ADVANTAGES OF THE TEXTILE FENDER

DESIGN AND
MANUFACTURE

Patent n° 13/00868

LIGHT

The lightest of the market,
this fender offers a quick
and easy handling.

SPACE SAVING

The deflated fender folds
or rolls for an optimum
space-saving.

DESIGN

Its design in technical textile
offers an incomparable
design and its theard dyed
makes it insensitive to UV.

ULTRA RESISTANT

Its technical design patented
brings to the fender an
extreme resistance to the
compression and tensile
strength.

CYLINDRICAL COVERS & SPHERICAL COVERS

Standard or custom, the FENDERTEX covers offers an additionnal protection to your fenders.

Available in different colours.

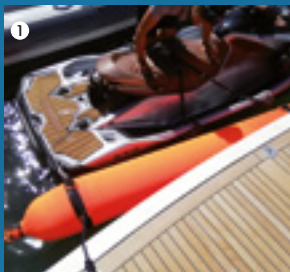

BUMPER, GARAGE & PONTOON FENDER

This system is easily adapted to a boat (bumper, garage, etc.), a dock or a pontoon in order to allow safe docking. Several sizes are available to meet your needs. Models are available on www.fendertex.eu

It consists of the following elements:

- 1 inflatable / deflatable textile fender FENDERTEX®
- Adjustable rings for attaching equipment to the dock or the ship attachment points. They are also equipped with handles that can be used to moor jet skis, tenders or toys.
- Spliced ropes.
- A universal inflation nozzle.

- 1 Bumper protection.
- 2 Garage door protection.
- 3 Pontoon and dock protection.
