

COMPANY PROFILE

The human side of cleaning

We believe that
the greatest satisfaction for
people is to find pleasure and
simplicity in everyday work.

We want to develop solutions that have refined design and are technologically advanced, to offer the world of professional cleaning a satisfying aesthetic, combined with ease of use.

WHO WE ARE

We are the company of professional cleaning machines on a human scale.

We have an agile and flexible organization, which allows us to understand the latest market trends and the requests of our customers faster than others.

A wealth of knowledge and expertise accumulated over 5 business generations, combined with a young and dynamic team, allow us to offer the most innovative solutions in a constantly evolving market like such as the cleaning sector.

WHAT WE DO

We bring an human perspective to the professional cleaning sector, offering to our customers user-friendly solutions for their needs.

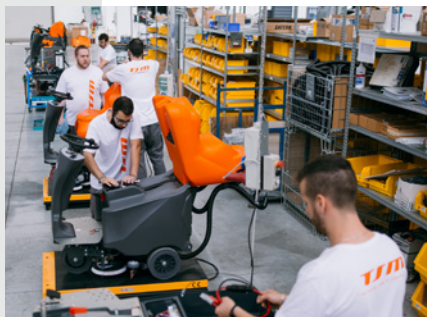

The human component is so important to us which is at the heart of all our designs.

Cleaning solutions and machines that, although they have the latest technology, are made available to everyone. Everyone is able to make use our equipment, since they are so intuitive that they don't require explanation. Everyone is able to maintain them, because they are designed to simplify maintenance operations.

Everyone can feel stisfaction in their use, because they are designed to meet human needs, be that ergonomic or technical.

It is therefore, not the technological trend that guides us, but how through our solutions we can create simplicity for our customers.

OUR PRODUCT PHILOSOPHY

Our motto is to think smart
to act S.M.A.R.T.

Inside our machines there are the values rooted in our family and the entrepreneurial drive that moves us in the constant search for new solutions.

We fully embraced the Smart Company concept: a principle that guides our business choices, but also the acronym that best describes our product philosophy.

Simple, mechanical, competitive, reliable and long-lasting: all TSM products are conceived, designed and finally created to respond to these requirements, this distinguishes us in the market for the production of industrial and urban cleaning machines for 5 generations.

OUR VALUES

Relations with our partners, suppliers and customers are also on a human-scale, because guided by principles that we all believe in and refer to at TSM.

1

LISTENING

We believe in listening as the most effective form of relationship with our collaborators, customers and suppliers. Only through to them can we seize unexplored opportunities and satisfy their needs. It is the sharing of objectives that moves us, not the latest technological trend.

DYNAMISM

Our ambition to improve human work through technology is nurtured by innovation. We grow every day, in the volume of our business and in the quality of the services we offer, thanks to the dynamism of our team and the value we recognize in teamwork.

FLEXIBILITY

Our history and managerial culture has enabled us to develop a lean organization, which allows us to adapt quickly to customer needs and to seize market opportunities.

The environments are not all the same.
Why shouldn't cleaning solutions also be different?

WILLMOP 50

Upright scrubber dryer

Performance and lightness come together in this new generation machine, ideal for the maintenance of difficult and frequented areas.

5A

8A

WILLCHARGE

Intelligent chargers because they never overcharge, and thanks to the internally installed protection fuse, safety and reliability are always guaranteed.

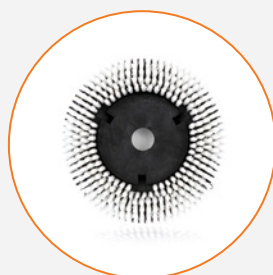

21A

29A

WILLPOWER

Available in the standard 21A (white color) or 29A (gray color) version for greater autonomy. Each battery is equipped with a charge indicator to know the remaining power even if it is not housed on-board.

BRUSHES

PADS

The complete Tools line opens the doors of any environment, making it easier and smoother not only to clean, but also to transport all accessories between different rooms and floors.

WILLSTEP

Transfer trolley for WILLMOP 50

By adding the WILLSTEP on your WILLMOP 50 transfers to various operating environments are easier, without stairs being a problem.

WILLGO

Logistics trolley for WILLMOP 50

It allows the easy transport your WILLMOP 50 and the cleaning accessories you need are always kept close at hand.

WILLCARRY

Modular cleaning trolley for WILLMOP 50

AVAILABLE SOON

It completes the cleaning kit by customizing the trolley components to have more space for the tools you need and your WILLMOP 50.

A world of solutions also for indoor environments. Find out how to clean them thoroughly with us.
