other mal odours. Effectively removes grime from metal, plastics and resilient tile flooring as well as wood.

Dilution:	Ready to use
Appearance:	Creamy white paste
Fragrance:	Spicy floral odour (Technical)
Code:	Single 3.6kg: UKWCRE8L Case of 4: UKWCRE32

Wood-Solv Edging Tool with Handle

Applicator for Wood-Solv No Sanding Prep to floor edges

Multifunctional edging tool for use with the Wood-Solv system. Comes with oblong red hard floor pad for preparing all edges and those difficult to access with a rotary machine. Use for dry dusting areas using a spotting towel cover, drying wet surfaces and apply No Sanding Prep to room edges. Comes separately or complete with the Wood-Solv for Wood Floors Starter pack.

Code: RXWFMP1

Wood-Solv Fill Stick Assorted

Fill stick for repairing nicks, burns and scratches of less than 3mm wide

Use after No Sanding Prep. and before floor finish for a perfect long lasting repair. Fill sticks are used to repair areas less than 3mm in width. Comes in packs of the 12 most common wood floor colours. Fill sticks can be blended to create an unlimited colour match to most wood floor surfaces. Fill sticks also contain a natural colour stick for repairing very fine surface scratches. Available as packs of one colour if required for large repair tasks, ask for details. Pack includes:- Dark Maple, Colonial Maple, Red Mahogany, Amber Natural, Natural, Fruitwood, Provincial, Cherry, Clear, Heartwood Cherry, Dark Oak and Brown Mahogany.

Code: 12/Pack: RXFSAST

Code: RXWFSKT

Brushes for Carpet and Upholstery

Spotting Kit Brush

General Purpose Spotting Brush

Spotting brush for tamping carpet spotters into the carpet pile through an absorbent white spotting towel to avoid pile distortions caused by rubbing and scrubbing at the pile fibres. Can be used to lightly reset the pile or to move the pile for more in depth spot removal methods.

Code: Single 3207

Utility Brush

General Purpose Upholstery Brush

Designed for brushing pre-sprays and shampoos into delicate upholstery fabrics safely and gently. Use even for the most sensitive fabrics. Also suitable for hand shampooing small rugs and fringes. Natural Bristle.

Code: Single 3012

Velvet Carding Brush

Grooms And Sets Velvet/Draylon Type Pile

Avoid leaving hand tool marks in delicate velvets, draylons or any pile type fabrics using this professional upholstery grooming brush.

Code: Single 3205

Hints and Tips

- When using spotting brushes, avoid scrubbing the pile, use them for tamping the spotters into the fibres over an absorbent white terry towelling cloth.
- When re-setting pile use the brush gently so as not to cause pile distortion.
- When applying carpet and upholstery protectors use a synthetic brush as the fluorochemicals can damage expensive natural bristle brushes. Always use a dedicated brush to avoid contaminating the protector and affecting the curing.

General Professional Accessories

Evidence Strips

Quat strips show the activity of your antimicrobial

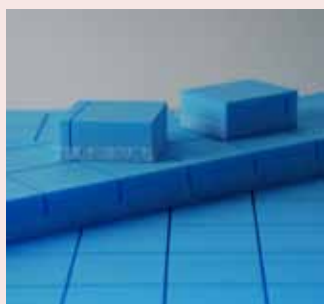

Shows how many parts per million of active antimicrobial you are applying whilst fogging, wiping etc. Shows when rooms are safe for reoccupation after antimicrobial treatments have been used. Very effective when using the Formula 429 antimicrobial family of products.

Code: 429ES Single

Furniture Tabs (Pack of 10,000)

Plastic 75mm x 75mm furniture tabs

Essential for any professional carpet cleaner, use under water sensitive furniture i.e. wooden legs, metal legs when carpets/rugs are damp to avoid permanent staining, following carpet detergents, shampoos and the application of carpet protectors.

Code: 3211

Foggers – see cleaning equipment sheet

Measuring Beaker

A handy measuring beaker for diluting your highly concentrated Chemspec detergents etc.

