

Key reasons for choosing MarQuip

MarQuip

PROFESSIONALS IN EXHAUST SOLUTIONS

LET US SAVE YOU TIME AND MONEY!

1. One stop shopping.

When you do business with MarQuip, we can take care of the complete delivery of your custom build exhaust system.

We start from the engine flange and stop at the outlet of the exhaust on the hull. The scoop of the under water outlet can also be delivered to you.

Next to our highly efficient silencers and water injection pieces and water separators, we can also deliver compensators, bellows, all piping, valves, mounting materials and green exhaust solutions.

All parts can be delivered within class rules.

By having one company fully responsible for the complete delivery of the exhaust system,

exhaust, you save considerable time and money on your total buying costs.

You will have one contact that is fully responsible for the complete exhaust system.

2. Free up your engineers

Designing an exhaust system is a combination of theory and practice. There are a lot of points to take into consideration.

Next to silence, you also have to take into account back pressure, temperature, class rules and the available space in the engine room for instance.

By making use of our vast experience in designing complete exhaust systems, you can free up your engineers for your core competence.

3. 100% Guaranteed results

Due to our proven track record of complete exhaust systems on over 150 super yachts, you can have an exhaust system that comes with a 100% guarantee on its performance.

For under water exhausts we make use of a scoop that is an integrated part of the back pressure calculation.

By making use of our expertise you can eliminate trial and error and save considerable time and money.
