PROFESSIONAL CLEANING TOOLS

Rotating brush 30 cm complete

Reel with swivel and stainless steel mounting bracket equipped with 25 meters cable

Extension cable 15 meters

Mounting bracket cable reel

Converter 220V-24V

AquaQlean® rotating brush 12/24 V (EU Patent)

Rotating brush system, consisting of a 1,5 millimeter stainless steel protection cover for splashing water with spray nozzles, mounted to a plastic engine housing and equipped with a angle adaptor. The system is 30, 56 of 104 centimeters wide and the brushes are interchangeable.

It is ideal for a less physical strain, timesaving and intensive mechanical cleaning of surfaces. When used in combination with the A(S)1 machine the system can be optionally put to use by the remote controller with tap water, mineralfree water or chemicals.

All important hose connections are easily to detach by quick- or push-in couplings.

SPECIFICATIONS

- 5, 7 of 13 spray nozzles for rinsing water and 1 or 3 sprays nozzle for chemicalse
- Rotation speed : 340 RPM
- Engine: 12/24V - 5 Watt

OPTION:

- Forward and backward brush movement

TECHNICAL SPECIFICATIONS		300	500	1000
Voltage	V	12/24	12/24	12/24
Min. water pressure (opening rotating brush)	bar	3	3	3
Maximum temperature (incoming water)	°C	50	50	50
Minimum temperature (incoming water)	°C	5	5	5
Total length	cm	37	37	37
Total width	cm	30	56	104
Total height (including tubes)	cm	16	22	22
