UPLOADED, CHECKED & VERIFIED

C2-CLOUD ANALYSIS – A LOAD OFF YOUR MIND

C2-Cloud provides an advanced data processing and checking facility allowing users to configure exactly how they want the data processed and verified.
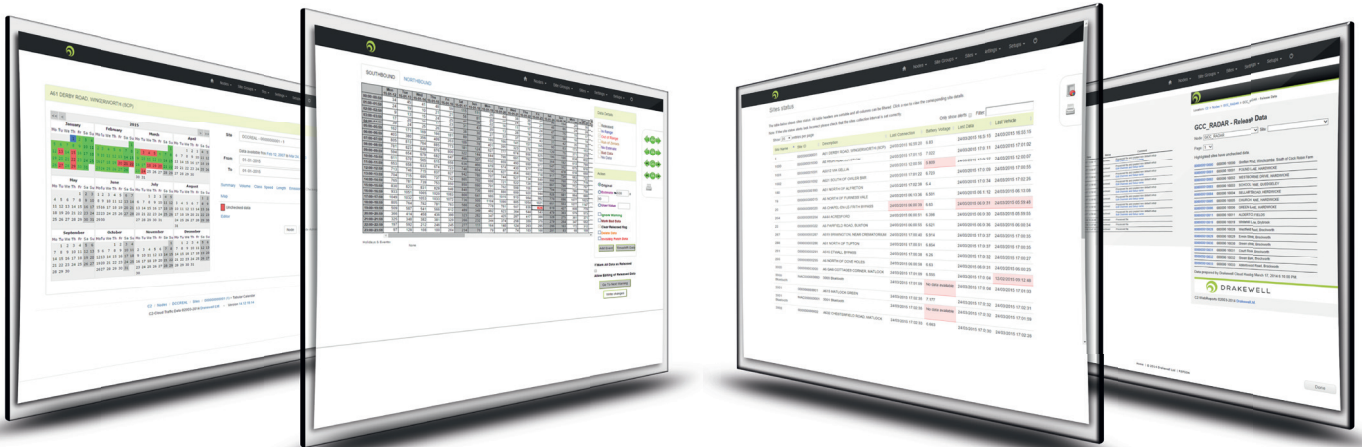

The Drakewell Instation reads data directly from GPRS/IP enabled recorders to the C2-Cloud database in real time or at intervals defined by the user. The health of recorders can be checked, while our powerful data checking engine automatically examines loaded data and notifies users of any potential issues.

The Drakewell Instation Supports ATC, Bluetooth, ANPR, Images and Alerts from a range of manufacturer devices.

Users can upload raw data files that have been collected manually and with support for over 100 file types including ATC (temporary and permanent), ANPR, Bluetooth, Manual Count, Turning Movement and many bespoke formats, users can be confident their needs are met. Per Vehicle Records and Binned Data types are supported throughout C2-Cloud.

FEATURES:

> DATA CHECKING & VERIFYING

> RECORDER HEALTH CHECKING

> SUPPORTS OVER 100 FILE TYPES

Checking Calendar   *Web Based Editor*   *Alert Status*   *Validation*

ADDITIONAL MODULES ENSURE YOU'RE ALWAYS IN THE PICTURE

BRING YOUR TRAFFIC DATA TO LIFE

DRAKEWELL C2-CLOUD

C2-Cloud rapidly loads, checks, validates and reports on all types of traffic data via the Drakewell Instation. Data, query, analysis and sharing — all you need is a web browser. C2-Cloud offers evidence-based decision making and reports that bring your traffic data to life.

> 'LIVE' TRAFFIC DATA > ACCURATE REPORTING
> EASY TO USE > USER SHARABLE DATA

A PARTNER FOR THE ROAD AHEAD

C2 CLOUD JOURNEY TIME — A USER FRIENDLY & POWERFUL MODULE

Our advanced origin-destination and real time route based solution. User friendly interfaces offer summary and detail reports with powerful map-based displays. Supports ANPR and Bluetooth data collection in real time via our Instation or direct upload, with fast and accurate analysis.

> ANPR, BLUETOOTH SUPPORT > OD MATRIX > REAL TIME
> PEDESTRIAN MONITORING > UTMC/ATMS

RELEASE YOUR ENVIRONMENTAL DATA

C2-CLOUD ANALYSIS — A LOAD OFF YOUR MIND

Whether using the Drakewell Instation to capture live data via GPRS and IP or uploading your raw files direct using FTP, C2-Cloud can check and validate the data for you, leaving more time for confident data reporting and sharing.

> MEASURED OR DERIVED EMISSION VALUES
> TEMPERATURE ANALYSIS > NOISE & HUMIDITY ANALYSIS

KEEP TRACK OF WHAT IS VALUABLE

ASSET MANAGEMENT & SURVEY

Our Asset Management and Survey Manager modules offer traffic professionals efficient, user friendly options for the effective recording and controlling of their assets to allow the smooth running of traffic survey programmes.

> SURVEY ADMINISTRATION, PROCESS TRACKING & COST MONITORING
> OS MAPPING & NSG INTEGRATION > EQUIPMENT/PARTS INVENTORY
> ASSET DATABASE CREATION VIA LAPTOP/TABLET/SMARTPHONE
