

SAFETY FIRST

introducing the **ECOBLAST® PRO** RECHARGEABLE AIR HORN

No matter the industry, maintaining a safe work environment is always your first priority. With its large capacity and all-weather utility, the new Ecoblast® PRO rechargeable air horn has the presence your crews need to be alerted to daily work hazards. Built of strong impact resistance plastic, the Ecoblast® PRO is not only loud but also the most cost effective signalling solution for your work environment. Cost effective because it's the only rechargeable signalling device that refills safely and easily with compressed air. No need for replacement cartridges or chemical signal devices destined for quick landfill. The Ecoblast® PRO will offer years of reliable service while providing all the signalling power you'll need. Be heard, be safe, get Ecoblast® PRO.

BE HEARD, BE SAFE.