Use for measuring out your highly concentrated Chemspec liquid detergents for accurate cost effective dilutions. Measurements start at just 10ml, for our most highly concentrated solutions such as Liquid Formula 90 extraction detergent which has a dilution up to 980 to 1.

Code: BEAKER

pH Papers

Easily and economically test pH levels

pH papers are used as part of your pre-testing and post testing processes, to check that you and any that cleaned before you are rinsing out your products properly and leaving the carpet at the correct pH levels. Testing pH can also give you an indication of the correct pH to use to remove the soil types for professional spot removal and give an indication if there are existing chemicals still in the carpet before you begin.

Code: Single 3015

Shampoo Foamer/Sprayer

Creates foam and controls wetness for use with high foaming type shampoos

Use with foaming type carpet and upholstery shampoos such as Fast Drying Upholstery Shampoo. Especially designed to create a thick foam which can be applied with a cloth or Tampico Utility Upholstery Brush without the need for hand mixing or use of expensive equipment.

Code: Single 6055

Spare Parts – see Cleaning Equipment sheet

Spotting Spatula with Chemspec Logo

Spotting Spatula for all built up stains and spills handy size designed to attach to your key ring or belt

A handy round ended robust stainless steel spotting spatula. This professional spotting spatula is designed to be safe on even the most delicate carpet pile fibres for removing excessive solids from the pile before applying your spotting or cleaning product. Can be used to separate the pile material or to pierce chewing gum before the application of either the Liqua Gel or the Aerosol Gum Remover.

Code: Single 3013RS

Code: AC46

Sprayers and Foggers

Duraspray – Plastic Sprayer (available in two sizes)

An inexpensive professional sprayer for all your topical treatment uses

A professional pump up pressure spray to apply your pre sprays, carpet protectors, deodorisers and other topical treatments to carpets and upholstery. Comes complete with polypropylene carpet lance. Changeable jet sizes also available. Colour may vary from the item shown.

Code: Single – 10P (4L) 20P (8L)

Fogger ULV

This stable, versatile, wet fogger, adjustable flow control, valve controls, volume and droplet size

Corrosion proof 6 L tank with wide tank opening for easy filling. High speed motor, 90cm flexible hose, fingertip output at the nozzle. Proven dependability and quality construction that is easy to use.

Code: Single: 220V 101257000. Also available in 110V by special order

Fogger Thermal Barrel

A fogger suitable for thermal fogging products

The Barrel Fogger produces "Dry Fog" similar to smoke itself rather than the wet particles produced by conventional misters and foggers. Remove the barrel and the unit can also be used as an electric sprayer to apply solvent or water based chemicals for deodorising, disinfecting, flame proofing, pest control, fabric protecting etc.

Code: Single: 102257000

Sprayer Industrial (5L)

A professional sprayer for all your carpet care needs

A 5L polished high grade stainless steel sprayer ideal for professional use. Solid brass trigger lance and pump assembly. Complete with pressure gauge for extra accuracy of spray. Maximum chemical resistance includes Viton seals.

Code: SPRAY1

Promotional Literature

Stainshield Professional

Stainshield Professional Promotional Literature

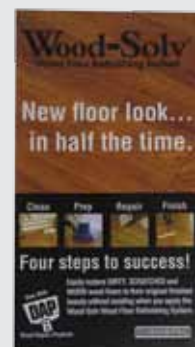

Promotional flyer for the new C6 technology formula protector, informs customers about your revolutionary new product. Show customers or send out as a promotion of your services. Stainshield Professional Customer flyer (pink) promotes your services as a Stainshield Professional applicator. The literature explains the benefits of protecting carpets and how your customers should care for their carpets following protection. The Stainshield Professional Demo Cards allow you to demonstrate the stain resistance of the product, half the Demo Card is treated with Stainshield Professional and half remains untreated, show your customers how liquids roll off the treated surface. Why not include these in your next customer promotion.
