# Heros/fire service vacuum

**SPRINTUS**  
Professional Cleaning Equipment

powerful, compact and equipped with the latest technology.

## Suggested Use

Pumping out of water after floods, fire damage restoration, pipe damage, flat roof refurbishment, pond or pool cleaning and other cleaning tasks.

This modern professional vacuum pump is specifically designed for fire brigades and federal agencies for technical relief (THW), and long-term use with all types of floods and high water. Contaminated wastewater, sludge, stones, wood and other non-flammable solids and suspended matter can be efficiently sucked away. Featuring a range of close to 20 metres, emphasis

is on the highest degree of safety and performance.

The Heros comes with IP 68 connectors with bayonet retaining rings and protective covers, safety switches and an IP 54 socket as standard.

The impact-resistant and compact plastic tank allows optimum mobility with a low overall weight of only 19 kg.

Further standard fittings such as the

separate connectible pump, solid rubberised wheels with practical locking brakes, and fire brigade-approved Storz coupling provides you with a reliable partner at your side.

The powerful pump inside the vacuum cleaner has a capacity of up to 14,000 litres of waste water translocation per hour.

10-metre wastewater hose with aluminium C coupling. Connection for fire brigade and THW hoses.

4 accessory slots on the rear for perfect storage.

450-mm metallic base jet with extremely robust die-cast aluminium housing including adjustable castors for setting the clearance.  
Item-no. 102.051

The filter net protects the pump from leaves and other coarse materials.

Standard crevice nozzle  
Item-no. 102.016

Safety as standard:

- ① IP 54 socket.
- ② IP 68 connector with bayonet retaining ring and protective cap.
- ③ FI-safety switch.

Item no.

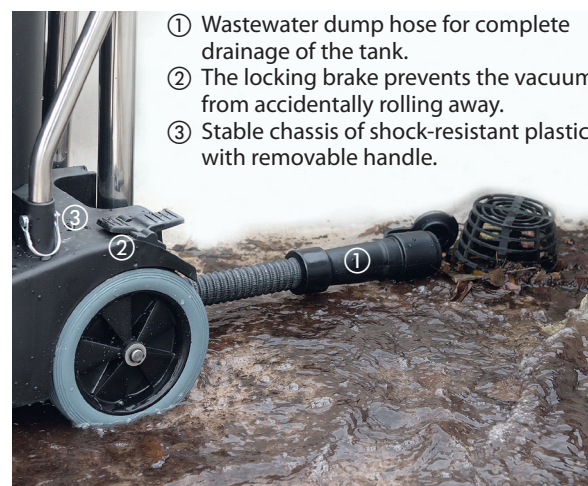

## HEROS

113.001

2 x 0,5 m suction tubes stainless steel ø 38 mm,  
7 m suction hose, 10 m discharge hose,  
integrated wastewater pump, filter net with zipper,  
crevice nozzle 240 mm,  
Metal floor nozzle 450 mm

## STANDARD KIT:

Suction tube stainless steel (1 piece)	102.018
Metal floor nozzle 450 mm	102.051
Crevice nozzle	102.016
Filter net	110.048
7 m suction hose	110.049
10 m suction hose extension	110.053

- ① Wastewater dump hose for complete drainage of the tank.
- ② The locking brake prevents the vacuum from accidentally rolling away.
- ③ Stable chassis of shock-resistant plastic with removable handle.
