## Professional laundry

For years, Induquim has exclusive washing systems to cover the needs of each sector: **Smart Care®**, to wash clothes for linen in nursing homes, and **Smart Resort®**, for washing clothes in hotels, spas and gyms.

In our continuous challenge to evolve technologically, we have gone further introducing these systems in **Indubox** in order to generate even greater benefit and profitability to the washing processes. It is about the systems:

**Smart Care Inside®** and **Smart Resort Inside®**.

### Smart Care® Inside

### Exclusive washing system for linen in nursing homes

#### Aloe Care Inside PROFESSIONAL

Concentrated moisturising detergent with Aloe Vera

It contains sequestrants, surfactants and optical brighteners that confer an optimum treatment to the washing process. It also contains soap which performs an extra cleaning and foam control function. It also contains soap which performs an extra cleaning and foam control function.

#### Fancy Care Inside PROFESSIONAL

Concentrated low alkalinity active detergent

It contains sequestrants, surfactants and optical brighteners that confer an optimum treatment to the washing process. It also contains soap which performs an extra cleaning and foam control function. In addition, it incorporates an active principle based on carbonates to help the tensiactives to perform their function.

#### Suax Care Inside PROFESSIONAL

Concentrated complete neutralising softener

This softener removes the remains of alkalinity and chlorine. It prevents static electricity and confers a soft and pleasant touch to the garments. Moreover, Suax Care Inside provides a greater volume creating a clean and pleasant feeling.

Innovative and exclusive of Induquim for nursing homes

- Removes all common stains
- Cares for fabrics without damaging them
- Cares for and protects the most sensitive skins
- Maximum savings and profitability
- Exact and balanced dosages
- Maximum sanitisation
- Maximum comfort, rest and tranquillity
- Sustainable and respects the environment (Eco-Friendly)

## Professional laundry

### Smart Resort® Inside

Exclusive washing system for hotel, spa and gymnasium linen

#### Cell Resort Inside PROFESSIONAL

Concentrated micellar detergent

Micellar detergent that forms micelles that facilitate the removal of dirt and grease in the wash bath.

#### Ionic Resort Inside PROFESSIONAL

Concentrated comprehensive efficiency ionic detergent

Comprehensive efficiency ionic detergent. Natural soap to care for and respect fabrics and a pleasant fragrance to get an incredible sensation of wellbeing.

#### Suax Resort Inside PROFESSIONAL

Complete neutralising concentrated softener

This softener removes the remains of alkalinity and chlorine. It prevents static electricity and confers a soft and pleasant touch to the garments. Moreover, Suax Resort Inside provides a greater volume creating a clean and pleasant feeling.

Innovative and exclusive of Induquim for hotel linen

- Prevents incrustations
- Cares for fabrics without damaging them
- Cares for and protects the most sensitive skins
- Maximum savings and profitability
- Exact and balanced dosages
- Maximum sanitisation
- Maximum comfort and rest
- Sustainable and respects the environment (Eco-Friendly)

### Smart Care® Inside and Smart Resort® Inside

• Exclusive •

 Cold water

 Without chlorine

#### Oxyum PROFESSIONAL

Concentrated low temperature active oxygen liquid

Non corrosive, high efficiency and performance product for whitening and sanitizing treated fabrics. It does not produce bad odors in relationship to products based on peracetic acid.

#### Mantex PROFESSIONAL

Special degreaser for washing linen with cold water

This revolutionary product is formulated to be used together with our innovative washing systems. Is the perfect complement in the professional laundry sector

## Professional laundry

### Self-service laundries

### Self-service laundries

We have developed specific products for self-service laundries with European Ecolabel label. This sector is increasingly booming so the Indubox system is the right solution to meet these needs.

#### EcoService PROFESSIONAL

Ecological detergent

High concentration product ideal for washing fabrics. It incorporates ingredients that protect the fabrics from the aggression of the deterative components. Easy application on difficult spots.

#### EcoService Soft PROFESSIONAL

Ecological Softener

Product with European label Ecolabel. It gives the clothes a total softness with a pleasant and intense perfume. It contains ingredients that with a single application makes the rough and rigid fabrics soft and ductile, pleasantly perfuming the garment.

\* It is necessary to incorporate a whitener to the washing process.
